Office of the Governor
207 State Capitol, Springfield, Illinois 62706

February 16, 2011

To the Honorable Members of the General Assembly and the People of the State of Illinois:

I respectfully submit to you the fiscal year 2012 Operating Budget, a \$26.9 billion general funds plan designed to help Illinois return to fiscal stability. In this budget - *Illinois Working* - we lay out a plan designed to provide streamlined, efficient state government, foster economic growth, and develop the jobs of today and tomorrow.

For decades, Illinois' budget suffered from fiscal mismanagement, a situation compounded by the recent national recession. Today, we are acting to put our financial house in order, returning our state to budget stability, allowing us to pay our bills on time and continue our economic growth.

I have signed into law a major spending reform called "Budgeting for Results." This law fundamentally changes the way we spend taxpayer dollars by mandating that budget decisions be based on performance and impact, not politics. We also passed a new revenue law, which, for the first time in Illinois history, places limits on state spending. Immediately after implementing these reforms, Fitch and Standard & Poor's rating agencies took positive action on the state's bond ratings, acknowledging Illinois is on the track to fiscal recovery.

In times like these, accountability and responsibility are critical. We must continue to tighten our belts in all areas of state government. Since taking office, I have worked with members of the General Assembly to reduce general funds' appropriations by nearly \$3 billion, a 10.5 percent reduction. We have passed historic pension reform, which will save taxpayers more than \$200 billion over the next generation, and we have passed major Medicaid reform which will save \$800 million more. We have also passed ethics reform to regain the trust of our citizens. While tough decisions have been made, we will continue to maintain our commitment to quality education, public safety and protecting our most vulnerable citizens and the essential services upon which they rely.

In Illinois, we are competing in a global marketplace by taking the necessary steps to strengthen our economy, attract new investment and put more people to work. Last year, Illinois added 46,000 jobs, more jobs than any Midwestern state. December marked the ninth straight month of declining unemployment, and the unemployment rate dropped in every county for the first time since 1974. While these are steps in the right direction, too many Illinois men and women are still looking for work. My promise to you is that I will continue investing in job-generating initiatives to bring economic recovery to everyone's doorstep.

The task before us will not be easy, but I am confident we have the right plan to meet our challenges. As we move forward to build a more prosperous and dynamic economy, let us come together to make this Land of Lincoln proud and continue to get *Illinois Working* toward an even-brighter future.

Sincerely,

A handwritten signature in cursive script that reads "Pat Quinn".

Pat Quinn
Governor, State of Illinois

State of Illinois

A READER'S GUIDE TO THE FISCAL YEAR 2012 ILLINOIS STATE BUDGET

INTRODUCTION

The Illinois budget process is driven by state constitutional and statutory requirements, a wide array of general guidelines and technical considerations. This Reader's Guide is designed to help readers understand the structure and content of the operating budget. It includes the following sections:

- A description of the budget documents
- An explanation of how the fiscal year 2012 budget document is organized
- An organization chart of state government
- An explanation of the basis of budgeting
- A guide to reading and understanding agency budget submissions, including narratives and budget tables
- A description of the various fund types in the Illinois accounting system

BUDGET OPERATIONS

This document presents the *Fiscal Year 2012 Illinois State Budget*. It sets forth the governor's operating budget recommendations for the period July 1, 2011, through June 30, 2012.

The state's operating and capital budgets are subject to the same procedures. However, the *Fiscal Year 2012 State of Illinois Capital Budget* is presented in a separate document for the reader's convenience. Both documents are available at www.state.il.us/budget or www.budget.illinois.gov.

BUDGET DOCUMENT ORGANIZATION

The *Fiscal Year 2012 Illinois State Budget* is organized as follows:

- **The Governor's Letter of Transmittal** to the General Assembly and the residents of Illinois.
- **Table of Contents.**
- **Chapter 1:** The *Reader's Guide*.
- **Chapter 2:** The *Budget Summary* of the state's current fiscal plan. This chapter presents the governor's budget priorities and key recommendations. It also

highlights key financial issues and includes several tables that summarize appropriations, expenditures, revenues and funds. Chapter 2 concludes with the following *Summary Tables*:

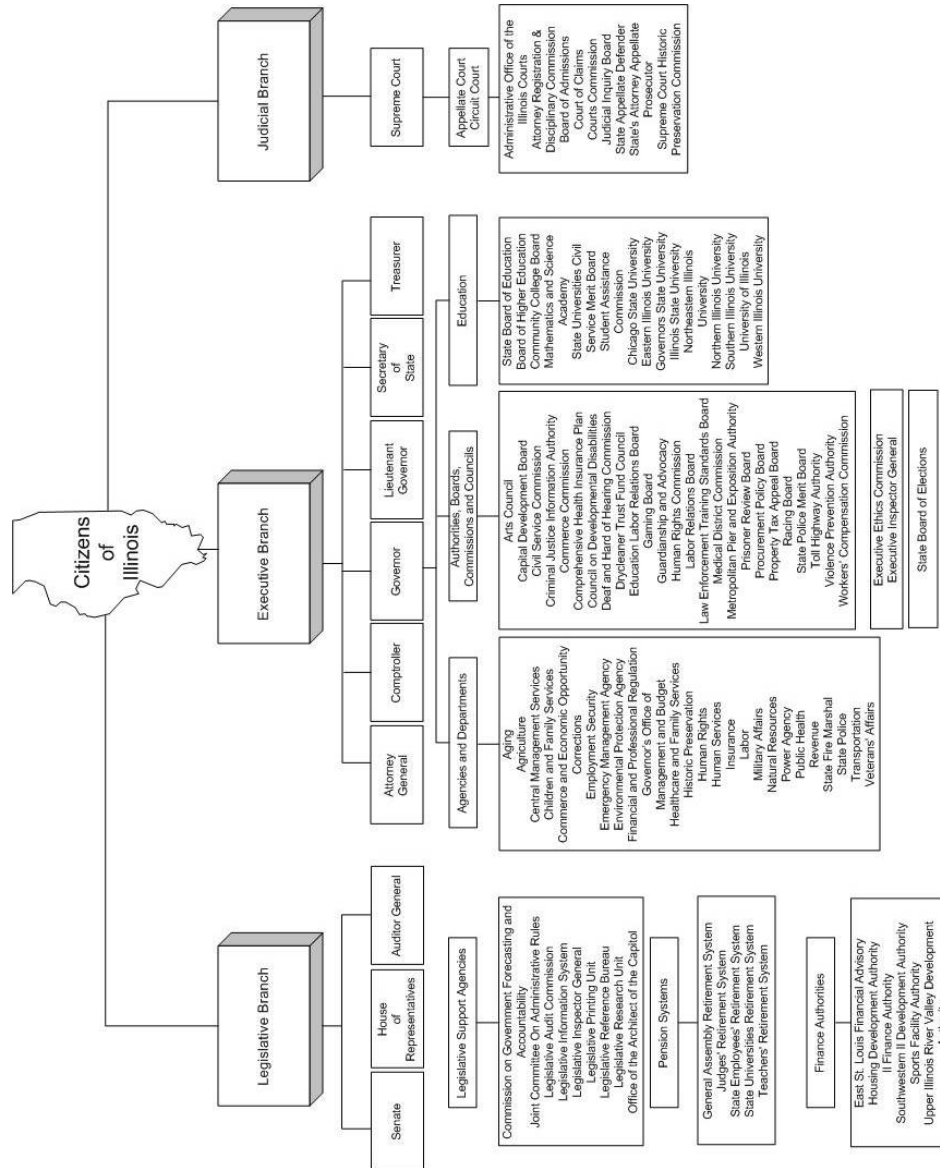

- Table 1-A: Appropriations by Agency
- Table 1-B: Supplemental Appropriations for Fiscal Year 2011
- Table II-A: Appropriated Revenues by source
- Table II-B: General Funds Revenue by Source
- Table II-C: General Funds Revenue - Modified Accrual Basis
- Table II-D: General Funds Expenditures - Modified Accrual Basis
- Table III-A: Road Fund
- Table III-B: Motor Fuel Tax Fund - State Funds
- Table IV-A: Appropriated Operating Funds by Fund Group for Fiscal Year 2012. This is a presentation of the projected operating cash flow for each fund group
- Table IV-B: Appropriated Operating Funds by Fund for Fiscal Year 2012. This table presents the fund balance for each fund in the Illinois accounting system. The end of year cash balance is equal to the beginning of year cash balance, plus receipts, minus disbursements
- **Chapter 3:** Budgeting for Outcomes.
- **Chapter 4:** A report on the state's *Public Retirement Systems*.
- **Chapter 5:** *Illinois' Economic Outlook and Revenue Forecast*. This chapter describes Illinois' economy within the context of the national economy. Details are also provided on revenue sources and revenue forecasting methodology used by the state.
- **Chapters 6 through 11** cover the budget recommendations for each agency and for other branches of government, including elected officials. The agencies are grouped by objectives, with a chapter dedicated to each group. The objective categories are:
 - *Education*
 - *Economic Development*
 - *Public Safety and Regulation*
 - *Human Services*
 - *Quality of Life*

Readers Guide

State of Illinois

- *Government Services* (including elected officials, legislative agencies and judicial agencies)
- **Chapter 12:** The *Debt Management* report describes the state's debt affordability
- **Chapter 13:** *Demographic Information* on the Illinois population
- **Chapter 14:** A *Glossary* of special terms.

STATE OF ILLINOIS ORGANIZATION CHART

Adapted from the Fiscal Year 2003 Illinois Comptroller Comprehensive Annual Financial Report - modified February 2011

State of Illinois

BASIS OF BUDGETING

The Illinois Constitution requires the governor to prepare and submit a state budget to the General Assembly for the upcoming fiscal year. The budget sets forth the estimated balance of funds available for appropriation at the beginning of the fiscal year, the estimated receipts and a plan for expenditures during the fiscal year. The Illinois Constitution requires the governor to submit a balanced budget.

PA 90-479, enacted in 1999, amended the Civil Administrative Code (state budget law) to provide guidance on balanced budget requirements to the governor as he proposes the budget, and to the General Assembly as it makes appropriations. Public Act 90-479 applies only to six funds, defined as budgeted funds: general revenue, common school, education assistance, road, motor fuel tax and agricultural premium.

For the budgeted funds, revenue estimates include the beginning fund balance, revenues to be received during the budgeted year and revenues to be collected in the two-month lapse period following the budgeted year.

Public Act 90-479 also requires the use of the “modified accrual” basis of budgeting. Revenues are accounted for in the year they are due – not when they are received. However, the amounts due to the state in one fiscal year, but actually received in the following fiscal year, are typically small and consistent over time, and are due to the normal payment cycles set forth in law. For instance, final monthly sales tax payments are due the state on the 20th day of the month following the sale. Consequently, final sales tax payments for June sales are received in July, the first month of the ensuing fiscal year.

Likewise, revenue estimates include only those revenues due to the state during the fiscal year, July 1 through June 30. They do not include revenues collected in the lapse period of the budgeted fiscal year (through August 31), which were due to the state as of June 30 of that year.

Revenue estimates also include federal reimbursements pursuant to Section 25 of the State Finance Act. The main Section 25

programs are Medicaid and employee health insurance.

Expenditure estimates for budgeted funds take into account the costs to be incurred in the budgeted fiscal year, including those to be paid from future fiscal year appropriations. Expenditure estimates in Table II-D do not include costs paid in the budgeted fiscal year that were incurred in the prior fiscal year.

Of the budgeted funds, only the General Revenue Fund has expenditures pursuant to Section 25 of the State Finance Act. Thus, expenditure estimates for the other funds are unaffected by PA 90-479.

Revenue and expenditure estimates also include transfers between funds that are based on revenues received or costs incurred during the budgeted year.

All other funds must be balanced so that proposed expenditures and appropriations do not exceed funds estimated to be available.

A GUIDE TO UNDERSTANDING AGENCY BUDGET SUBMISSIONS

The budget recommendations of the *Fiscal Year 2012 Illinois State Budget* include a narrative of each agency’s operations and summary tables of its budget.

AGENCY NARRATIVE

The narrative for each agency includes the following sections:

- **Primary Budget Outcome:** A brief description of the agency’s objective.
- **Meeting the Outcome:** A brief description of how the agency is meeting its objective.
- **Program Proposals:** A description of agency initiatives for the following fiscal year(s).
- **About the Agency:** Provides the agency address and a link to the agency web page.
- **Agency Resources Employed:** A table summarizing funding sources, recommended appropriations and two-year history of actual appropriations. Also included is a three-year headcount trend.

Readers Guide

State of Illinois

- **Performance Measures:** A table that captures the agency's progress in key areas that relate to meeting its outcome. Emphasis is placed on results that impact the public.
- **Programs:** A summary table of resources allocated to each program within the agency.

AGENCY BUDGET TABLES

The budget tables provide summary detail on each agency's budget. The budget tables list each agency's appropriations and expenditures by major fund group, by fund and by division, as well as the agency's headcount by division. Personnel detail forms, which list the agency's staff by division and position title, are available in a separate volume.

Appropriations by Major Fund Group

- The appropriations recommendations requiring General Assembly action are shown by type of expenditure for each of three major fund groups: general funds, other state funds and federal funds.
- Within each fund group, the appropriations and expenditures are further subdivided into major categories such as personal services and fringe benefits, contractual services, other operations and refunds, designated purposes, and grants. Each appropriation for designated purposes and grants is listed individually.

Appropriations by Fund

- The agency's resources are shown in total for each fund requiring appropriations by the General Assembly.

Appropriations by Division

- The agency's new appropriations and reappropriations requiring General Assembly action are shown by division as classified by the comptroller.

Headcount by Division

- The agency's headcount by division is presented, showing actual headcount at the end of fiscal year 2010, estimated

headcount for fiscal year 2011 and recommended headcount for fiscal year 2012.

Column Descriptions

- The fiscal year 2010 appropriations column reports all original and supplemental appropriations and reappropriations enacted by the General Assembly and signed into law by the governor for fiscal year 2010. The amounts also reflect approved two percent transfers and executive orders issued by the governor.
- Fiscal year 2010 expenditures include those incurred from July 1, 2009 through June 30, 2010, and during the two-month lapse period ending August 31, 2010. During the lapse period, outstanding fiscal year 2010 remaining state obligations were liquidated.
- Fiscal year 2011 appropriations reflect all original and supplemental appropriations for fiscal year 2011 enacted by the General Assembly and signed by the governor through January 31, 2011. This column also reports changes due to approved two percent transfers and executive orders issued by the governor.
- Fiscal year 2011 estimated expenditures reflect the expenditures projected to be incurred through the fiscal year, including the lapse period, and also account for anticipated two percent transfers, but do not include the requested fiscal year 2011 supplemental appropriations shown in Table I-B.
- Fiscal year 2012 appropriations show the recommended budget, or in the case of other elected officials or legislative/judicial branches of government, requested budget.

An example of the Budget Table follows.

State of Illinois

DESCRIPTION OF FUNDS

- The funds in the Illinois accounting system are classified into two broad categories: appropriated and non-appropriated funds.
- Appropriated funds are further classified into eight fund groups: general, highway, special state, bond financed, debt service, federal trust, revolving and state trust funds.

- Non-Appropriated funds are composed primarily of federal and state trust funds, and include a few special state funds.

The following chart describes the major appropriated fund types, as well as the sources and uses of those funds.

STATE OF ILLINOIS MAJOR FUND GROUP

Fund Group	Sources	Purposes/Uses
General Funds	State income taxes, sales taxes, other taxes and fees	Support the regular operating and administrative expenses of most state agencies. Include General Revenue Fund, Education Assistance Fund, Common School Fund and General Revenue-Common School Special Account Fund.
Highway Funds	Motor fuel taxes, vehicle registrations, licenses and fees	Receive and distribute special assessments related to transportation. Support transportation-related activities at the state and local levels.
Special State Funds	Taxes and fees	Represent accounts restricted to the revenues and expenditures of a specific source. Support such diverse activities as medical assistance, children's services, environmental cleanup, financial regulation and health insurance. They are designated in Section 5 of the State Finance Act (30 ILCS 105/5) as special funds in the State Treasury and not elsewhere classified.
Bond Financed Funds	Build Illinois and General Obligation (GO) bonds	Receive and administer the proceeds of various state bond issues. Pay for capital improvements to local schools, state facilities, higher education facilities, and for development of coal-burning power plants, local water and wastewater treatment facilities, public transportation, airports, environmental programs and economic development projects.
Debt Service Funds	Transfers in from other funds	Account for the resources obtained and accumulated to pay interest and principal on debt obligations. Provide for debt service payments on state bonds.
Federal Trust Funds	Federal grants	Support grants and contracts between state agencies and the federal government. Administered for specific purposes established by terms of grants and contracts. Support a variety of programs including education, healthcare, human services, community development, transportation and energy.
Revolving Funds	Repayments on project loans	Finance the operations of state agencies that render services to other state agencies on a cost reimbursement basis; support local capital projects. Appropriation of these funds depends upon intra-governmental service requirements and appropriation of other state agencies.
State Trust Funds	Various	Hold funds on behalf of other entities or individuals (such as pensions). Established by statute or under statutory authority for specific purposes.

BUDGET SUMMARY

This page intentionally left blank.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

WHAT A DIFFERENCE A YEAR MAKES

In last year's proposed budget, Illinois faced a staggeringly large deficit that could only be addressed by either a) monumental cuts that would have crushed the educational, health and social services systems while the state waded through a difficult recession, or b) through a number of borrowing strategies.

The large budget shortfall was the result of a continual structural deficit that was built up over many years. The budget crisis was compounded through a back-log of accounts payable that totaled approximately six billion dollars. The majority of the state's vendors and service providers found themselves waiting six months or longer to receive payment. Such a situation could be devastating to a small company that provides food to the state's prisons, or to a family-run business that cares for frail, elderly adults. K-12 schools and universities were left in the unfortunate circumstance of not knowing when payment from the state would be received, potentially affecting operations and adversely impacting school programs.

The fiscal year 2011 budget crisis, along with the persistent structural deficit, required action through a multi-faceted approach. Governor Quinn proposed five keys to fiscal recovery:

1. Creating jobs
2. Cutting costs
3. Strategic borrowing
4. Continued federal assistance through the recession
5. Increased state revenues

All five were done and as a result the state is in a better position to solve our fiscal crisis.

CREATING JOBS

- *Illinois Jobs Now!*, the \$31 billion capital program that kicked off in 2009, contributed to the busiest road construction season in state history. With nearly \$7 billion in projects completed or underway, capital investment in roads has created more than 135,000 thousand jobs in Illinois.
- As the nation and the state pull out of the recession, total employment in Illinois is increasing. Total employment as of December 2009 was 5.866 million. As of December 2010, total employment had grown to 6.067 million, an increase of over 200,000.

CUTTING COSTS

- Hundreds of programs and grants have been reduced across state government, including the Department of Agriculture's World Trotting Derby, medical scholarships provided through the Illinois Department of Public Health and funds for regular transportation through the Illinois State Board of Education.
- In April 2010, Governor Quinn signed into law Senate Bill 1946, an historic pension reform measure affecting all state government employees hired after December 31, 2010. This reform will reduce the pension liability by \$220 billion over the next 35 years.
- House Bill 5420 introduced Medicaid reform that will expand coordinated care to cover at least 50 percent of recipients by 2015. The bill also improves the prescription drug program, increases civil penalties for those who abuse the system, requires proof of Illinois residency and a month's worth of income information (instead of a single paystub), and annual redetermination of eligibility. Other reforms include a moratorium on eligibility expansions, limiting income of future All Kids enrollees to 300 percent of federal poverty level and extending the sunset of All Kids from 2011 to 2016.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

- In January, the General Assembly passed and Governor Quinn signed into law hard spending caps for the next four fiscal years. The spending caps restrain growth to around 2 percent each year. With spending pressures in education, health care, human services, personnel expenditures and pension contributions, agencies and state leaders must continue to be diligent seeking operational efficiencies and spending reforms.

STRATEGIC BORROWING

- Through gaining the first-ever authorization of Interfund borrowing, excess balances in hundreds of existing special-use state funds were tapped, putting money to work to pay bills at almost no cost. This technique replaces fund sweeps used previously; the money will be repaid within 18 months.
- To provide a large one-time revenue source to pay down existing vouchers, the state sold the rights to a portion of its future tobacco settlement payments netting \$1.25 billion to the state.
- Annual pension costs continue to rise and it will take time to realize the savings of the pension reform described above. In fiscal year 2011, they accounted for nearly 13 percent of the general funds budget. To prevent catastrophic cuts to education, healthcare and human services, legislation was passed to allow for the financing of the pension system payment. Taking a pension “holiday” would only lead to bigger future funding needs.

FEDERAL ASSISTANCE

- ARRA provided enhanced matching dollars on state Medicaid spending through fiscal year 2010. The federal government elected to extend the enhanced match through fiscal year 2011, phasing out the enhancement from January through June. By the end of fiscal year 2011, the enhanced Medicaid match will have provided \$1.25 billion for all funds.
- The Federal Education Jobs Fund Program provided \$415.4 million for Illinois elementary and secondary schools. This money has been used to create and retain education-related jobs.

INCREASED REVENUES

- In January, Governor Quinn signed into law increases to individual and corporate income tax rates. Illinois has long been one of the lowest-taxing states in the nation. This low level of revenue meant inadequate funding, budget deficits and growing payment cycles for the state’s vendors and service providers—problems that only grew worse during the recession. For fiscal year 2012, the income tax increases will provide nearly \$7 billion of additional revenues for the state’s general funds.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

THE GOVERNOR'S PRIORITIES

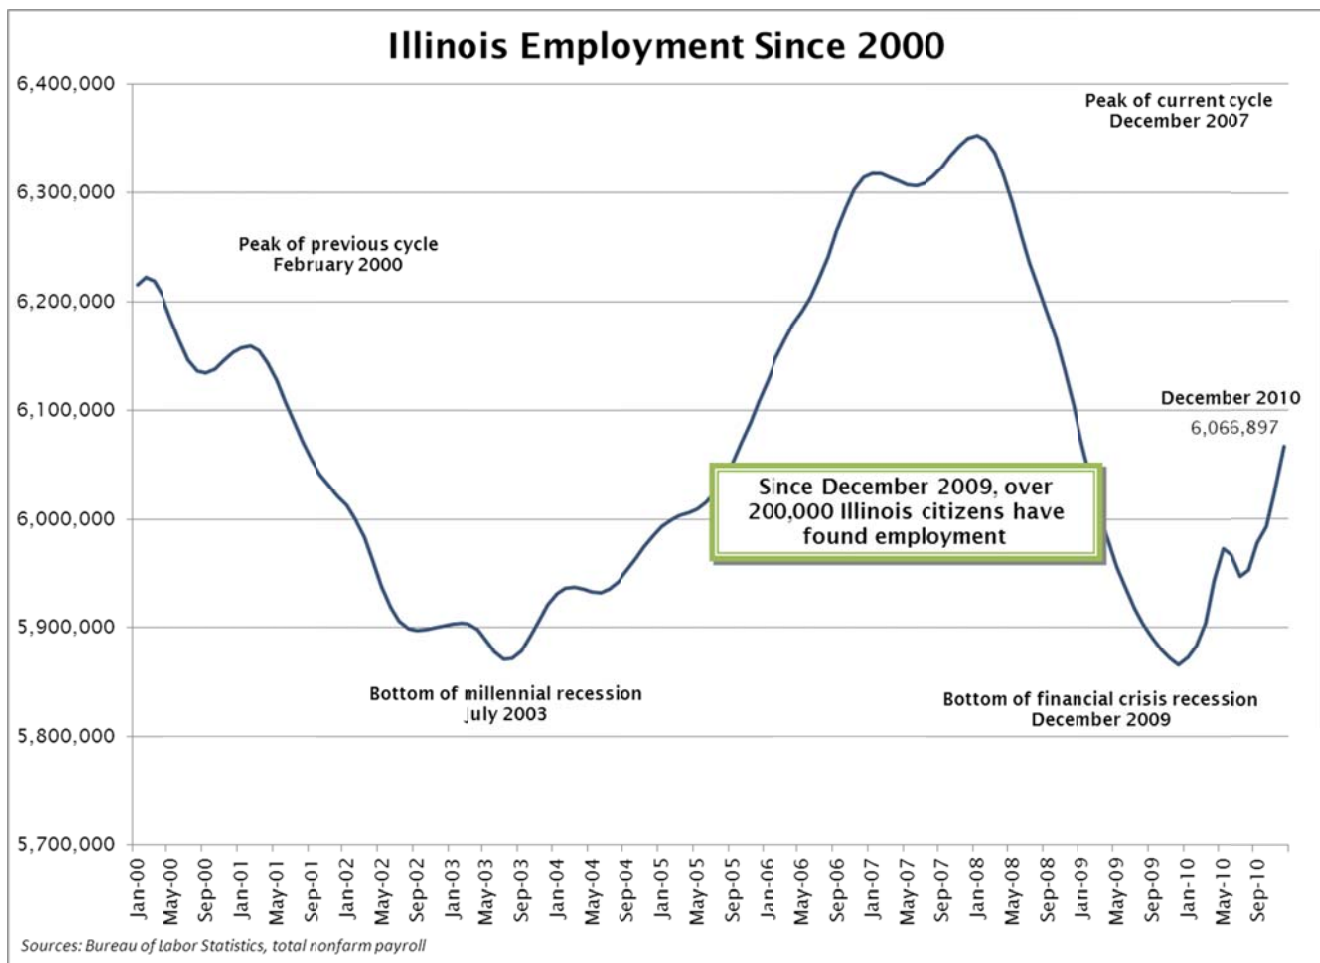

Despite the tremendous progress of the past year, many challenges remain. Some of them are budgetary, some reflect the current economic condition of our state, and others are more related to policies that will affect the state for years to come.

EMPLOYMENT

Even with current success in creating jobs, Illinois employment remains a top concern. Total employment as of December 2010 was over 300,000 under its peak three years earlier.

While the recovery from the national recession can no longer be classified as "jobless," employment recovery is lagging overall economic recovery as many corporations are choosing to retain earnings rather than reinvest in human resources.

Illinois Jobs Now! must maintain its commitment to invest in the state and create jobs. Additionally, the state continues to offer tax credits to promote job creation for small businesses. Governor Quinn will also continue to work with large corporations to create economic packages that encourage investment in Illinois.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

PAYMENT CYCLE

For nearly a year, many state vendors and service providers have had to wait six months or more for payments due to cash flow problems resulting from the budget crisis. Such delays have been devastating to some vendors. Waiting six months has meant depleting cash reserves, exhausting lines of credit, reduction in or denial of some services, layoffs, delays in filling job openings and delays in issuing paychecks. For too long, the State of Illinois has been borrowing from its vendors and service providers. While the state pays prompt payment penalty interest on many of its vouchers over 60 days old (over \$62 million paid in fiscal year 2010, all funds), the true costs are known only to the small business owner who wonders when the next payment from the state may come—and what he or she will do if it comes too late.

Our procurement system is strained with fewer and fewer vendors willing to bid on state business. With billions of dollars in procurement spending each year, hundreds of millions in excess costs are added to state spending. Failing to honor our commitments, the state's credit reputation suffers, costing us hundreds of millions in additional interest costs on our capital debt issuance. Such unnecessary costs are acceptable.

Governor Quinn has asked for immediate passage of Senate Bill 3, which provides authorization for debt restructuring bonds. By refinancing over \$8 billion of its existing bills, Illinois can borrow at a set rate to pay off several billions in vouchers, the group insurance backlog and the business income tax refund backlog. That \$8 billion will go into the state's economy over the next year, and the payment cycle for vendor's invoices will return to normal. Instead of waiting half a year for payment, vendors will be paid within 30-60 days. This isn't just borrowing, this is transferring debt from unwilling lenders to willing lenders.

GLOBAL COMPETITIVENESS

In his 2010 State of the Union address, President Obama announced his goal to double the nation's exports over the following five

years. Governor Quinn has embraced this goal and set the same for the state. Illinois is the sixth largest exporting state (as of 2009) and the largest inland exporter of goods and services, and our ability to compete in world markets is helping our economy recover. But doubling exports will require tremendous commitment and a coordinated effort to lead trade, export and international tourism initiatives within the state. The Department of Commerce and Economic Opportunity's Office of Trade & Investment will lead these efforts.

EDUCATION IMPROVEMENTS AND STABLE FUNDING

Our public education system is responsible for preparing children for success in school and in the workplace beginning as early as birth and continuing through adulthood. In order to achieve fundamental and lasting improvement in our state's educational systems, it is necessary to coordinate and leverage our policies and resources. Focus on student assessment and student growth will help us transform the education accountability system and develop students who are college and career ready.

College affordability remains a critical issue for students and families across Illinois. Governor Quinn has supported full-funding for the Monetary Award Program (MAP), but even at this level it has not been possible to meet the growing demand for financial support for post-secondary education. The fiscal year 2012 budget includes increased MAP funding which will benefit community college students.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

ONGOING CAPITAL INVESTMENT NEEDS

A comprehensive capital program funds more than just roads and schools. It is flexible enough to address changing needs of a complex state. Proposed expansion of the capital program focuses on deferred maintenance at state buildings to replace roofing systems, upgrade electrical and alarm systems, and improve compliance with the Americans with Disabilities Act. Addressing deferred maintenance will save money in operations (see Appendix A for state facility savings). Capital can also fund long-term infrastructure needs such as a statewide information technology system. State government lacks an integrated accounting system, as well as the capability to develop such a system. Antiquated, non-unified systems create inefficiencies and perpetuate difficulties in managing state spending, programs, contracts and performance measurement.

Total FY12 Capital Appropriations

FY2012: Fiscal Overview & Budget Summary

State of Illinois

HEALTHCARE COSTS

Controlling healthcare costs presents one of the biggest challenges to the state's and nation's budgets. With the passage of federal healthcare reform, states will face greater challenges as they work to implement reform measures and fund required services. Governor Quinn's Healthcare Reform Implementation Council conducted meetings across the state for key stakeholders including consumers, insurance companies, healthcare providers and other advocates to receive feedback on how the state should implement reforms. They have addressed operational challenges including the establishment of a health insurance benefit exchange, and the expansion of the Medicaid program to those below 133 percent of the federal poverty level.

The council also heard feedback from stakeholders on how to improve the quality of care by utilizing various coordinated care models that will provide patient-centered care as well as reduce inefficiencies. Based on all of the feedback it received, the council issued a report with recommendations for implementation. The recommendations reflect the efforts the state will make to protect consumers and improve access, quality and effectiveness for Illinois residents.

REBALANCING THE LONG-TERM CARE SYSTEM

Illinois must be more aggressive in shifting long-term care patients from institutions to community-based care. From both policy and budgetary perspectives, we know that deinstitutionalization of our most vulnerable populations will not only allow us to reduce spending but will also allow individuals to receive care they need in their homes and in their communities. The challenge is to find creative financial solutions to assist these populations to be able to afford their care, but also to invest in housing solutions that will allow them to continue to live alone or in a supportive environment.

UNFUNDED PENSION LIABILITY

Consider the state's unfunded pension liability as a mortgage on future public employees' pension payments. Illinois has a long history of high unfunded liability—a big, decades-long mortgage problem, a big risk. After fiscal year 2010, following losses from a deep recession, the unfunded liability sat at over 60 percent. While the pension reform of 2010 improved the situation by decreasing future liabilities—and certainly the economic recovery improved net assets for the pension funds—significant long-term improvements will come only from additional pension reforms, or increasing the annual required state contributions¹. Until one or more of these options is achieved, pension funding issues will persist.

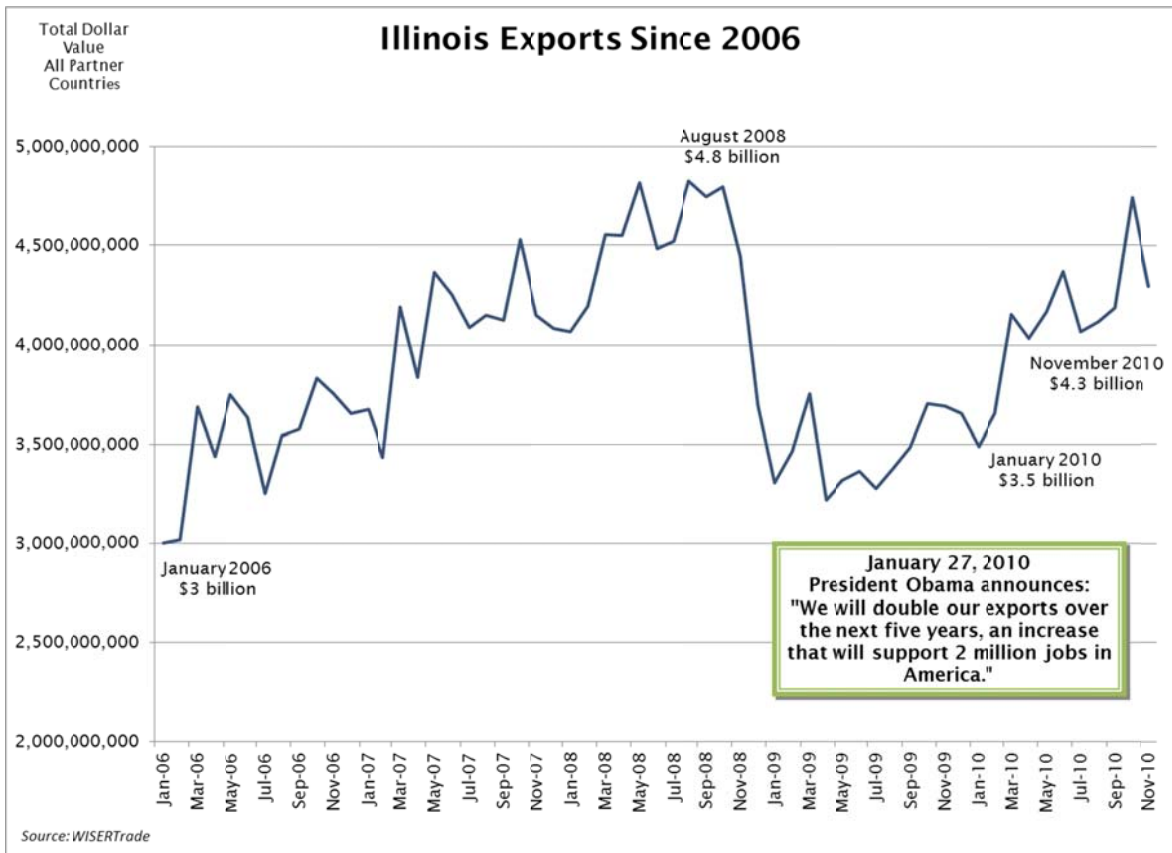

IMPLEMENTING BUDGETING FOR OUTCOMES

Governor Quinn and the General Assembly have demanded budget reforms. Recent reform measures call for timelier reporting of state spending, annual spending caps and implementation of Budgeting for Outcomes. This new process of creating a state budget will now base appropriations and spending on results-driven outcomes, not on the previous year's appropriations. This reform cannot be implemented overnight, but this year's budget is a first step toward Budgeting for Outcomes. We are presenting not just of agencies, but six groups of agencies that comprise our prioritized outcomes. Over the next few fiscal years, we will establish more robust performance metrics and develop ways to tie spending to those metrics for comprehensive analysis. Budget reform will mean better value for taxpayer dollars, and a better state government.

State of Illinois

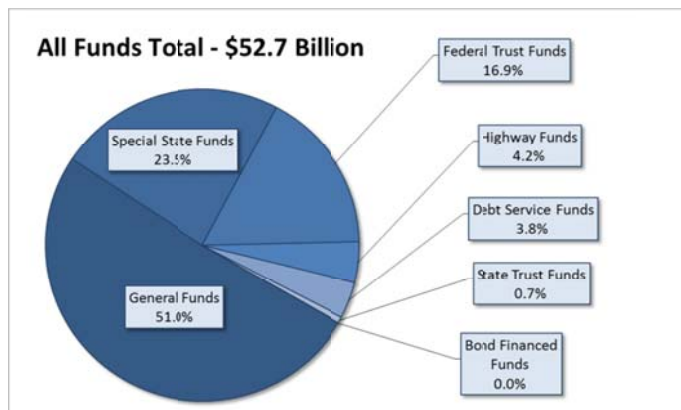

FY2012: Fiscal Overview & Budget Summary

State of Illinois

FINANCIAL SUMMARY

The proposed level of operating appropriations from all funds in fiscal year 2012 is \$52.7 billion, compared to a fiscal year 2011 appropriation of \$53.5 billion. This represents a decrease of \$0.8 billion from fiscal year 2011. Appropriations are made from individual funds, the names of which are often indicative of either the purpose of the appropriation or the major source of the funds' receipts. The following table shows appropriations by major fund group.

**Operating Appropriations by Fund Group
Fiscal Year 2012**

General funds - The largest fund group, in terms of dollars, are the General Funds. This fund group represents 51 percent of total recommended appropriations and consists of the General Revenue Fund, the Common School Fund, the Education Assistance Fund and the General Revenue-Common School Special Account Fund. The General Funds support the largest proportion of state programs as well as the executive, legislative and judicial branches of state government. The General Funds are commonly known as the state's operating funds.

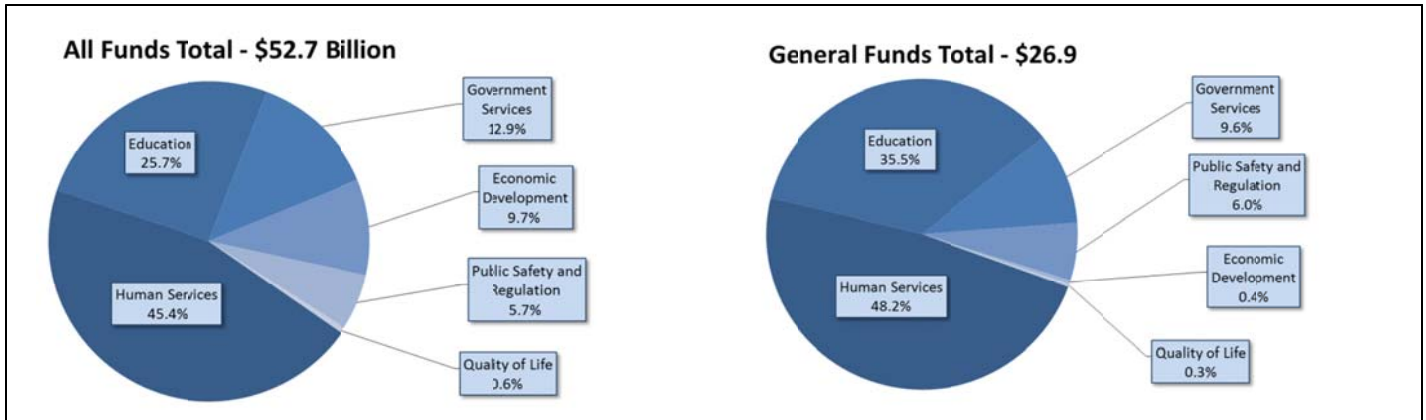

Special State Funds - The next largest fund group, in terms of dollars, are the Special State Funds. Included within this group are the following major categories:

- **Highway Funds** - These funds include the state Construction Account Fund (only presented in the capital budget), the Road Fund, the Grade Crossing Protection Fund (only presented in the capital budget) and the Motor Fuel Tax Fund. Appropriations from the highway funds support transportation and highway maintenance-related activities and include a mechanism for diverting a portion of road-related fees to local governments.
- **Other Special State Funds** - Over 300 funds support such diverse activities as medical assistance, children's services, environmental cleanup, financial regulation and health insurance.
- **Federal Trust Funds** - This fund group supports a variety of state programs funded with Federal revenues, including education, health care, human services, community development, transportation and energy.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

Fiscal Year 2012 Operating Appropriations by Outcome Percentage of Total

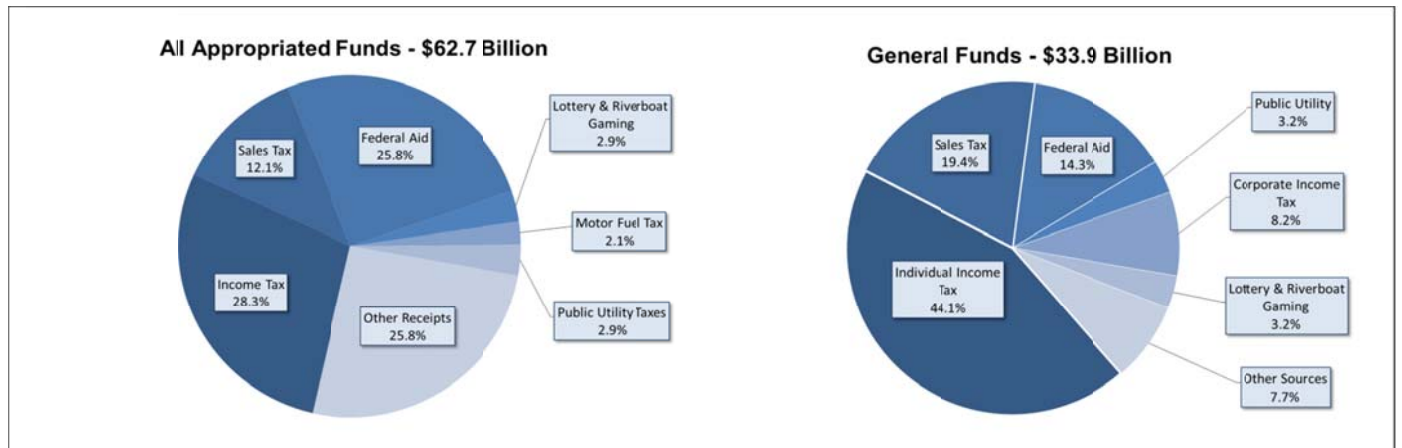

Appropriations also may be grouped according to purpose. The charts above show appropriations by major purpose, identifying the principal spending activities of state government. The charts show that the major portions of the state's resources are allocated to education, healthcare and social human programs.

Approximately 25.7 percent of the state's All Funds total operating budget, or \$52.7 billion, is dedicated for educational purposes. The recommended appropriations for Human Services and Healthcare and Family Services - which include Medicaid, other medical assistance, income support, child and community care programs and other health and social services - total \$23.9 billion or nearly 45.4 percent of the state's total operating budget.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

Fiscal Year 2012 Revenues by Source Percentage of Total

The two charts above identify the major revenue sources for all appropriated funds and the

Total state revenues are projected to be \$62.7 billion in fiscal year 2012, and General Funds receipts are estimated at \$33.9 billion. General Funds revenues are estimated to increase by 10.8 percent, or \$3.3 billion.

General Funds.

A breakdown by major revenue category can be found in Table II-A for total revenues and Table II-B for General Funds revenues. As can be seen in those tables, revenues from the income and sales taxes are the major source of state funds. They account for 40.4 percent of all receipts and 71.6 percent of General Funds receipts, as illustrated above.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

The fiscal year 2012 Budget Plan is set to the below. This plan reflects the basis for appropriations and is the same information provided in prior years' budgets, although utilizing standard business language and "plain English" to reflect

the governor's commitment to and principle of truth in budgeting. Revenues are estimated on the cash basis of revenues recognition.

See the schedule below for a fiscal year 2012 Operating Budget Plan for all appropriated funds.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

General Funds Budget Results & Budget Plans 2010 – 2012 Footnotes

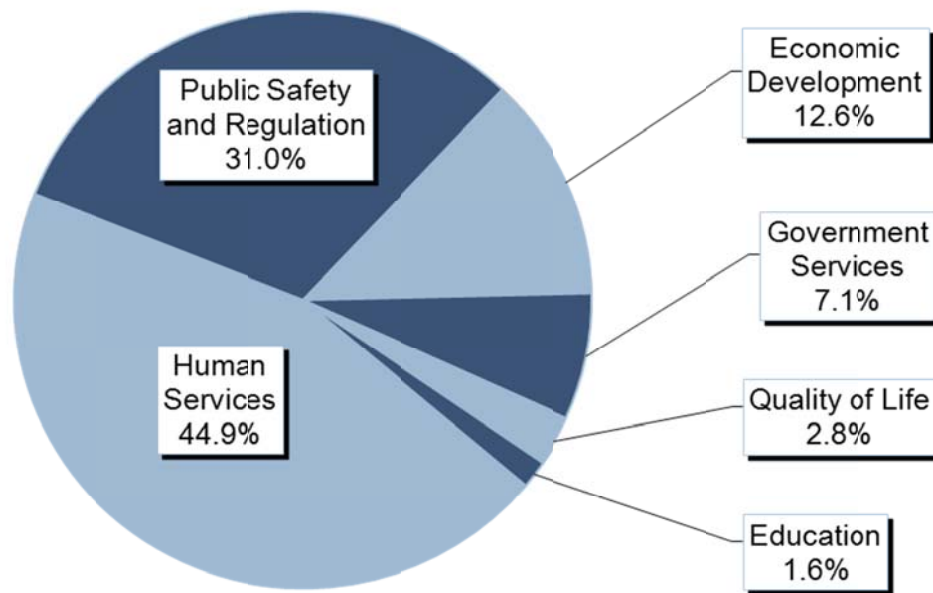

- ¹ FY2010 appropriations do not reflect the FY2010 statutory pension contribution for the General Funds. That amount was financed and paid through issuance of approximately \$3,466 million in General Obligation Bonds, Taxable Series of January 2010. However, during the fiscal year, approximately \$843 million was initially paid from the General Funds to the State's pension systems, pursuant to a continuing appropriation for FY2009 pension contributions. Subsequently, the General Funds were reimbursed by that same amount from proceeds of the January 2010 bond issuance. Given that exact offset, and since neither the fund balance nor cash position of the General Funds was therefore affected as of June 30, 2010, both the appropriation expenditure and reimbursement are excluded from the respective accounts for purposes of this presentation and comparability purposes. In addition, FY2011 incorporates approximately \$383 million in supplemental appropriations as proposed in Table I-B.
- ² FY2010 Transfers Out and FY2010 Accounts Payable include \$991 million of FY2010 statutory transfers that were not executed (i.e., cash transfers were not made) as of June 30, 2010, per the Illinois Office of the Comptroller. Such unexecuted statutory transfers are considered Transfers Payable for this presentation and reflected in the estimated June 30, 2010 Accounts Payable amount. In addition, approximately \$276 million of cash was not transferred back to the Budget Stabilization Fund as of June 30, 2010, such that the total of FY2010 statutory transfers not executed by year end totaled approximately \$1,267 million; that amount is reflected in the ending Accounts Payable reported as of that same date. The FY2011 Revised Budget assumes the Budget Stabilization Fund will be replenished by June 30, 2011 and the \$505 million of Inter Fund Borrowing assumed in Fiscal Year 2011 will be repaid.
- ³ The proposed General Obligation Restructuring Bond will earmark approximately \$4,000 million of proceeds in FY2011 to the General Fund and another \$1,450 million in FY2012, to reduce Accounts Payable to approximately \$600 million by June 30, 2012. The balance of the Restructuring Bond proceeds will be deposited in Other State Funds including the Health Care Provider Fund (for Medicaid supplemental match to receive higher Federal match), the Income Tax Refund Fund (for Corporate tax refunds) and the Group Health Insurance Fund (to reduce backlog).
- ⁴ Budget Basis Surplus (Deficit) equals "Operating Revenues and Transfers In" minus "Operating Expenditures and Transfers Out" plus (minus) "Other Financing Sources (Uses)"
- ⁵ Budget Basis Accounts Payable excludes incurred liabilities of that fiscal year that do not have sufficient appropriation authority remaining to be paid during the Lapse Period (i.e., 60 days after the close of that fiscal year). However, such incurred liabilities (termed "Section 25 liabilities," pursuant to statute) are reflected in the audited Comprehensive Annual Financial Report (CAFR) that is prepared on the basis of generally accepted accounting principles for governments. Historically, Medicaid and group health insurance payments constitute the majority of Section 25 liabilities.
- ⁶ FY2009 Transfers Out and FY2009 Accounts Payable include \$185 million of FY 2009 Statutory Expenditures that were not executed (i.e., cash transfers were not made) as of June 30, 2009, per the Traditional Budgetary Financial Report for FY 2009 issued by the Illinois Office of the Comptroller. Those transfers were subsequently effectuated in July of 2009.
- ⁷ Cash Basis Surplus (Deficit) equals "Budget Basis Surplus (Deficit)" minus (plus) Other Cash Uses (Sources) relating to changes in Accounts Payable during the fiscal year.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

The table and chart below summarize the employee headcount totals for fiscal year 2012, as well as the prior two fiscal years, by major functional area of state government. The budgeted employee headcount total for fiscal

year 2012 will increase as the Department of Human Services and the Department of Corrections address costly overtime issues by increasing staff.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

BUDGET POLICIES

Operating Budget Policies

The Illinois Constitution requires a balanced budget. Expenditures proposed by the Governor shall not exceed funds estimated to be available for the fiscal year. Public Act 90-479 amended the Civil Administrative Code to provide guidance to the governor as he proposes the budget. Tables II-C and II-D provide revenue and expenditure information pursuant to Public Act 90-479.

The state will impose budgetary reserves: General Funds and Special State Funds will be required to maintain a two percent reserve to ensure that spending does not exceed estimated revenue.

Strategic Fiscal Policies

The state's strategic fiscal policies will be designed to eliminate the fiscal imbalance caused by expenditures growing at a faster rate than revenues. These policies will include the following:

- Help families during times of recession
- Fund key priorities including education and healthcare
- Invest in the economy and the state's infrastructure
- Reduce the state's pension liability
- Implement new revenue streams that reflect the state's economic base
- Contain core costs
- Improve the efficiency of state procurement
- Maintain debt affordability processes for capital programs
- Measure program performance

- Enhance revenue compliance and enforcement
- Require new spending to be matched by new revenues
- Transfer excess balances in special funds
- Streamline government by reducing the size and increasing its responsiveness.

Financial Reporting Policies

The state annual financial report will follow accounting and financial reporting practices in conformity with accepted principles and standards of the Governmental Accounting Standards Board (GASB) and best practices of the Government Finance Officers Association (GFOA).

Revenue Policies

To develop revenue policies, the state will consult with the Council of Economic Advisors and independent national economic consulting firms, and utilize various revenue forecasting methodologies including econometric modeling, historical relationships and economic indicator projections.

The state will monitor revenues on a semi-monthly, and quarterly basis. Comparisons will be made to both budget and prior year, in order to facilitate a rapid response to changes in economic conditions and fiscal status.

Expenditure Policies

The state will monitor expenditures on a monthly basis through the Budget to Actual Variance reporting and variance analysis.

Operating Expenditure Policy

Agencies will prepare Budget to Actual Variance Reports: actual expenditures will be compared to budget, monthly and quarterly allotments will be made, and significant variances will be addressed by all agencies under the governor.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

Agencies will prepare Corrective Action Plans: budget to actual variances of two percent or more from their allotments will require a corrective action plan that will be monitored by the Governor's Office of Management and Budget.

The Governor's Office of Management and Budget will approve procurement transactions of \$1 million or more.

The Governor's Office of Management and Budget will approve all personnel transactions.

Reserve Policy

The state will reserve general funds for cash management purposes to reduce the need for short term borrowing and provide additional resources to assist the state in meeting its needs.

Debt Capacity, Issuance and Debt Service Policies

The state will identify new or increased revenues when authorizing additional debt to support capital spending.

The state will conduct debt affordability analyses to determine the long-term effects of debt repayment on future operating budgets.

Unless otherwise necessary to offset pension liability, the state will limit debt service expenditures to no more than seven percent of General Revenue and Road Funds appropriations.

Capital Expenditure policy

The state will annually forecast and analyze revenues available for capital expenditures.

The state will conduct a formal capital planning process to annually rank projects based on specific criteria including life/safety factors, code compliance, infrastructure maintenance, cost benefit analysis and targeted new construction programs.

The state will annually evaluate the impact of new capital spending on the operating budget.

The state will perform facilities management and condition assessments in order to provide information and recommendations for current and future capital expenditures.

Pensions

The state will continue to implement recommended pension actions that improve the systems' financial condition and affordability.

The state will approve a proposed increase in pension benefits only if matched by continuing revenue sources.

Performance Measures

The agencies under the governor will develop performance measures that indicate progress toward the governor's priorities and each agency's core mission.

The performance measures will focus on outcome measurement in order to assess the impact on the public.

The performance measures presented in the budget book will include estimated data for the current year, projected data for the budget year and historical data for the three prior fiscal years.

Legislative Policies

Agencies under the governor will submit proposed legislation to the Governor's Office of Management and Budget to determine the fiscal impact to the budget. All proposed legislation that has a fiscal impact is accounted for in the governor's proposed budget.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

During the course of the legislative session, the Governor's Office of Management and Budget will prepare balanced budget notes at the request of members of the General Assembly. These notes assess the fiscal impact of proposed legislation on the budget.

The Governor's Office of Management and Budget will review rule change proposals of agencies under the governor to determine their fiscal impact on the operating budget.

The table below summarizes additional fiscal policies of the state. The state's fiscal policies are designed to minimize administrative cost and maximize state efficiency.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

SELECT FINANCIAL POLICIES

State Agency	Financial Policy	Brief Policy Description
Treasurer's Office	State Treasurer's Investment Policy http://www.state.il.us/treas/InsideOffice/invpolicy.htm	The Treasurer's investment policy calls for investment of all funds in a manner that provides the highest investment return using authorized instruments while meeting the state's daily cash flow demands. The policy covers the following areas: ethics and conflict of interest; authorized broker/dealers and financial institutions; authorized and suitable investments; investment restrictions; collateralization; diversification; custody and safekeeping; internal controls; limitation of liability; and reporting.
Comptroller's Office	Statewide Accounting Management System procedures manual (SAMS Manual) ftp://163.191.177.34/ioc-pdf/SAMSManualMaster.pdf	The Comptroller's SAMS Manual documents the fiscal policies, accounting principles, controls, operating procedures and reporting requirements for the Statewide Accounting Management System. The Manual assists state agencies by indicating the method to be used for processing accounting information between agencies and the Comptroller' Office.
Governor's Office of Management and Budget	Interest Rate Risk Management Policy http://www.state.il.us/budget/Intr_Rate_Policy_October2003Final.pdf	This policy establishes the purposes and procedures by which the state may enter into an exchange contract or issue direct variable rate debt. The policy covers the following areas: definition of variable interest rate position; purposes of interest rate exchange contracts; risk assessment; form and legality of agreement; qualified counterparties and collateral provisions; counterparty aggregate position limits; liquidity facility; monitoring and reporting; and terms of policy review.
Central Management Services	Standard Procurement Rules http://www.state.il.us/cms/download/pdfs/sel_rule.pdf	All qualified vendors are invited to participate in bidding on the wide variety of commodities and equipment purchased by the state. The Department of Central Management Services is authorized by law to buy commodities and equipment for state agencies and elected officials. The state's procurement rules establish standards for procurement authority, bid thresholds, bid publication, bid security, duration of contracts, contract pricing, preferences, ethics, protests, supply management and governmental joint purchasing.
Comptroller's Office	Budget Stabilization Fund (30 ILCS 122/1) http://www.ilga.gov/legislation/ilcs/ilcs.asp	Funds are reserved for use in the cash management of the General Revenue Fund, thus reducing the need for short term borrowing and serving to provide additional resources to assist the state in meeting its needs. The priority for the use of these funds include secondary and elementary education, child care and other programs that may provide a direct benefit to children.

FY2012: Fiscal Overview & Budget Summary

State of Illinois

THE BUDGET PROCESS

The Illinois Constitution requires the governor to prepare and present a state budget recommendation for the state to the General Assembly. The Constitution also requires that the proposed budget be balanced and include recommended spending levels for state agencies, estimated funds available from tax collections and other sources, and state debt and liabilities. The Governor's Office of Management and Budget (GOMB) estimates revenues in consultation with the Department of Revenue. GOMB subsequently develops budget recommendations that reflect the governor's programmatic and spending priorities.

Planning: September through February

Planning for the next fiscal year begins each fall. During the planning phase, the following activities occur:

- Agencies work with GOMB and the governor's Office to refine strategic priorities, develop initiatives to achieve those priorities, and evaluate actual performance compared to benchmarks from comparable states or other peer entities;
- GOMB and agency staff identify and estimate potential spending for the coming fiscal year, including both the costs of current and potential programs and the value of expansion, modification or elimination of various programs;
- Working with the Council of Economic Advisors, GOMB and the Department of Revenue review economic forecasts and make preliminary revenue estimates;
- GOMB, the Department of Central Management Services and agencies review statewide trends and administrative processes to find and reduce inefficiencies and propose reallocation of resources to improve efficiency and promote better government;

- Based on targets, assumptions and materials provided to agencies by GOMB, agencies prepare, and GOMB reviews, preliminary budget materials;
- GOMB, the Governor's Office and agencies meet to review and discuss available revenue, anticipated spending and program priorities to develop budgets that reflect the core priorities of the agency;
- Periodically, GOMB reviews revenue and spending estimates, resulting in review and reprioritization of agency and state priorities;
- When final budget options are developed, they are presented to the governor for review and approval before they are drafted in legislative form. GOMB then produces the budget book, a narrative explaining the budget and providing complete budget table forms;
- The governor announces and describes the budget in the annual Budget Address; and
- GOMB drafts appropriation bills to implement the governor's budget recommendations.

Legislative Deliberation: March through May

After the Governor's Budget Address in March, legislative review of the governor's budget recommendations begins with hearings before House and Senate appropriation committees. During this period, the following activities occur:

- Appropriation committees may adopt amendments to change the funding level recommended by the governor;
- Once passed by the first committee, an appropriation bill moves to the full House or Senate for consideration, amendment and a vote. Following passage in the first legislative chamber, the appropriation bill moves to the second chamber, where a similar process takes place. Changes made in either chamber must ultimately be

FY2012: Fiscal Overview & Budget Summary

State of Illinois

accepted in identical form by both chambers for the bill to pass and be presented to the governor;

- As the budget moves through the legislature, GOMB monitors any amendments as well as substantive legislation to identify potential fiscal impacts;
- By statute, and if requested, any proposed amendments to the budget and any substantive legislation with fiscal or revenue impacts must be accompanied by a fiscal note to describe such impacts; and
- Final approval of the budget usually occurs at the end of the legislative session, typically by the end of May. The Illinois Constitution requires a simple majority vote of the General Assembly for a bill passed on or before May 31 to take effect immediately. On or after June 1, a three-fifths super majority vote of the General Assembly is required in order for a bill to take effect for the upcoming fiscal year.

Gubernatorial Review: Following end of Legislative Session

Once the General Assembly passes the budget, the governor must sign appropriation bills before funds can be spent. If the governor chooses not to approve a specific appropriation, he may either veto a specific line item or reduce it. The rest of the appropriation bill is unaffected by these vetoes and becomes effective. Line items that have been vetoed or reduced must be reconsidered by the General Assembly during the fall session. The General Assembly may return an item to the enacted level by simple majority vote in both chambers in the case of a reduction veto and by a three-fifths super majority vote in the case of a line item veto. If additional resources beyond those initially approved in the budget become necessary, a supplemental appropriation bill may be passed any time the General Assembly is in session. Please refer to Table I-B for current supplemental appropriation bills being considered for spring 2010.

Table I-A Operating Appropriations by Agency – All Funds

Summarizes each agency's general funds, other state funds, federal funds and total appropriations for fiscal years 2010, 2011, and 2012. The footnotes to Table I-A explain the various transfers of functions and funds related to agency reorganizations and program changes.

Table I-B: Supplementals to Complete Fiscal Year 2011

Lists of the Governor's recommended supplemental appropriations needed to complete fiscal year 2011.

Table II-A: Revenues by Source – All Appropriated Funds

Summarizes, by source, all appropriated state revenues for four fiscal years.

Table II-B: Revenues by Source – General Funds

Summarizes, by source, all revenues deposited into the state's general funds for four fiscal years.

Table II-C: Budgeted Funds Revenues – GAAP Basis

Budgeted funds revenues prepared in accordance with Public Act 90-479 for fiscal year 2012.

Table II-D: Budgeted Funds Expenditures – GAAP Basis

Budgeted funds expenditures prepared in accordance with Public Act 90-479 for fiscal year 2012.

Table III-A: Road Fund

Provides a summary of the receipts into the Road Fund and allocations from the fund to various state agencies for four fiscal years.

Table III-B: Motor Fuel Tax – State Funds

Summarizes the receipts into the Motor Fuel Tax Fund and distributions from the fund for four fiscal years.

Table IV-A: Appropriated Operating Funds by Fund Group for Fiscal Year 2012

Summarizes, by fund group, the appropriated funds and projected operating cash flow for fiscal year 2012.

Table IV-B: Appropriated Operating Funds by Fund for Fiscal Year 2012

Lists all appropriated funds and describes each fund's projected operating cash flow for fiscal year 2012.

FOOTNOTES

1. The historical appropriations and expenditures for all transfers of agency divisions and transfers of agency programs noted in the agency narratives have been restated to reflect the consolidation of agencies within other state entities.
2. Required Fiscal Year 2010 contributions to the retirement systems were made from General Funds continuing appropriations. Proceeds from the sale of General Obligation Pension Funding Bonds reimbursed the General Funds for these contributions.
3. Required Fiscal Year 2011 contributions to the retirement systems are currently posted from General Funds continuing appropriations. Proceeds from the sale of General Obligation Pension Funding Bonds in March 2011 will be used to reimburse the General Funds for these contributions.
4. The Department of Central Management Services, Department of Transportation and the Department of Healthcare and Family Services revolving funds appropriations, estimated expenditures, and estimated appropriations for fiscal years 2010 - 2012 are listed as separate line item reductions in Table I-A. The line item reductions were made to avoid double counting in the appropriations. Appropriations expended for services provided by revolving funds are also included in individual agency budgets, including divisions within Central Management Services.

BUDGETING FOR OUTCOMES

This page intentionally left blank.

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

SUMMARY OF BUDGET REFORM INITIATIVES

Illinois has revolutionized its budgeting process with the introduction of Budgeting for Outcomes. For the first time in the 193 year history of the State of Illinois, money will be budgeted based on how effectively programs provide results that citizens value, rather than being based on the money allocated in the previous fiscal year.

Budgeting for Outcomes is a four-step process of establishing goals, allocating resources, monitoring performance and evaluating outcomes. The first step of the Budgeting for Outcomes process is to establish overarching goals for the state as a whole to achieve in the coming period. The goals are both qualitative and quantitative in nature. They are qualitative to the extent that they are related to areas of life that are conceptual, such as improving quality of life or economic well-being. They are quantitative to the extent that they must be amenable to measurement. At all times, the key considerations in developing goals are the expectations of the people of the State of Illinois. For instance, quality education, public safety and ensuring the protection of the most vulnerable are high on the list of priorities of what the citizens of this state desire in order to live a more fulfilling life. Once the overarching goals are established, the process moves into the resource allocation phase. During the resource allocation phase, the finite resources of the state, the General Funds, are strategically allocated to ensure that the goals are achieved, with an eye toward value for money.

The revolutionary aspect of resource allocation in the Budgeting for Outcomes process is that the traditional walls that constrained agencies and providers are broken down. Agencies can bid to work toward a particular goal if they believe and can demonstrate that they can achieve an outcome more effectively and more cost efficiently than those agencies that have traditionally performed that function in the past. The atmosphere of competition fostered by this process results in innovation and the discovery of new and more efficient ways to deliver the

services. Once the bids are collected from the agencies, they are ranked. Once they are ranked, the decision makers begin buying the services from the top-rated bids down. Once the total pool of money for that goal in particular and the budget as a whole is reached, a line is drawn. Those programs and initiatives that are above the line are funded for the coming fiscal year, and those items below the line are not. This process is repeated for three to four iterations, in which the above the line/below the line breakdown is returned to the agencies so that they can see where their bids fell. The agencies are given the opportunity to rebid. After the rebids have been submitted and evaluated, the final rankings are made and the final above the line/ below the line decision is made. The final mix of programs found above the line represents the best and most cost efficient opportunities for the state to reach its goals for the coming fiscal year.

The final two phases of the Budgeting for Outcomes process are performance monitoring and outcome evaluation phases. During these phases, metrics are established to determine if the expenditures in resources deployed in the allocation phase are being used to achieve the established goals in the most efficient manner possible. Prior to the development of Budgeting for Outcomes, performance measurement primarily consisted of activity measures, such as the number of clients served, or amount of healthcare delivered to a particular population. Although these measurements are important, they do not give an accurate representation of the outcomes that result from these activities. Taking healthcare as an example, a measurement of the number of patients seen does not give an accurate representation of the state of overall health of the population.

In order to determine whether or not progress is being made toward the achievement of one of the state's overarching goals, the governor's office, in consultation with experts from within and outside of government, develop metrics that more accurately reflect progress toward the goal. Once the metrics are established, data are collected and evaluated. These evaluations are used to assess the efficacy of the programs funded in the current fiscal year, which gives

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

decision makers a base of knowledge with which to evaluate the bids submitted for the next fiscal year. At this point in the cycle, the process begins again.

FIRST STEPS

Budgeting for Outcomes is not a process that can be implemented overnight. Due to the fact that Budgeting for Outcomes is a radical departure from previous methods of budgeting, it is generally implemented over several budget years. However, through the course of fiscal year 2011, Illinois has made significant progress implementing Budgeting for Outcomes. The governor's office, the Governor's Office of Management and Budget (GOMB), in conjunction with the Illinois General Assembly, have worked to codify in law some of the first steps necessary for Budgeting for Outcomes. Some of the steps implemented to date include: developing statewide prioritized goals for the fiscal year, implementation of online surveys to gather citizen input about the budget, the requirement for three-year fiscal projections and the requirement to compare actual accomplishments with department objectives. These innovations have given the governor's office and GOMB the tools to implement the first phase of budgeting for outcomes.

Fiscal year 2012 will see the implementation of several components necessary to the success of Budgeting for Outcomes. First, an extremely important precondition for Budgeting for Outcomes is the suspension of mandated state spending. Mandated state spending inexorably ties the state to an incrementally-based budget system. For Budgeting for Outcomes to be effective, decision-makers must be unmoored from the previous year's base spending to be free to choose spending options that further the states goals. The governor's office has worked closely with its partners in the General Assembly to make this goal a reality. Another innovation for fiscal year 2012 are the initiatives put in place by the governor's office in conjunction with the Illinois General Assembly for more effective control of government grants, contracts and leasing. Illinois has recently made great strides in assessing the full extent of its contractual obligations. These developments

along with other innovations in budgeting established for fiscal year 2012 constitute a great leap forward toward the total implementation of Budgeting for Outcomes in Illinois.

NEXT STEPS

Over the course of fiscal year 2012 and fiscal year 2013, GOMB will work to develop the robust performance monitoring and performance evaluation capability that is so vital to the successful implementation of Budgeting for Outcomes. GOMB has been in consultation with some of the leading experts in the field of performance management and performance evaluation to facilitate the development of enhanced performance management and evaluation capability. This will necessitate collecting vast amounts of data from every program across state government. In some cases, this process will utilize sets of data that already exist. In other instances it will mean the development of entirely new sets of data and new processes for collecting data. Data will then be aggregated and analyzed to give decision makers a clearer picture of individual programs effectiveness at achieving the state's overall goals. Over the coming year, the governor's office will be working to enhance the ability of citizens to add their input to the budget process.

CHALLENGES

Before total implementation of Budgeting for Outcomes is achieved, there are still some hurdles to overcome. The first hurdle to overcome is the most fundamental. Incrementally based budgeting—that is the adding or subtracting from the previous fiscal year's base expenditure—has been a fixture in Illinois budgeting for nearly two centuries. There is, and will likely continue to be, an institutional bias toward the old way of budgeting, until Budgeting for Outcomes demonstrates its ability to deliver quality outcomes at the lowest possible cost to the taxpayer. It will take the concerted effort of leaders at all levels of state government to provide support and guidance to frontline

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

personnel, as well as outreach to advocacy groups and citizens in general to make the transition to Budgeting for Outcomes as smooth as possible.

Another hurdle is the need for an enhanced program evaluation capability at all levels of state government. This will necessitate further training for staff and the utilization of information technology. The key to a successful Budgeting for Outcomes process is the efficient flow of data for the performance monitoring and evaluation system. In order to efficiently handle and analyze such large amounts of data, the State of Illinois requires an integrated information technology system. The benefits of an integrated information technology system are twofold.

First, the state would realize significant savings through efficiencies as a result of having all agencies utilize a single system. Currently, there are several different computer hardware platforms and software packages utilized by state agencies, the majority of which are not compatible with each other without labor-intensive and time-consuming manual conversion. Some information technology platforms utilized by the State of Illinois are decades old, and utilize media that are prone to data loss. The second benefit of an integrated information technology system is that decision makers would have the benefit of real-time accurate information about spending and performance at the agency level. This would allow for better program evaluation, which is one of the keys to effective Budgeting for Outcomes.

Despite these obstacles, Illinois has made Budgeting for Outcomes a priority and a reality, and has made significant progress toward total implementation. With the effort of leaders and personnel at all levels of state government, these and other obstacles to the total implementation of Budgeting for Outcomes will be cleared and the road will be opened to progress.

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

PRESENTATION OF SIX OUTCOMES

This chapter presents an overview of the Budgeting for Outcomes concept and process.

Summary

This section describes the major components of the Budgeting for Outcomes process, including the need to establish goals, allocate resources and evaluate performance.

First Steps

The First Steps section discusses the steps taken during fiscal year 2011 to develop and start the Budgeting for Outcomes implementation process in the state of Illinois.

Next Steps

This section discusses the steps that will be taken in fiscal year 2012 and beyond to fully implement Budgeting for Outcomes.

Challenges

As with any new process, there are challenges to the full implementation of Budgeting for Outcomes in Illinois. This section describes those challenges and discusses how they will be met and overcome.

Statewide Outcomes

This section presents the six prioritized outcomes that the governor believes are the most important for the citizens of Illinois. Each outcome is described along with a list of agencies that work to achieve that outcome. Each outcome is accompanied by an “above the line/below the line” graph. The graph displays a mix of programs drawn from across all the agencies that work to achieve the particular outcome in question. The programs or activities that are displayed above the line are those programs that will be allocated resources for the coming fiscal year. The programs or activities found below the line are those that, due to finite resources available, will either not be allocated, will receive a smaller portion of resources than they previously had, or will not receive all the resources the agency requested during the budget submission process. The programs or activities found “above the line” represent the best mix of affordable programs, activities and operational expenses to allow the state to achieve the particular outcome.

Included in the discussion of each outcome are possible performance metrics to measure progress toward achieving the outcome in question. Performance evaluation is an important aspect of Budgeting for Outcomes. The metrics listed are merely illustrative and are not an exhaustive list of all the possible metrics available, nor are they necessarily the metrics that will be used over the course of the coming fiscal year. Agencies will continue to develop more robust performance metrics as Budgeting for Outcomes is further implemented.

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

OBJECTIVES

EDUCATION

Providing a quality education and opportunities for growth.

One of our highest priorities is to assure quality education and opportunities for growth and learning for all Illinois students. Our public education system is responsible for preparing children for success in school and in the workplace beginning at birth and continuing through adulthood. In order to achieve fundamental and lasting improvement in our state's educational systems, it is necessary to coordinate and leverage our policies and resources. Over the past several years, the state education agencies have committed to broad agendas that will move our state forward in ways that support our goals and priorities. Illinois has committed to increasing the number of adults in our state who hold high-quality post-secondary degrees or certificates. We will increase the percentage from 41 percent today to 60 percent by 2025.

The State Board of Education (ISBE) has adopted the common core standards and has joined 25 other states in developing a K-12 assessment system that will align with these standards. The General Assembly has enacted several major initiatives that address our state's need to improve student achievement and turn around our lowest performing schools. Teachers, principals, superintendents and local school boards across our state are working to enact these new reforms and assure continued student improvement. Evaluations for teachers and principals will incorporate measures of student growth and professional practice to assure that we have highly effective educators.

The focus on student assessment and student growth will help us transform the education accountability system. The common core learning standards are designed to reflect the knowledge and skills that students will need to succeed in the 21st century. The state continues to develop its longitudinal database that will allow educators, parents, school boards and

taxpayers to easily access and evaluate data about student performance and school operations. The state education agencies are working in collaboration to develop this data system and make this information widely available at all levels of education.

The Illinois Board of Higher Education continues to advance the goals that are articulated in its *Public Agenda*. Illinois is one of the original alliance members in Complete College America. This group of states is committed to increasing the number of students who are college and career ready when they leave high school and to assure that students succeed in post-secondary work. Our universities and colleges are the key to reaching our goal of having 60 percent of adults with post-secondary credentials by 2025.

College affordability remains a critical issue for students and families across Illinois. Governor Quinn has supported full-funding for the Monetary Award Program (MAP) program, but even at this level it has not been possible to meet the growing demand for financial support for post-secondary education. There were more than 100,000 students in each of the past three years who were eligible for MAP support but who were denied due to lack of funds. We know that students who complete a degree have a lower risk of unemployment and have a significant boost in their earnings over a lifetime. It is a direct benefit to the state to increase the number of students who complete a college degree.

High quality education is the first priority in our budget because it provides the foundation for achieving our other goals. A well-educated workforce is the key to enhanced economic well-being and to the improved quality of life for all our citizens. Governor Quinn has consistently supported education at all levels and will promote investment in Illinois' students from birth through college to assure that we have the best educated citizens and workforce. Well-prepared citizens will help us compete and prosper in the 21st century global economy.

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

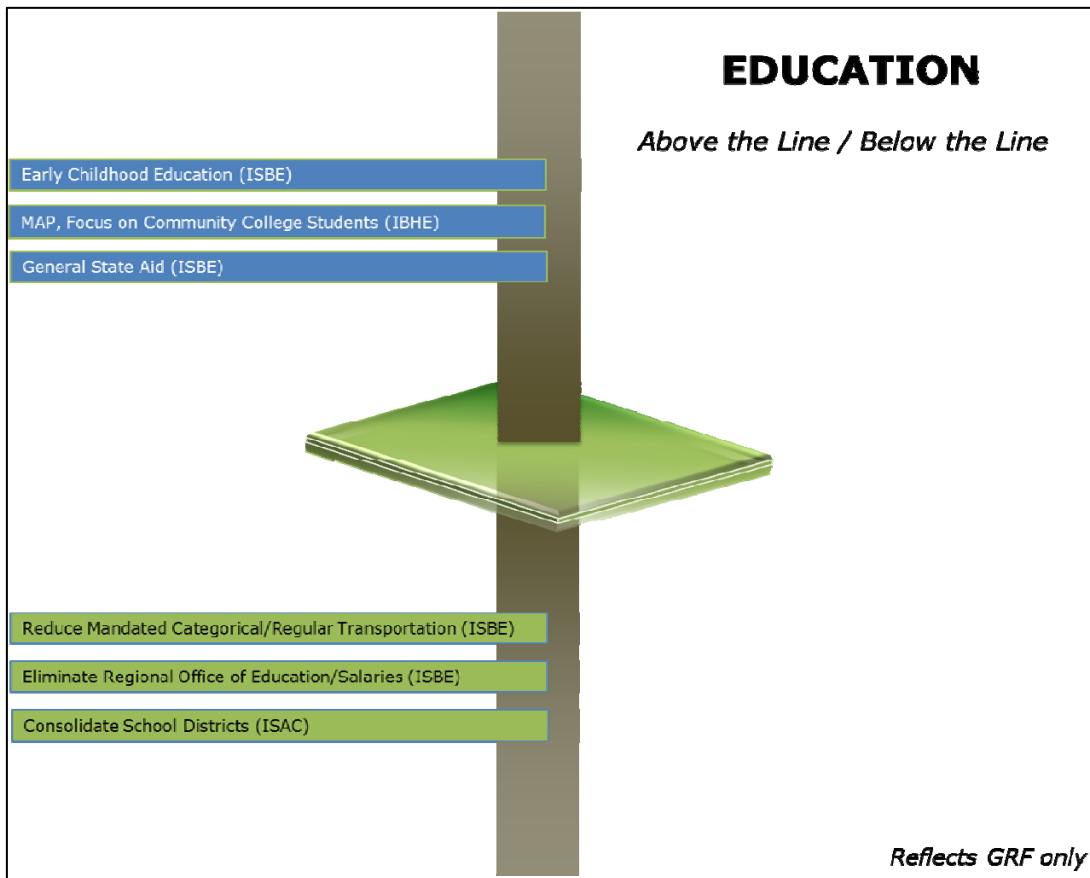

AGENCIES

- Illinois State Board of Education (ISBE)
- Illinois Board of Higher Education (IBHE)
- Illinois Student Assistance Commission (ISAC)
- Illinois Community College Board (ICCB)

MEASURING THE RESULTS

- Increased percentage of secondary and college graduates
- Increased percentage of students who complete community college level degree or certificates

- Increased percentage of students who function at grade level or higher in core subject areas
- Measures of innovation that demonstrate results of reform initiatives
- Measures that indicate the contribution of educational research and innovation
- Increased percentage of lower income students who graduate high school
- Increased percentage of at risk students who obtain a college degree

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

ECONOMIC DEVELOPMENT

Growing the jobs of today while working to create the global industries of tomorrow.

Economic well-being includes improved transportation for people and goods; greater economic opportunities for individuals and companies within the state, and those outside of the state considering Illinois as a future home; and increased access to markets outside of the country. A flourishing economy means more opportunities—and more jobs—for Illinois.

A primary function of state government is to provide the tools and climate for businesses and individuals to achieve the successes in their professions and industries. Illinois is a national leader in the economic recovery. Its highly educated workforce, developed transportation systems and a government focused on job creation and retention form an environment that is allowing the economy to recover and grow. Job creation and retention are not easily accomplished as states compete to attract businesses, but Illinois has not shied away from this arena.

The education and infrastructure of Illinois are keys to current job creation successes. The *Illinois Jobs Now!* program will invest billions of dollars over the next few years to modernize and build schools, improve roads and the infrastructure of our cities and towns.

Economic development programs function on three lines—infrastructure development, employee training and industry assistance—and a many programs are contributing to recent successes. The following initiatives are examples of ways Illinois is a leader in economic development and promoting job growth:

- The Department of Transportation has been a national leader in quickly engaging American Recovery and Reinvestment Act

(ARRA) funds to repair and improve roadways, ports and airports.

- Appropriations for worker training will exceed \$325 million in fiscal year 2012. State resources, in partnership with federal funding, support workforce training and employment programs for dislocated workers and youth.
- Illinois is restructuring its international offices to rely less on fixed offices and move to contracted representatives and a mobile workforce to be more responsive to business needs and more competitive amid changing international markets.

AGENCIES

- Illinois Department of Transportation (IDOT)
- Department of Commerce and Economic Opportunity (DCEO)
- Department of Agriculture (Agriculture)
- Illinois Commerce Commission (ICC)
- Department of Labor (DOL)
- East St. Louis Financial Advisory Authority
- Metropolitan Pier and Exposition Authority
- Southwestern Illinois Development Authority
- Upper Illinois River Valley Development Authority
- Illinois Power Agency (IPA)

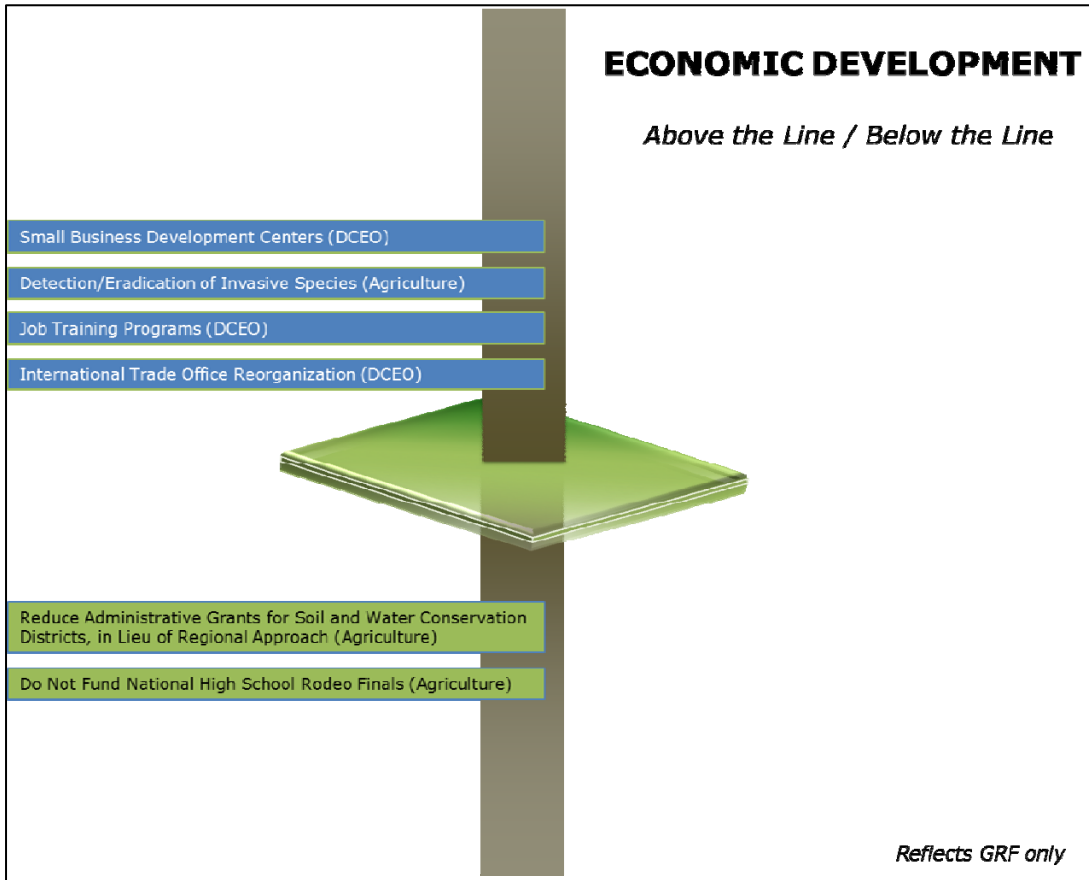

MEASURING THE RESULTS

- Increased rate of employment
 - Increased rate of employment attributable to the capital program
 - Increased rate of employment attributable to put Illinois to work and other Illinois employment initiatives
- Increased export growth
- Increase in the number of jobs created through foreign direct investment
- Direct job creation through DCEO and other incentive or access to capital programs
- Increase in the average personal income statewide
- Measures that indicate the capacity of all residents to save for college, invest for retirement, accumulate a down payment on a home or start a small business

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

- Official poverty rate and income distribution
- Increase in the average savings rate among residents 18-50

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

PUBLIC SAFETY AND REGULATION

Protecting businesses and residents from crime, catastrophe and wrongdoing.

With the costs of incarceration continuing to rise, Illinois must focus on preventative and recidivism-reducing measures while continuing to support public and state facility safety. Governor Quinn will continue to advance the implementation of the Crime Reduction Act with special attention to Illinois Redeploy. Governor Quinn has taken steps to decrease overtime costs within the Illinois State Police and Department of Corrections forces, and these and other cost-cutting measures will continue to be important components of providing safe environments for the state's citizens at a good price.

AGENCIES

- Department of Corrections (DOC)
- Illinois State Police (ISP)
- Department of Military Affairs (DMA)
- Illinois Criminal Justice Information Authority (ICJIA)
- Illinois Emergency Management Agency (IEMA)
- Illinois Violence Prevention Agency (IVPA)
- Illinois Law Enforcement Training and Standards Board (LETSB)
- Prisoner Review Board (PRB)
- State Police Merit Board (SPMB)

- Office of the State Fire Marshal (OSFM)
- Department of Finance and Professional Regulation (DFPR)
- Department of Insurance (DOI)
- Illinois Educational Labor Relations Board (IELRB)
- Worker's Compensation Commission (WCC)
- Labor Relations Board (LRB)
- Environmental Protection Agency (EPA)

MEASURING THE RESULTS

- Decrease the recidivism rate of prisoners released from the state prison system.
- Decrease in the number of crimes reported that are perpetrated by an identified member of a street gang or member of organized crime group.
- Decrease in the number of workplace injuries.
- Decrease in the number of injuries associated with road traffic accidents.
- Neighborhood safety and security measures, including those that measure our most insecure or unsafe areas.
- Reduction in the number of unauthorized releases or spills of hazardous chemicals.
- Decrease the number of air pollution action days statewide.
- Decrease the number of public water supplies that report contaminants permissible levels more than two years in a row.

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

HUMAN SERVICES

Protecting our children, veterans, poor, disabled, elderly and sick.

One of the greatest challenges our state faces is continuing to provide access to healthcare and support for older adults and low-income families, while being fiscally prudent with taxpayers' money. Tighter standards and stricter enforcement of such standards will ensure that those who truly need help will continue to receive it. Governor Quinn also promotes home and community-based services as alternatives to more costly institutional care for frail older adults and people with physical, mental or developmental disabilities.

This year's appropriation request introduces the unified budget for long-term care. Under the unified budget, certain appropriations for long-term care services will be jointly managed by the departments of Human Services, Aging, and Healthcare and Family Services to assure tax dollars are spent on covered services that most efficiently and effectively meet the long-term care needs of older adults and people with disabilities who qualify for state assistance.

For decades, our long-term care services were most likely to be provided in nursing homes and other institutional settings. Since 1965, federal Medicaid law has required states to pay for nursing homes for low-income older adults and people with disabilities. For many years, this was the only way the state paid for long-term care.

In the 1980s, the federal government began offering matching funds for home- and community-based services. But due to limited home care options, the vast majority of care continued to be delivered in nursing homes.

In the last several years, there have been remarkable increases in the number of people living longer with chronic medical, psychiatric and developmental disabilities, as well as huge technical advances in home- and community-based services. As a result, more people than

ever wish to and can be cared for safely in their own homes or other community residences.

The state's budgeting for long-term care must keep pace with these advances. There are nearly a dozen separate lines in the budget for each of the long-term care services available to people with disabilities who qualify for benefits. This approach does not offer an easy way to track total long-term care spending, a significant and growing part of the state budget. It does not reflect the mobility of clients between and among institutional and home care services, as more people are likely to need a nursing home for a limited period of time and then return to the community in need of support at home. Money locked into particular service or program lines does not encourage use of the most efficient service. As a consequence, the state has not maximized federal matching funds available to transition nursing home residents who wish to return to the community. This problem was acknowledged by the General Assembly and governor when the need for a unified approach to long-term care budgeting was included in Public Act 96-1501, the recent Medicaid reform legislation.

Under the unified budget for long-term care, and through a subsequent Executive Order, designated departments will be required to meet specific goals to reduce unnecessary and unwanted institutionalization. The unified fund will facilitate the transfer of spending to more closely match services to the needs and location of the client and result in more efficient spending on these services. The specific line items identified for the unified budget have been designated with an asterisk in respective department budgets.

AGENCIES

- Department of Healthcare and Family Services (HFS)
- Department of Human Services (DHS)
- Department on Aging (Aging)
- Department of Children and Family Services (DCFS)
- Department of Juvenile Justice (DJJ)

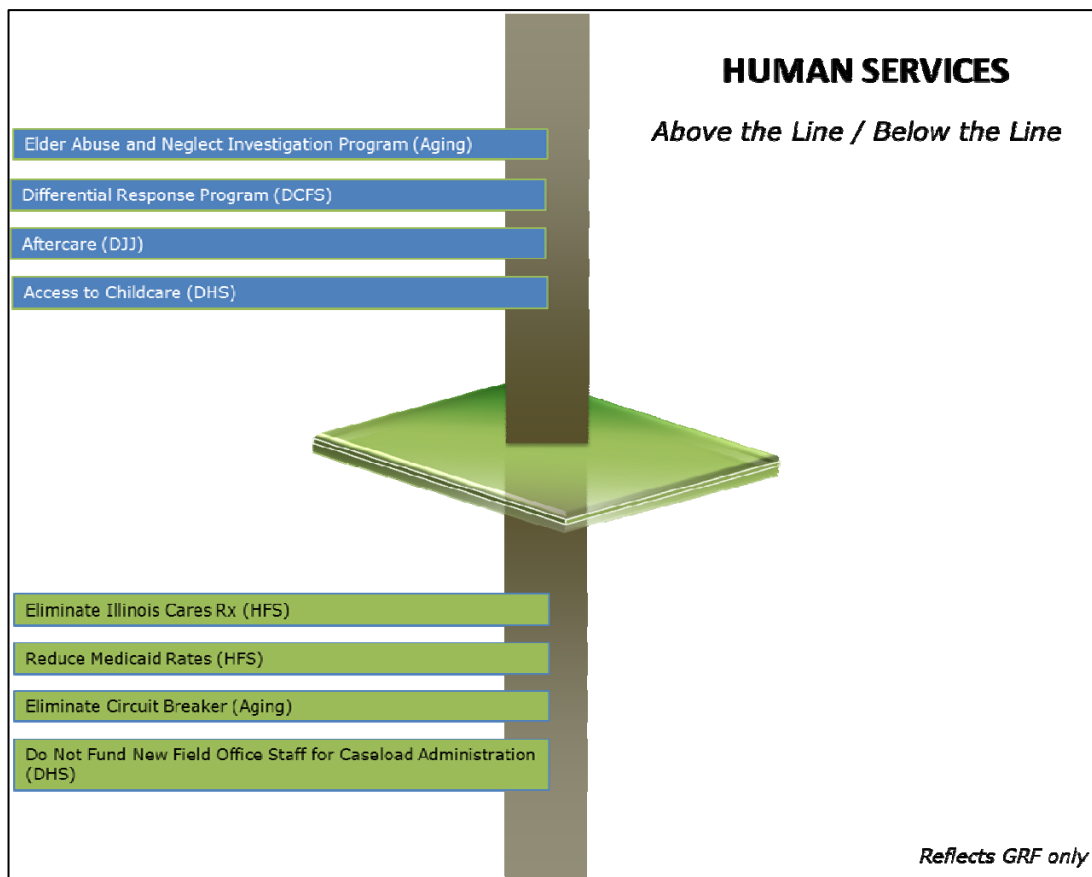

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

- Department of Public Health (DPH)
- Department of Veterans' Affairs (DVA)
- Guardianship and Advocacy Commission (GAAC)
- Department of Employment Security (DES)
- Deaf and Hard of Hearing Commission (DHHC)
- Comprehensive Health Insurance Plan (CHIP)
- Council on Developmental Disabilities (ICDD)
- Department of Human Rights (DHR)
- Human Rights Commission (HRC)

MEASURING THE RESULTS

- Increase in the ratio of developmentally disabled and mentally ill who receive treatment in community setting compared to those who receive treatment in a residential care facility.
- Decrease in the median Determination of Need score within two months of a patient entering a nursing home or a residential care facility
- Decrease in the number of deaths as a result of preventable accidents in nursing homes and residential care facilities.
- Increase in the number of number of staff to patients in residential care facilities statewide.

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

QUALITY OF LIFE

Maintaining our cultural and natural resources.

A rich, vibrant society demands opportunities for citizens to experience culture and natural phenomena beyond their everyday lives. Governor Quinn advocates continued support of state parks, museums, historical sites and the arts. Such cultural opportunities benefit students and citizens of all ages and backgrounds.

Cultural opportunities, natural recreation areas and preservation of historic sites are hallmarks of a community with a high quality of life. Maintenance of these attractions serves Illinois not only as rich cultural and natural history centers for family enjoyment, but also aids its economy. Illinois' abundance of attractions is a strong lure to the national and international visitor, and providing a quality visiting experience is an emerging driver of development in many areas of Illinois.

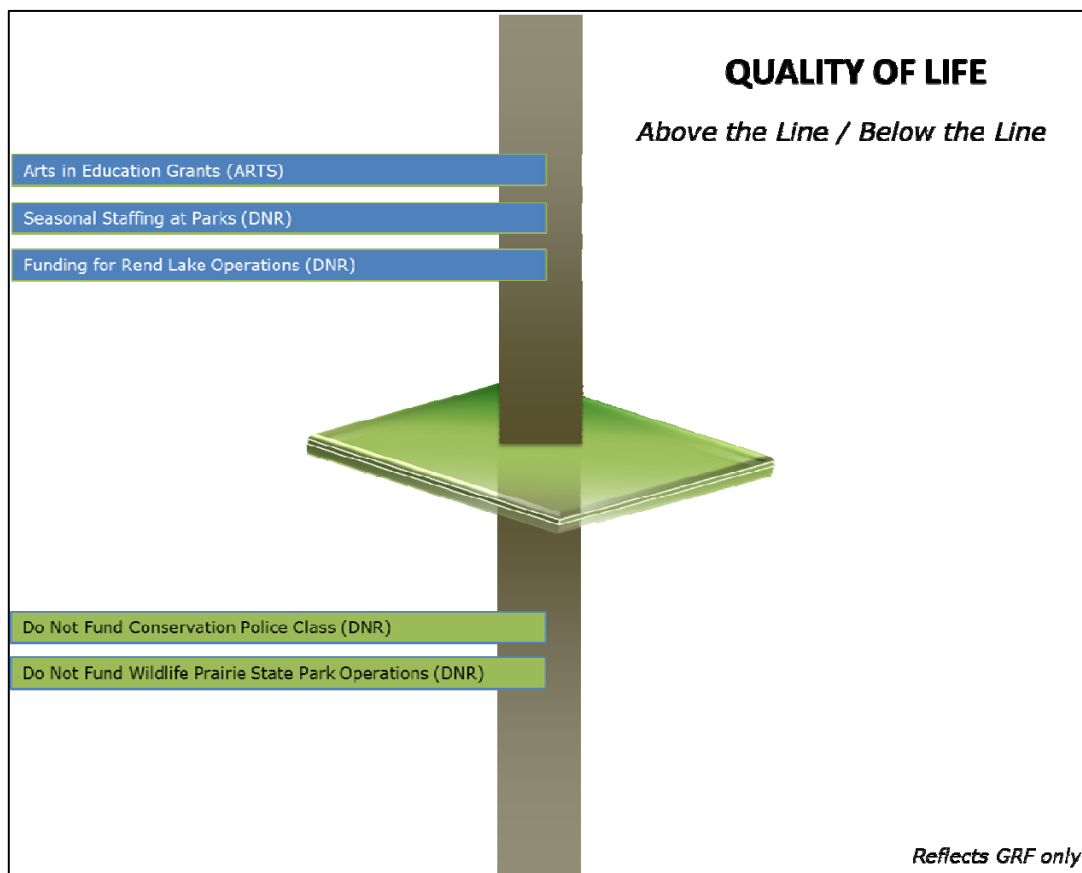

Maintaining funding for these resources during the fiscal crisis, when budget reductions are required to fund critical health and safety services, has been difficult. However, quality of life agencies protect and enhance the public resources of Illinois. They ensure wildlife is protected, history is preserved and cultural and recreational opportunities exist.

Agencies

- Department of Natural Resources (DNR)
- Historic Preservation Agency (HPA)
- Arts Council (ARTS)

MEASURING THE RESULTS

- Increased attendance rates at state parks, historic sites and cultural attractions.
- Increased access to parks and recreational facilities in all regions of the state.
- Increased access to and affordability of arts of all types.
- Increased acreage protected and restored for habitat for fish, wildlife and other natural resources.

Fiscal Year 2012: Budgeting for Outcomes

State of Illinois

GOVERNMENT SERVICES

Making government more efficient and effective.

Illinois is a large, complex state. As such, it has a large, complex governmental structure that touches the lives of every citizen in the state. When that structure operates effectively, government is often invisible to the average citizen. When that structure fails, millions of citizens may be affected. Accordingly, it is important that leadership agencies, compliance agencies and administrative agencies function smoothly and have adequate funding. Enhanced funding will allow the technology infrastructure to catch up to and keep pace with existing and evolving technological advances that will lead to a more focused, efficient and streamlined delivery of services and oversight.

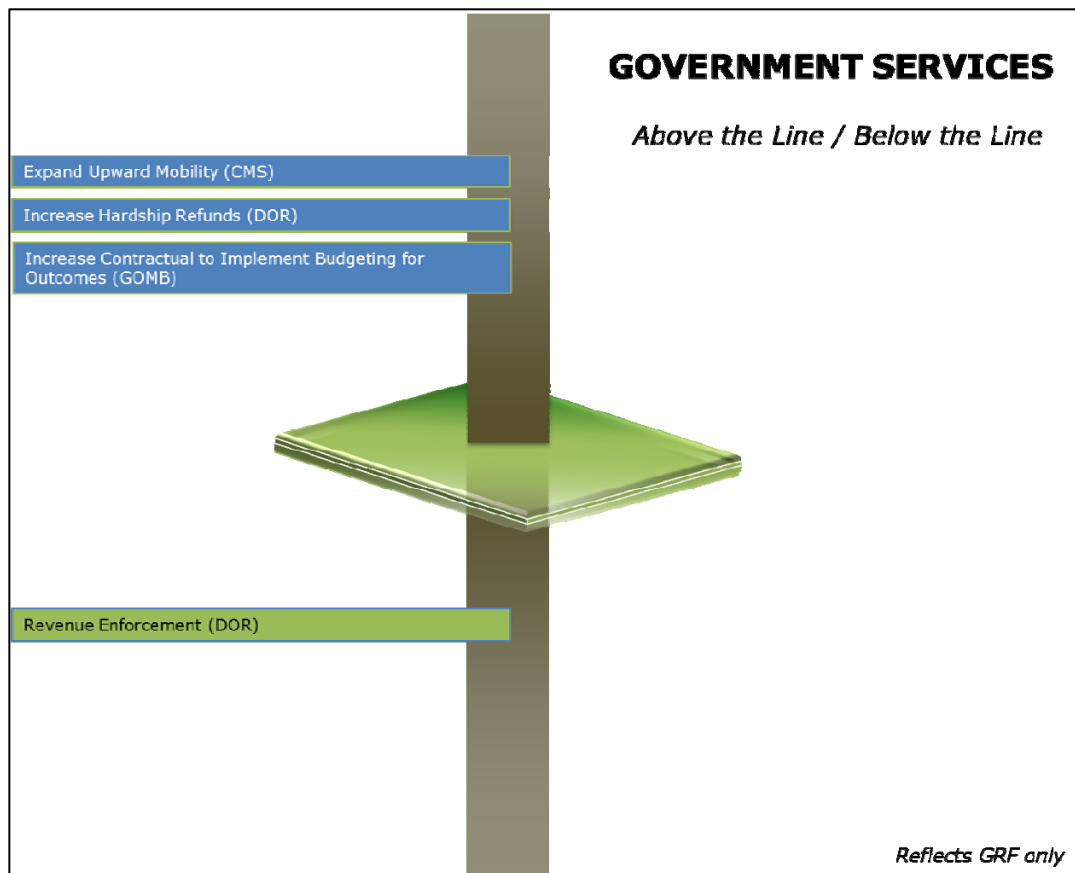

Agencies

- Legislative
- Judicial
- Constitutional

- Central Management Services (CMS)
- Department of Revenue (DOR)
- Governor's Office of Management and Budget (GOMB)
- Executive Inspector General (OEIG)
- Executive Ethics Commission (EEC)
- Capital Development Board (CDB)
- Civil Service Commission (CSC)
- Drycleaner Environmental Trust Fund (Drycleaner)
- Procurement Policy Board (PPB)
- Illinois Gaming Board (IGB)
- Illinois Racing Board (IRB)

MEASURING THE RESULTS

- Cost benefit analyses of investments in governmental efficiency.
- Decreased waiting times and increased service level ratings for all governmental services in the executive, legislative and judicial branches.

PUBLIC RETIREMENT

This page intentionally left blank.

Public Retirement Systems

State of Illinois

OVERVIEW

Funding the accrued pension liability of the five state retirement systems is Illinois government's single greatest financial challenge. For decades, Illinois' unfunded pension liability has been significantly greater than all of the state's bonded debt combined.

The five state-sponsored retirement systems provide benefits to eligible public employees, public school teachers, public university and community college personnel, judges and members of the General Assembly. Contributions and investment income provide for the payment of benefits, refunds, administrative costs and the purchase of fund investments.

The following table shows active and inactive members and retirees by system. A table of current and estimated assets, liabilities and funded ratios is included at the end of this chapter.

Members of the Illinois Retirement Systems		
Pension Fund	June 30, 2010 Members	Annuitants
Teachers	281,031	97,796
University	163,180	48,903
State Employees	64,687	58,392
Judges	986	999
General Assembly	255	398
Total	510,139	206,488

FUNDING HISTORY

The five state retirement systems have been under-funded each year since the 1970s. State pension contributions were inadequate even during good economic times.

By 1995, the unfunded liability was almost \$20 billion. To address this issue, the state enacted an annual funding schedule that became effective in fiscal year 1996 and is sometimes referred to as "the 50-year funding plan." By 2010, and through 2045, state contributions for pensions are to be maintained as a level percent of payroll adequate to achieve 90 percent funding of retirement systems liabilities by 2045.

Adopting a statutory payment plan for the state pension systems was necessary. However, the 50-year funding plan was structurally unaffordable from the moment it was enacted. It did not reduce principal until 2034, did not pay the annual interest cost, and incorporated a ramp-up period of 15 years that increased contributions over an arbitrary starting level. This had the result of deferring the entire 1995 unfunded liability of \$19.5 billion almost 40 years, while allowing this deferral to grow at a set rate of 8.5 percent annually.

Left unchecked, this \$19.5 billion debt grew to \$43 billion by 2003. This growth in unfunded liability was exacerbated by benefit enhancements enacted in the late 1990s through 2002, without any corresponding state funding.

CURRENT FUNDED STATUS

Although the five state retirement systems experienced favorable investment returns in fiscal year 2010, these returns did not offset the \$28 billion in actuarial losses due to investment performance in fiscal years 2008 and 2009. While assets increased by \$4.5 billion from 2009 to 2010, actuarial liabilities grew by \$12 billion. The growth in liabilities is due to the state's statutory contributions being less than the actuarially based contributions and a reduction by the State Employees, University Employees and Judges systems in the actuarial assumption for investment return, with each factor representing roughly half of the growth.

GOVERNOR SIGNS HISTORIC PENSION REFORMS INTO LAW

On April 14, 2010, Governor Quinn signed Public Act 96-0889 into law. This legislation made significant revisions to pension benefits available to new entrants after January 1, 2011. These revisions include increasing the retirement age from 60 to 67, using eight years average pay for benefit calculation instead of four, changing the cost of living adjustment from a flat three percent compounded rate to the lesser of three percent or 50 percent of the change in the consumer price index using simple interest, and limiting covered earnings to \$106,800, indexed to inflation.

ECONOMIC OUTLOOK AND REVENUE FORECAST

This page intentionally left blank.

Economic Outlook And Revenue Forecast

State of Illinois

ECONOMIC OUTLOOK

The National Economy

During periods of economic stability, economic and revenue forecasting models perform well with deviations from forecasts generally small. In contrast, periods of economic instability generate greater uncertainty, making substantial deviations from forecasts more probable. One should keep this fact in mind when evaluating the following outlook for the U.S. and Illinois economies. Future trends in credit availability, international default on sovereign debt, political instability in the Middle East, real estate market trends and government spending, as discussed below, are all sources of high uncertainty and increase the risk that current economic forecasts may turn out to be too optimistic.

As the national economy recovers from the recession, economic growth remains sluggish. While discussing the slow pace of the employment recovery, Federal Reserve Chairman Ben Bernanke stated, "...[employment] gains were barely sufficient to accommodate the inflow of recent graduates and other new entrants to the labor force and, therefore, not enough to significantly reduce the overall unemployment rate."¹ One of the risks to the general economic recovery may come from cuts to federal spending as the federal government aims to trim the budget deficit. Some consumer credit markets have improved slightly but, in many cases, mortgage credit remains elusive. The national economy is still reeling from the effects of the housing bubble as mortgage delinquency rates remain high and the construction industry struggles to rebound.

Sovereign Debt and Global Economy

Signs of global economic recovery are evidenced by the stabilization of financial markets and general economic growth. However, many challenges and risks remain that could impede global recovery for the remainder of fiscal year 2011 and into fiscal year 2012. The sovereign

debt crises, especially in Europe, continue to pose a major threat to recovery as governments implement austere measures to reign in budget deficits. For example, both Greece and Ireland have received liquidity infusions of €110 billion and €85 billion respectively from the Eurozone via the International Monetary Fund (IMF) and the European Financial Stability Fund (EFSF).² The financial difficulties of Portugal and Spain have spread the fear of bond defaults across the Eurozone. Many are concerned that the EFSF may not be sufficiently funded to offer a bailout to Spain should it become necessary. Bond holders are also demanding higher yields fearing that governments have understated the risk of holding their debt.³

Financial Markets and Credit Conditions

Many economists have speculated that deregulated financial markets and weakened credit conditions were instrumental in the collapse of the national and global economy. Historically low interest and mortgage rates coupled with the deregulation environment of the late 1990, such as the passage of the Gramm-Leach-Bliley Act of 1999 and the Commodities and Futures Modernization Act of 2000, were key in enabling investors to take on more risk. Legislation granted commercial banks the ability to engage in investment banking behavior, which meant that in addition to the normal commercial banking activities of investing and loaning checkable deposits, banks could also engage in speculative and often highly leveraged investment activities. Indeed it was a disproportionate leverage, often in the form of asset backed securities relative to capital, which caused many banks to either fail or seek Troubled Asset Relief Program (TARP) funds.

The banking crisis led to widespread calls for financial regulatory reforms of the sort not seen since the Great Depression. The reforms aimed to ensure the stability and transparency of the

State of Illinois

U.S. financial system. For example, the Dodd-Frank Wall Street and Consumer Protection Act,⁴ which was signed into law on July 21, 2010, streamlines the regulatory framework, increases oversight to specific institutions, and establishes strict standards and protections for the U.S. economy and American consumers.

Significantly, this legislation establishes the new Bureau of Consumer Financial Protection to protect consumers from abusive financial services. The new agency seeks to regulate consumer financial products and services to ensure compliance with the law.

Employment Outlook

While the U.S. economy did show signs of strength in the past year, as stated at the outset, the recovery in U.S. employment has been weak. The unemployment rate has held fairly steady from late fiscal year 2010 into early fiscal year 2011, declining modestly from 9.7 percent in January 2010 to 9.4 percent in December 2010.⁵ Although job creation has been slow, there have been modest gains. The number of jobs added in December 2010 was 103,000, while the increase in nonfarm employment since December 2009 totaled 1.1 million.⁶ As the economy continues to improve, the unemployment rate is expected to remain high, as discouraged and marginally attached workers re-enter the labor force. Labor force participation rate is defined as the percentage of working age people who are either employed or unemployed and looking for a job. The data do not yet show an increase in the labor force participation rate which stood at 63.6 percent in December, down from 63.9 percent a year earlier.⁷ Until this most recent recession, the labor force participation rate has averaged between 66 and 67 percent since 1989.

In a typical recovery, firms seek to maximize their existing capacity before adding new staff. One of the first signs that firms are ramping up

their hiring plans is an increase in temporary help. The use of temporary employees has increased by 495,000 since September 2009.⁸ It is expected that firms will start adding to their permanent staff as they become more confident in the recovery.

National Corporate Profits

According to 2010 third-quarter estimates, national corporate profits increased by \$26 billion over the \$47.5 billion gains realized in the second quarter.⁹ Of particular note, the financial industry attained an increase of \$34.6 billion in the third quarter profits as opposed to a \$3.4 billion decrease in the second quarter. Similarly, the domestic, non-financial sector experienced gains of \$0.3 billion in the third quarter in addition to increases of \$48.2 billion in the second quarter. Corporate profits also played a key role in the upturn in real Gross Domestic Product (GDP). Other contributing factors to the growth of real GDP include expansions in exports, non-residential fixed investment, personal consumption expenditures, and private inventory investment. As reported in advanced estimates from the Bureau of Economic Analysis, real GDP increased at an annual rate of 3.2 percent in the fourth quarter of 2010 over third quarter real GDP increases of 2.6 percent¹⁰.

Government Spending and Fiscal Policy

The federal government implemented two main stimulus measures to combat the recession: (1) Troubled Asset Relief Program of 2008 (*TARP*; P.L. 110-343) and (2) American Recovery and Reinvestment Act of 2009, (ARRA; Pub. L. 111-5). As of January 2011, the federal government continued to spend investment dollars for both TARP and ARRA programs.

At the beginning of 2011, the U.S. General Accountability Office (GAO) reported that TARP programs maintained \$179.2 billion in gross

Economic Outlook And Revenue Forecast

State of Illinois

outstanding direct loans and equity investments with subsidy cost allowances of \$36.7 billion. Each TARP program and its respective outstanding gross balance—a total net value of \$142.5 billion—are represented in the following:

- Capital Purchase Program (CPP); \$49.8 billion;
- Automotive Industry Financing Program (AIFP) \$67.2 billion;
- AIG (formerly Systemically Significant Failing Institutions Program) \$47.6 billion;
- Home Affordable Modification Program (HAMP); balance not available;
- Public Private Investment Program (PPIP); \$13.7 billion;
- Consumer and Business Lending Initiative (CBLI) \$0.9 billion¹¹

As a result of declines in the perception of risk in certain financial markets, decreases in interest rates (interbank, mortgage and bonds), increases in securitizations and increases in accessibility to credit markets, many entities aided by TARP programs have experienced sustained growth since 2008.¹²

In addition to TARP funds, the federal government has continued to bolster the economy via ARRA funds. By the end of December 2009, nearly \$263.3 billion dollars, or one-third of all ARRA funds, had been spent on various programmatic efforts. As of December 31, 2010, Illinois had received \$5.9 billion of the awarded \$11.5 billion.¹³

By January 21, 2010, the federal government had issued 92 percent of all ARRA funds to the states. The composition of current ARRA fund allocations are as follows: \$243.4 billion for tax benefits; \$176 billion for contracts, grants, and loans; \$179.1 billion for entitlements.¹⁴

According to the President's Council of Economic Advisers, real GDP grew at a 2.0

percent annual rate in the third quarter of 2010, which was the fifth consecutive quarter of positive growth. Consumer spending on goods and services increased by 2.6 percent, a slight increase over second quarter expenditures; moreover, fixed investment (nonresidential structures, equipment and software, and housing investments) expanded by 0.8 percent. Growth of 12 percent was also seen in equipment and software investment and 1.4 percent in inventory investment. However, residential investment declined.¹⁵

The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act Of 2010

The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010 was signed into law on December 17, 2010. This legislation benefits taxpayers in a variety of ways. Included in the legislation is a 2 percent employee payroll tax cut estimated to provide \$112 billion in tax relief in 2011, an extension of unemployment insurance at the current level for 13 months, an extension of the \$3,000 threshold in the Child Tax Credit, an expansion of the Earned Income Credit worth about \$600 for families with three or more children, a continuation of the American Opportunity Tax Credit worth up to \$2,500 for qualifying students and families, and an extension of 1603 Renewable Energy Grants to support jobs in the wind and solar industries.¹⁶ One provision that will have a huge short term negative impact on Illinois' corporate and individual income taxes is the 100 percent expensing clause allowing businesses to expense 100 percent of certain investments. This provision is discussed in more detail in the Corporate Income Tax revenue forecast section.

Economic Outlook And Revenue Forecast

State of Illinois

Housing and Credit Market

For housing markets to recover, it will be necessary for banks to make more credit available for mortgage lending. At this date, credit does not appear to be flowing, and banks still demonstrate little willingness to loosen the reins on credit restrictions. There has been no change in lending standards for prime mortgages or home equity lines of credit while standards for non-traditional mortgages have continued to tighten.¹⁷ Banks may be concerned that 90 plus-day mortgage delinquency rates have not improved over the last year -- increasing 0.3 percent to 5.3 percent -- and foreclosures are showing no signs of improvement.¹⁸ Finally, since demand for all varieties of mortgage products continues to decline, there is no incentive for banks to make more credit available.¹⁹

The banking industry's unwillingness to lend combined with consumers' reluctance to take on new mortgage debt will continue to a drag on an already lethargic residential construction

recovery for several years. Historically, population growth and the demand for replacement housing have driven the construction of 1.5 million new housing units annually.²⁰ The current annual rate of construction is just 623 thousand units annually.

The large inventory of unsold homes and the length of time homes sit on the market put additional downward pressure on the recovery. Although the average time in inventory is down to 6.9 months as of December 2010, the three month moving average is still 8 months, and the median number of months in inventory for new houses is 8.3 months.²¹

Both national and regional data suggest that the number of units sold continues to hover at historically low rates. The number of homes sold in December 2010 was 329,000 nationally and 32,000 for the Midwest. Both figures are well below their averages of 777,000 and 136,000 for the U.S. and the Midwest, respectively.²²

Economic Outlook And Revenue Forecast

State of Illinois

The Illinois Economy

The Illinois unemployment rate declined during the first half of fiscal year 2011 standing at 9.3 percent in December, better than the national rate of 9.4 percent.²⁴ The unemployment rate has not been this low since March 2009. As is typical of the recovery phase in the business cycle, job growth tends to lag the growth in Gross Domestic Product (GDP) as businesses first try to maximize output from existing resources before adding new staff. Generally, companies add more temporary employees before adding permanent positions.

It is estimated that total non-farm employment will grow between 1.4 percent and 1.8 percent during fiscal year 2011. Leading the growth is professional and business services, education and health services, and manufacturing.²⁵ Wages and salaries are expected to grow slightly faster during fiscal year 2012 between 1.6 percent and 3.9 percent compared with a range of 1.7 percent to 2.2 percent in fiscal year 2011.

Economic Outlook And Revenue Forecast

State of Illinois

Trends in State Taxes and Revenues

Although combined state tax revenues continued to decline in fiscal year 2010, most state budget officials are optimistic and expect an increase in overall tax revenues for fiscal year 2011. According to the National Association of State Budget Officers, cumulative 2011 state budgets project tax revenue totals nearing \$636 billion—a 4.4 percent increase in fiscal year 2011 over fiscal year 2010. However, it is important to note that 2011 projected revenues still lag behind 2008 revenues by 6.5 percent. Pooled state estimates include a 4.5 percent increase in sales tax revenue, a 4.8 percent increase in individual income tax revenue, and an 8.5 percent increase in corporate income tax revenue for fiscal year 2011. If tax revenue rebounds continue into fiscal year 2011, as they did in the first three quarters of fiscal year 2010, states will most likely meet target revenues.²⁶

Regional assessments support the likelihood of tax revenue improvement. According to the Rockefeller Institute of Government, all U.S. regions experienced an average 4.7 percent increase in personal income tax revenue, a 2.5 percent decrease in corporate income tax revenue, and a 4.1 percent increase in sales tax revenue.²⁷ Based on personal income tax withholding reporting by all states, New England had a 5.8 percent increase in July-September 2010 over a 4.8 percent increase in April-June of 2010; the Mid-Atlantic region had a 0.6 percent increase in July-September over a 9.7 percent increase in April-June 2010; the Great Lakes region 3.9 percent over 2.4; the Plains region 4.7 over 4.4; the Southeast 2.2 over 1.2; the Southwest 1.4 over 2.6; the Rocky Mountain region 3.3 percent over 0.9 percent; and the Far West region had 14.3 percent over 13.4 percent. Overall, only four states—New Jersey, North Dakota, North Carolina, and Oklahoma—reported decreases in personal income tax

withholdings.²⁸ The largest decline in corporate income tax revenue occurred in the Far West Region with a loss of 21.1 percent followed by the Mid-Atlantic and Southeast regions which experienced losses of 8.7 percent and 3.6 percent respectively. Conversely, New England (29.3 percent), Great Lakes (5.2 percent), Plains (27.6 percent), Southwest (44.1 percent), and Rocky Mountain (46.0 percent) regions witnessed significant nominal percentage gains in corporate income tax revenue. All U.S. regions reported increases in sales tax revenue, except save the Far West which has experienced no growth; similarly, the Far West is the only region to report combined tax revenue losses.²⁹

While improvement may be on the horizon, most states have made concerted efforts to mitigate the impact of prolonged tax revenue losses by instituting a range of cost cutting measures. These measures have affected spending in education, public assistance, Medicaid, corrections and transportation. For fiscal year 2010, 35 states implemented \$5.4 billion in budget cuts in K-12 education, while 32 states reduced funding for higher education in excess of \$2.5 billion. Similarly, 20 states decreased public assistance expenditures by \$601 million; 28 states adjusted Medicaid payments by \$1.9 billion; 31 states reduced spending on corrections by \$805 million; and 15 states lowered transportation costs by \$419 million. Initial fiscal year 2010 budget cuts are estimated to have exceeded \$18.3 billion with another \$4 billion in budget cuts being made mid-year.³⁰

In addition to programmatic budget cuts, many states have responded to budgetary deficits by increasing taxes and fees. In fiscal year 2010, states enacted \$23.9 billion in tax and fee changes; in the same vein, states have enacted

Economic Outlook And Revenue Forecast

State of Illinois

\$6.2 billion in tax and fee changes for fiscal year 2011. Increases in motor fuel taxes are expected to generate an additional \$2.5 billion in fiscal year 2011.³¹

States have also reduced employment and compensation levels to address budgetary shortfalls. In fiscal year 2010, 31 states reduced the number of full-time-equivalent positions. Thus far in fiscal year 2011, 27 states have eliminated full-time-equivalent positions. Moreover, in fiscal year 2010, 25 states implemented layoffs and 22 states imposed furloughs. Although many state officials indicated they would lay off personnel or eliminate full time positions in fiscal year 2011, aggregate state appropriations for full time employees allowed for an increase of over 12,000 new employees.³²

Illinois Revenue Sources

Illinois' revenue sources are largely dependent on elastic, or economically sensitive, taxes. Those taxes include but are not limited to the individual income tax, corporate income tax and sales tax. Additional sources of state income include monies collected from utility, gaming and wagering, excise and motor fuel taxes. The following provides a cursory explanation of each additional revenue source.

- **Major Economically Sensitive Tax Structure:** Illinois' revenue structure is largely based on economically sensitive taxes, especially individual income tax, corporate income tax and sales tax. During fiscal years 2010 through 2012, these three sources are estimated to account for an average of 85.6 percent of general fund tax revenue.
- **Utility Taxes:** Illinois has usage-based utility taxes for gas and electricity, rather than ad valorem utility taxes based upon the dollar value of the utility provided. As homeowners and businesses install more energy-efficient heating and cooling equipment, utility taxes will experience a downward trend. Telecommunication taxes

are based on gross receipts and are therefore driven by price and consumption. During fiscal years 2010 through 2012, these three sources are estimated to account for an average of 4.6 percent of general fund tax revenue.

- **Wagering Revenue Streams:** Illinois receives revenue from the state lottery and various forms of gaming. During the last legislative session, the General Assembly approved allowing video poker machines to be installed throughout the state. The state receives a modest revenue stream from horse racing activity conducted in Illinois. During fiscal years 2010 through 2012, these three sources are estimated to account for an average of 4.5 percent of general fund tax revenue.
- **Other Major General Fund Excise Taxes:** Illinois' general fund excise taxes include insurance, franchise, cigarette, liquor and hotel taxes. During fiscal years 2010 through 2012, these sources are estimated to make up the remaining 5.2 percent of general fund tax revenue.
- **Non General Fund Tax Streams:** Illinois allocates revenue from the motor fuel tax to the Road Fund. The majority of revenue from real estate transfer taxes goes toward low-income housing.

Tax Amnesty

P.A. 93-26 was amended to allow for a tax amnesty program during fiscal year 2011. Under this program, Illinois taxpayers who paid eligible back taxes during the amnesty period, which ran from October 1st to November 8th, 2010, received a waiver of all associated interest and penalties. Participants were motivated by the fact that on November 9, the day after amnesty ended, penalties and interest on unpaid back taxes doubled. Companies that were scheduled for audits and taxpayers in the collection program took advantage of the amnesty period to reassess their own tax returns and make payments to ensure they would pay their full debt. The Illinois Department of Revenue received amnesty payments from over 78,000 taxpayers and collected \$717 million in amnesty

³¹ Ibid

³² Ibid

Economic Outlook And Revenue Forecast

State of Illinois

payments, some of which went to local governments and the state's Income Tax Refund Fund. The majority of revenue received under amnesty was in the form of Corporate Income Tax, Personal Property Replacement Tax and Sales and Use Tax.

Some of the revenue collected under the amnesty program would have been collected

during fiscal years 2011, 2012 and beyond. It is estimated that the first half of fiscal year 2011 received approximately \$165 million from the second half of fiscal year 2011, \$150 million from fiscal year 2012, and \$390 million from subsequent years. The baseline revenue estimates have been reduced accordingly.

Economic Outlook And Revenue Forecast

State of Illinois

REVENUE FORECASTS: FISCAL YEAR 2011 REVISED AND FISCAL YEAR 2012

Economically sensitive revenues, such as individual income tax, corporate income tax and sales tax are estimated using a variety of econometric model specifications. Other revenue sources, such as utility taxes, cigarette taxes and user fees, are not significantly affected by economic changes and are fairly stable from year to year. Trend analysis is used to forecast revenue streams that are not significantly impacted by economic trends.

Final budget forecasts are developed from information obtained through a variety of sources, including:

- **Governor's Council of Economic Advisors (CEA).** The CEA is comprised of economists and members of the business and public policy communities. Staff support is provided in part by the Departments of Revenue and Employment Security. The CEA actively provides input into the budget process with an emphasis on economic forecasting.
- **National economic consulting firms.** The state uses *Moody's Economy.com*, and *IHS Global Insight* to provide current national, regional and Illinois data, to analyze historical economic trends, to monitor current economic conditions and to develop forecasts of key economic indicators.
- **State Agencies:**
 - **Department of Revenue (DOR)/** DOR forecasts corporate and individual income taxes, sales taxes, utility taxes and gaming taxes, among others. In developing forecasts for these sources, DOR analyzes economic trends, draws upon historical revenue data and develops econometric models.
 - **Department of Employment Security (DES).** DES analyzes and interprets Illinois labor market conditions in the context of national economic trends. DES provides employment and wage data for

the econometric models that are used to forecast Illinois revenues, particularly individual income tax and sales taxes.

- **Governor's Office of Management and Budget (GOMB).** GOMB analyzes and reviews economic indicators, interprets economic forecasts and tracks state revenues. Major sources of revenues are tracked on a daily, semi-monthly and quarterly basis to provide timely information on the state's financial position.

Revenue Estimation Methodology

The state uses several different steps in developing revenue forecasts:

- **Data Collection.** Monthly and quarterly historical revenue data is obtained from a number of sources, including State of Illinois Comptroller records and DOR tax collection records. When possible, any one-time source of revenue is removed from the revenue stream for analysis purposes.
- **Econometric Modeling.** Econometric modeling is used to establish statistically significant relationships between economically sensitive revenue streams and various economic indicators. Several econometric models have been developed for major economically sensitive revenues, and the results from all models are regularly reviewed.
- **Evaluation of Models' Results.** The econometric models are evaluated for their ability to make accurate predictions. These various statistics identify the strength of the relationship (goodness of fit) and the ability to make accurate predictions.
- **Review of Forecasted Economic Indicators.** The national economic forecasting firms, *Moody's Economy.com* and *IHS Global Insight*, develop forecasts for core economic variables. These forecasts are reviewed by the CEA, GOMB, DOR and IDES.
- **Consensus of Forecasted Indicators.** Reviews and group discussions result in a

Economic Outlook And Revenue Forecast

State of Illinois

consensus of future expectations toward each key economic indicator. The consensus values for each indicator are often stated as a range, reflecting the inherent uncertainty of trying to predict the future.

- **Quantitative Forecasts of Revenues.** Forecasts are then used as inputs in the econometric forecasting process. The econometric models forecast the remainder of fiscal year 2011 and fiscal year 2012 revenues.

Reasonableness Test. The quantitative forecasts derived from the models are then subjected to reasonableness tests. As a result, the values predicted may be modified to reflect the most recent data and trends, rather than solely capture the long-term relationship.

Economic Outlook And Revenue Forecast

State of Illinois

EXISTING REVENUE SOURCES

Selected Economically Sensitive Taxes

The table summarizes the economic indicators used in the various models.

Key Economic Indicators Used in Forecasting Revenues		
Individual Income Taxes	Withholding Tax Payments	Illinois wage and salary income
		Illinois residence adjustment
		Illinois supplemental income
	Estimated and Final Tax Payments	Illinois dividends, interest, and rents
		Illinois proprietors' incomes
		Lagged Illinois individual non-withholdings
Corporate Income Taxes		U.S. before tax corporate profits
Sales Taxes		Illinois retail sales
		Illinois wholesale trade employment
		ABA delinquency rate for Illinois
		U.S. auto & light truck sales
		Midwest motor fuel consumption
		Midwest motor fuel prices

The average annual percentage change for the individual income tax, corporate income tax and sales tax combined is 4.8 percent over the last two business cycles. In contrast, the state expects a significant increase of 23 percent for fiscal year 2011, and 22 percent in fiscal year 2012. These large increases are due primarily to revenue received from the recent tax increases.

During fiscal year 2011, the state's three major tax revenue streams began growing. After five quarters of solid double digit decline, corporate income tax estimated payments flattened in December 2009 and started to increase by June 2010. Individual income tax receipts bottomed out at the end of fiscal year 2010 and began to turn around in the first half of fiscal year 2011. In the case of sales tax, the decline ended in April 2010, but a stable recovery did not begin until October 2010.

Individual Income Taxes

Individual Income Taxes					
(\$ millions)					
Overview: Individuals were taxed at a flat rate of 3 percent of net income through December 31, 2010.					
PA 096-1496 increased the tax rate to 5 percent for net income after December 31, 2010.					
The starting point for the Illinois Individual Income Tax is federal adjusted gross income. The adjusted gross income is modified by adding back certain items and subtracting out others. A standard exemption of \$2,000 is provided to taxpayers and their dependents. Taxpayers may qualify for various credits such as the property tax credit, education expense credit and the earned income tax credit.					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Gross Receipts (3 percent tax rate)	\$11,187	\$10,219	\$9,430	\$9,656	\$9,916
Gross Receipts (2 percent tax rate increase)	n/a	n/a	n/a	\$2,884	\$6,473
Amnesty	n/a	n/a	n/a	\$40	n/a
Gross Revenue Reduction Associated with Amnesty	n/a	n/a	n/a	\$(15)	n/a
Refund Fund Deposit	\$867 (7.75%)	\$996 (9.75%)	\$920 (9.75%)	\$1,099 (8.75%)	\$1,434 (8.75%)
Net Receipts (General Funds)	\$10,320	\$9,223	\$8,510	\$11,466	\$14,955
Key Assumption: Illinois wages and salaries are expected to grow at 1.9 percent and 3.2 percent in fiscal years 2011 and 2012 respectively.					

Individual income tax (IIT) receipts declined 8.7 percent (\$968 million) in fiscal year 2009 from fiscal year 2008. This was followed by a further 7.7 percent decline (\$789 million) in fiscal year 2010 compared with fiscal year 2009. In fiscal year 2011, we expect growth in IIT gross receipts of 33.2 percent fiscal year 2011 over fiscal year 2010 (\$12,565 million versus \$9,430 million). The percent accounts for the tax rate increase as well as amnesty receipts. In fiscal year 2011, we expect underlying economic growth in IIT receipts of 2.5 percent.

Economic Outlook And Revenue Forecast

State of Illinois

Individual income tax receipts have two main components: withholdings and non-withholdings. Withholdings are driven by wages and salaries and account for approximately 80 percent of total IIT receipts. Non-withholding receipts are driven by capital gains realizations, dividends, interest and other variable income streams. Non-withholdings are paid through estimated payments and final payments.

In forecasting fiscal years 2011 and 2012 withholdings, the wages and salaries series used is derived from the Illinois Department of Employment Security (IDES) employment projections. Illinois employment, as forecasted by IDES labor economists, is the basis for the projection of wage and salary growth in the state. In the last three years, wage and salary forecasts produced by the two major forecasting houses, *IHS Global Insight* and *Moody's Economy.com*, have proven to be significantly overstated.

Fiscal year 2011 withholdings are estimated to increase by 35.9 percent from fiscal year 2010. In adjusting the increased revenue associated with the IIT rate increase, the increase in withholding receipts is proportional to the rate increase. This percent increase accounts for half of fiscal year 2011 at a higher tax rate as well as an underlying growth in withholding of 1.2 percent.

In the absence of the tax increase, fiscal year 2011 non-withholdings were estimated to increase by 8.3 percent from fiscal year 2010 to \$1,783 million. However, when non-withholding income associated with the tax rate is included. This amount is expected to increase to \$1,969 million. The growth of non-withholdings in fiscal year 2011 is less than proportional to the tax increase. This is because much of the revenue received through non-withholding will be from 2010 income tax returns. The income reported on the returns is based on pre-tax increase activity. For taxpayers to avoid penalties on their 2011 income taxes, they are only required to make quarterly estimated payments of 50 percent above the tax year 2010 payments. This is somewhat less than the proportional increase of 67 percent in the tax rate. However, in April of fiscal year 2012,

taxpayers will make up any underpayments when they file their income tax returns.

In addition, \$40 million in IIT payments were received under the state's amnesty program. Combining these revenue streams, fiscal year 2011 gross IIT receipts are forecast to increase 33.2 percent, consistent with net receipts (general funds) of \$11,466 million.

Fiscal year 2012 withholdings are forecasted to increase 30.8 percent from fiscal year 2011. On the other hand, fiscal year 2012 non-withholdings are estimated to increase 29.9 percent from fiscal year 2011. Combining these two components, fiscal year 2012 gross IIT receipts are forecasted to increase 30.4 percent. This implies that fiscal year 2012 net receipts (general funds) will be at \$14,955 million.

Increase Earned Income Credit

The Earned Income Credit is a refundable tax credit that encourages and rewards work. Eligible working families currently receive a credit of up to 5%, one of the lowest percentages of the nation's 21 state's with EIC's. The Quinn administration is working to increase Illinois' EIC to 15%. The 15% rate is more in line with many other states with EIC's. Based on the latest data, this increase would provide an additional \$200 million for eligible working families. The EIC provides a strong work incentive for low-income families by allowing them to keep more of their hard-earned money at tax time. It helps to reduce the heavy burden of taxes on low income working families. The EIC represents targeted assistance for struggling families who need it most. Many economists say this credit provides true "economic stimulus" for businesses and communities because families spend their EIC money at the local level.

Economic Outlook And Revenue Forecast

State of Illinois

Corporate Income Taxes

Corporate Income Taxes (\$ millions)

Overview: Corporations are taxed at a rate of 4.8 percent of net income through December 31, 2010.

PA 096-1496 increased the tax rate to 7 percent for net income earned after December 31, 2010.

The starting point for the Illinois Corporate Income Tax (CIT) is federal taxable income. The federal taxable income is modified by adding back certain items and subtracting out others.

In addition, there are currently 17 different credits available to corporate income taxpayers to offset tax liabilities. The state collects an additional 2.5 percent Personal Property Replacement Tax on behalf of local governments.

	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Gross Revenue excluding Amnesty	\$2,201	\$2,073	\$1,649	\$2,082	\$3,192
Gross Amnesty Collections	n/a	n/a	n/a	\$ 266	n/a
Gross Revenue Reduction Associated with Amnesty	n/a	n/a	n/a	\$ (63)	\$ (29)
Refund Fund Deposit	\$341 (15.5%)	\$363 (17.5%)	\$289 (17.5%)	\$400 (17.5%)	\$395 (12.5%)
General Fund Revenue	\$1,860	\$1,710	\$1,360	\$1,885	\$2,768

Key Assumptions: FY11 gross receipts increase by \$180 million due to the tax increase. The estimate is also increased by \$266 million for amnesty payments. Revenue streams will be reduced by \$63 million in FY11 and \$29 million in FY12 due to future receipts being brought forward due to amnesty. FY12 revenue will increase by an estimated \$275 million due to the suspension of net operating losses. In total, underlying economic growth in CIT receipts is 15.3 percent in FY11 and 5.2 percent in FY12

The state previously forecast a 15.3 percent increase in the CIT between fiscal year 2010 and fiscal year 2011. However, several factors have impacted this baseline estimate. The state's tax amnesty program, in effect between October 1 and November 8, 2010, yielded \$266 million in gross CIT revenue. The General Assembly passed a 2.2 percentage point CIT tax increase in January 2011, effective for income earned after December 31, 2010. In addition, the amnesty program caused monies to be brought

forward that were estimated to be received in the second half of fiscal year 2011 and fiscal year 2012. This is estimated at \$63 million in fiscal year 2011 and \$29 million in fiscal year 2012.

It is anticipated that the CIT revenue before Public Act 096-1496 will be at the forecasted amount of \$1,902 million, not including the amnesty adjustments. The expected total of \$2,082 million includes an additional \$180 million from estimated payments associated with two payments at the higher tax rate. The gross amnesty amount is \$266 million but \$63 million of that amount would have been collected in the second half of 2011 and must be subtracted. Fiscal year 2011 net CIT receipts are estimated at \$1,885 million.

The majority of CIT receipts come from estimated payments. There are four major estimated payment months each fiscal year, September, December, April and June.

Estimated payments have been increasing over the previous year since April 2010. However, the growth experienced in the most recent estimated payment in December was a modest 3 percent. This compares with double digit growth experienced in the previous 3 payments. This may be evidence that firms are reducing their estimated payments to avoid being in a refund situation.

Based on forecasts for domestic corporate profits, baseline CIT receipts are forecast to increase 15.3 percent in fiscal year 2011 and 5.2 percent in fiscal year 2012. In fiscal year 2012 a full year of revenue at the 7 percent tax rate is expected. For fiscal year 2012 the gross CIT receipts before the tax increase /are forecast at \$2 billion. This estimate is reduced by \$29 million as a result of the fiscal year 2011 amnesty program. Gross CIT receipts associated with the 2.2 percentage point tax increase is forecast at \$917 million. In addition, it is estimated that revenues will be increased by \$275 million because the ability to use Net Operating Losses (NOLs) is suspended. The net amount of CIT for fiscal year 2012 is forecasted to be \$2,768 million

Economic Outlook And Revenue Forecast

State of Illinois

The above analysis and associated revenue estimates assume that state legislation is passed and signed into law that would decouple Illinois from Section 401 of the Federal Tax Relief, Unemployment Insurance Reauthorization and Job Creation Act of 2010 (Public Law 111-312). Should this legislation not pass, the state stands to lose between \$50 to \$115 million in fiscal year 2011 and between \$520 and \$615 million in fiscal year 2012.

All business refunds, fiscal year 2011 backlogs carried into fiscal year 2012 and new fiscal year 2012 requests, will be paid in full by the end of fiscal year 2012. This will occur through a combined strategy of borrowing and refund fund deposits. It is recommended that \$930 million be paid in fiscal year 2011.

Sales Taxes

Sales and Use Taxes (\$ millions)					
<p>Overview: Sales of tangible personal property are taxed at a general rate of 6.25 percent of the purchase price. The state keeps 5 percent of the purchase price and distributes 1.25 percent of the purchase price to local governments. There are several major exemptions from the sales tax base, including food for off-premises consumption, drugs and manufacturing machinery and equipment. Of state sales tax receipts (excluding receipts from sales of candy, soft drinks, and certain grooming and hygiene products), 5.55 percent and 0.27 percent are deposited into the Build Illinois Fund and the Illinois Tax Increment Fund, respectively. The remainder is deposited into the state's general revenue fund. Sales tax receipts are also transferred into the Public Transportation, Metro East and Downstate Public Transportation funds. The state sales tax from sales of candy, soft drinks, and certain grooming and hygiene products is deposited into the Capital Projects Fund. The dollar totals below are for the general revenue funds only.</p>					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Revenue Excluding Amnesty	\$7,215	\$6,773	\$6,308	\$6,430	\$6,610
Amnesty Payments	n/a	n/a	n/a	\$127	n/a
Revenue Reduction Associated with Amnesty	n/a	n/a	n/a	(\$43)	(\$24)
General Fund Revenue	\$7,215	\$6,773	\$6,308	\$6,514	\$6,586
<p>FY11 revenue is expected to increase 1.9 percent, excluding amnesty, based on forecasts for motor vehicle sales, motor fuel sales and other taxable retail sales. FY12 sales tax revenue will increase 2.8 percent above FY11, excluding 2011 amnesty payments.</p>					

Sales tax revenue is analyzed and forecasted by dividing it into three components: motor vehicle sales, motor fuel sales, and all other taxable retail sales.

Motor vehicle sales, which generated 12 percent of state sales tax revenue in fiscal year 2010, are projected to continue their recovery, gaining momentum in fiscal year 2012. Projections put U.S. light vehicle sales at 12 million for fiscal year 2011 and slightly above 13 million for fiscal year 2012. These figures represent an improvement over fiscal year 2010, but are still far below the pre-recession annual average of nearly 17 million. Sales tax revenue from motor vehicle sales is expected to increase

Economic Outlook And Revenue Forecast

State of Illinois

approximately 6 percent in fiscal year 2011 and approximately 7 percent in fiscal year 2012.

Motor fuel sales, sales of gasoline, diesel, and associated blends, generated 10 percent of state sales tax revenue in fiscal year 2010. Sales tax revenue from motor fuel sales are forecasted to increase approximately 15 percent in fiscal year 2011 and approximately 10 percent in fiscal year 2012. These increases are driven primarily by higher motor fuel prices. It should be noted that motor fuel sales are the most volatile component of sales tax revenue, and any number of events, such as instability in oil producing regions or refinery shut-downs following a natural or man-made disaster, can result in significant price fluctuations.

The “all other” category generated 78 percent of state sales tax revenue in fiscal year 2010 and includes, among other items, household appliances, apparel, electronics, home improvement materials, furniture, and restaurant food and beverage sales. Despite an ongoing recovery, numerous factors continue to weigh on this category of sales. These include a weak labor market, tight credit standards, a still-troubled housing market, and household deleveraging, which in the short-term reduces the cash flow available for taxable spending. Tax evasion associated with online shopping will also dampen the recovery of the “all other” category of sales tax revenue. Revenue from the “all other” category is expected to be flat in fiscal year 2011 and to increase just more than 1 percent in fiscal year 2012.

Putting the three major components together, state sales tax revenue is estimated to be \$6,430 million in fiscal year 2011 for growth of 1.9 percent over fiscal year 2010. This excludes amnesty. For fiscal year 2012, state sales tax revenue is forecasted to be \$6,610 million, or 2.8 percent growth over fiscal year 2011 excluding amnesty.

Illinois’ fiscal year 2011 tax amnesty program generated approximately \$127 million in state sales tax payments to the state’s general revenue funds. However, some of this money would have been collected over the budget period and was already part of the fiscal year 2011 estimate and fiscal year 2012 forecast.

Adjusting the projections to account for the impact of the amnesty program, the total fiscal year 2011 estimate is \$6,514 million and the fiscal year 2012 forecast is \$6,586 million.

Public Utility Taxes

Public Utility Taxes (\$ millions)

Overview: Public utility taxes include a 7 percent tax on gross charges of inter- and intrastate phone calls, the lesser of 2.4 cents per therm or 5 percent gross revenue tax on natural gas, and a consumption based tax on electricity. Three percent of total receipts from the electricity tax is deposited into the Public Utility Fund to help fund the Illinois Commerce Commission and 1 percent of the 7 percent tax goes to the School Infrastructure Fund. The remainder is deposited into the General Revenue Fund (GRF). The gas use tax is imposed on the privilege of using gas purchased out-of-state by a supplier. Gas is taxed at a rate of 2.4 cents per therm or 5 percent of the purchase price. The gas use tax was instituted in October of FY04. Currently, all gas use tax revenue is deposited into the GRF. As of FY05, electricity tax receipts in the GRF are \$5 million higher as a result of a law change requiring a monthly payment into the GRF of \$416,667, which in the past was deposited into the Public Utility Fund.

	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Telecom-munications	\$579	\$593	\$550	\$540	\$509
Electricity	\$410	\$403	\$381	\$399	\$409
Natural Gas	\$168	\$172	\$158	\$162	\$164
Total	\$1,157	\$1,168	\$1,089	\$1,101	\$1,082

Key Assumptions: Telecommunications tax receipts are expected to decrease by an estimated 1.8 percent in FY11 and then decrease by an additional 5.7 percent in FY12. Electricity tax receipts are forecast to increase by an estimated 4.7 percent in fiscal year 2011 and 2.5 percent in fiscal year 2012. Natural gas tax receipts are estimated to increase by 2.5 percent in FY11 and 1.2 percent in FY12.

Telecommunications

Through fiscal year 2010 and fiscal year 2011 to date, receipts from the telecommunications excise tax have declined in response to the shrinking market for landline telecommunication services, which have been and continue to be abandoned by more customers as they exclusively adopt wireless services. This downward trend is expected to continue through fiscal year 2012. Telecommunications excise tax receipts face additional downward pressure from an ongoing dispute over the proper classification and tax treatment of

Economic Outlook And Revenue Forecast

State of Illinois

certain types of wireless services, causing an estimated \$26 million annual loss.

The telecommunications excise tax estimate for fiscal year 2011 is \$540 million, which includes approximately \$26 million in one-time telecommunications excise tax amnesty payments to the state's general revenue funds. The forecast for fiscal year 2012 is \$509 million, which is 5.7 percent below the fiscal year 2011 estimate.

Electricity

The electricity excise tax estimate for fiscal year 2011 is \$399 million and reflects a projected 4.7 percent increase in demand for electricity. The projected increase in electricity demand for fiscal year 2012 is 2.5 percent, which yields a revenue forecast of \$409 million.

Natural Gas

The natural gas tax estimate for fiscal year 2011 is \$162 million and reflects a projected 2.5 percent increase in demand for natural gas. The projected increase in natural gas demand for fiscal year 2012 is 1.2 percent, which yields a revenue forecast of \$164 million for 2012.

Cigarette and Other Tobacco Products Taxes

Cigarette and Other Tobacco Products Taxes (\$ millions)

Overview: Cigarettes are taxed by the state at a rate of 98 cents per pack. Of the receipts from cigarette taxes, \$33.3 million a month is deposited into general funds. The amount deposited into general funds from these taxes has been statutorily limited to \$400 million annually. This amount has been reduced to reflect the historical decline in cigarette tax and revenue. Additionally, \$5 million per month from cigarette taxes is deposited into the School Infrastructure Fund, and the remaining revenues are deposited into the Long Term Care Provider Fund. The estimate also includes an additional \$23 million from enhanced tobacco enforcement.

	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
General Funds Revenue	\$350	\$350	\$355	\$355	\$355
Total Cigarette Revenue	\$592	\$561	\$558	\$537	\$532
Other Tobacco Products	\$21	\$20	\$24	\$24	\$24

Key Assumptions: The FY12 forecast is based on 0.6 percent population growth and 0.3 percent of smokers successfully quitting.

Cigarette sales in Illinois are a function of many variables including the difference between the tax rate in Illinois and neighboring states, the federal tax rate, the smoking age population and the general rate of smoking cessation. The Smoke Free Illinois Act and an increase in the federal tax rate have negatively impacted revenue. Tax rates, population and cessation largely influence taxable cigarette consumption in Illinois. According to *IHS Global Insight*, Illinois' population over the age of 15 is expected to grow at 0.6 percent per year. Using a 2007 Center for Disease Control and Prevention Illinois tobacco use survey results, 20.2 percent of the adult population in Illinois smoked and 0.3 percent of remaining smokers in any given year will successfully quit. Pooling tobacco use survey results with historical tax data, the average Illinois smoker consumes 306 taxable packages of cigarettes per year. Trends in population, cessation and consumption are extrapolated from current consumption levels to arrive at a revenue forecast. These assumptions

Economic Outlook And Revenue Forecast

State of Illinois

yield a fiscal year forecast of \$537 million in 2011 and \$532 million in 2012.

Taxes on other tobacco products tend to be stable over time. The recent increase in taxes on other tobacco products is attributable to a federal tax increase. Because the Illinois tax is based on the wholesale price of the product (inclusive of federal taxes), even though consumption declined, revenue increased. Assuming no tax change in the future, taxes on other tobacco products are expected to remain constant at \$24 million per year throughout the forecast horizon.

Inheritance Tax

Inheritance Tax (\$ millions)

Overview: The federal estate tax was repealed for individuals dying on or after January 1, 2010. The Illinois inheritance (estate) tax was coupled to the federal estate tax through 2010. As a result of being coupled to the federal code, Illinois inheritance tax receipts declined 85 percent, or \$53 million, from November 2010 thru January 2011 (year over year).

PA 096-1496, effective January 13, 2011, decoupled the Illinois Inheritance Tax from the federal estate tax code for persons dying after December 31, 2010.

Illinois inheritance tax receipts are deposited into the General Revenue Fund. Six percent of net revenue realized from the Illinois inheritance tax during the preceding month is then transferred from the General Revenue Fund to the Estate Tax Collection Distributive Fund. The revenue in this fund is then distributed to the county of residence of the decedent.

	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Revenue	\$373	\$288	\$243	\$132	\$182

Key Assumptions: Inheritance taxes, for individuals dying after December 31, 2010, will be receipted into the General Revenue Fund beginning in November 2011.

Fiscal year 2011 inheritance tax receipts are estimated at \$132 million. The state received full payments through October 2010. Starting in November and continuing through the end of the fiscal year, revenue received will come only from installment payments.

The state's inheritance tax was reinstated in January 2011. However, payments from decedents' estates are not received by the state

for up to ten months after the person's death. Inheritance tax receipts from July 2011 thru October 2011 will come primarily from installment payments. Beginning in November 2011, inheritance tax receipts will also be received from the reinstated provisions of the Illinois inheritance tax. Fiscal year 2012 estate tax receipts are estimated at \$182 million.

Liquor Taxes

Liquor Taxes (\$ millions)

Overview: Businesses that make or distribute alcoholic beverages within Illinois pay liquor taxes based on the volume and alcohol content of these beverages. Liquor taxes include assessments of 18.5 cents per gallon of beer or cider, 73 cents per gallon of wine, and \$4.50 per gallon of hard liquor. Additional state liquor tax rates apply, but revenue from these additional rates are earmarked for capital projects and are not included in the forecast totals below.

	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
General Revenue	\$158	\$158	\$159	\$161	\$162

Key Assumption: Alcohol consumption will remain flat over the forecast period.

Liquor consumption is relatively unresponsive to business cycle fluctuations, making liquor tax a stable source of revenue. Because Illinois' liquor tax is an excise tax levied on the gallons sold, changes in consumer spending on alcohol generally does not affect the revenue stream.

In fiscal year 2010, liquor tax revenue increased 0.6 percent from the previous fiscal year. Looking at the revenue composition by type of alcohol in fiscal year 2010, hard liquor generated 54 percent of GRF tax yields, beer and cider generated 32 percent, and wine generated 14 percent. Liquor tax revenue for fiscal year 2011 is estimated at \$161 million. The forecast for fiscal year 2012 is \$162 million.

Economic Outlook And Revenue Forecast

State of Illinois

Insurance Taxes and Fees

Insurance Taxes and Fees (\$ millions)					
<p>Overview: The privilege tax and the retaliatory tax are the most significant components of Illinois' insurance taxes. Both foreign and domestic insurance companies are liable for the tax. The retaliatory tax is paid by non-Illinois companies if their state imposes taxes or fees on Illinois insurance companies in excess of Illinois taxes and fees charged to companies from the host state.</p>					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
General Fund Revenue	\$299	\$334	\$322	\$319	\$318
Total Revenue	\$390	\$435	\$423	\$418	\$416
<p>Key Assumption: Slight decline in both fiscal year 2011 and FY12.</p>					

Receipts to the General Revenue Fund are comprised largely of privilege, retaliatory and surplus line taxes. Fiscal year 2011 revenue is forecast to decline slightly from fiscal year 2010. The privilege and retaliatory tax components are forecast to increase modestly. However, this modest increase will be offset by a decline of more than 20 percent in surplus line tax receipts. The estimated decline in surplus line receipts is expected to level off in fiscal year 2012.

Total insurance tax revenue is estimated at \$418 million for fiscal year 2011, with general fund insurance tax and fee revenue estimated at \$319 million. Fiscal year 2012 general revenue insurance tax revenues are forecasted at \$318 million.

Corporate Franchise Tax and Fees

Corporate Franchise Taxes and Fees (\$ millions)					
<p>Overview: Illinois collects franchise taxes from corporations in the amount of 0.15 percent of paid-in capital when beginning business in the state, an additional 0.15 percent of any increase in paid-in capital during the year, and an annual tax of 0.10 percent of paid-in capital. Additionally, the state levies fees for filing an annual report, for filing articles of incorporation, amendment, merger, or consolidation and dissolution. Two percent of the revenues collected from these sources are deposited into the Corporate Franchise Tax Refund Fund.</p>					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Corporate Division - General Revenue Fund	\$225	\$201	\$208	\$205	\$204
<p>Key Assumptions: In FY12, corporate franchise tax receipts are expected to be relatively flat with the fiscal year 2011 estimate.</p>					

Each year a very small decline is experienced in the corporate franchise tax and associated revenue. This trend is being driven by relatively fewer firms registering as a C corporate structure with the Secretary of State. Fiscal year 2012 franchise tax revenue and associated fees are forecasted to remain flat as compared to fiscal year 2011.

Investment Income

Investment Income (\$ millions)					
<p>Overview: Many state funds invested by the state treasurer earn income on their cash balances from investments, such as repurchase agreements, commercial paper, time deposits and certificates of deposit. This income is deposited into general funds and other specified funds based on each fund's pro-rated share of the total balance of all invested funds, or by specific statutory direction. The general funds receive the largest share of investment income.</p>					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Revenue	\$212	\$81	\$26	\$25	\$25
<p>Key Assumption: Investment income started declining in fiscal year 2009 as a result of reductions to short term interest rates taken by the Federal Reserve Bank to spur the national economy. Interest remains flat from FY11 to FY12.</p>					

Economic Outlook And Revenue Forecast

State of Illinois

Cook County IGT

Cook County Intergovernmental Transfer (IGT) (\$ millions)					
<p>Overview: The state receives a portion of federal Medicaid reimbursements paid to Cook County Hospital through an intergovernmental agreement. The agreement is designed to capture additional federal reimbursement by allowing the state to claim the maximum rates for Medicaid patients at the Hospital.</p>					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Revenue	\$302	\$253	\$244	\$244	\$244
<p>Key Assumption: The reimbursements that the state receives from the intergovernmental agreement will remain the same through FY12 as a result of federal rules governing the maximum payments that hospitals can receive.</p>					

Other Sources

Other Taxes and Fees (\$ millions)					
<p>Overview: Other general fund sources are composed of miscellaneous taxes and fees, proceeds from the sale of assets, and transfers from the Build Illinois escrow account to the state.</p>					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Vehicle Use Tax	\$32	\$27	\$30	\$30	\$32
Hotel Tax	\$49	\$41	\$29	\$43	\$46
Certificate of Title	\$31	\$28	\$27	\$28	\$29
Build Illinois Escrow	\$35	\$31	\$29	\$3	\$3
Chicago General Assistance	\$8	\$3	\$0	\$0	\$0
All Other	\$320	\$315	\$347	\$288	\$287
Total General Funds Revenue	\$475	\$445	\$462	\$392	\$397

Hotel Tax

Hotel Tax (\$ millions)					
<p>Overview: Businesses that rent, lease or let hotel rooms to persons for living quarters within Illinois pay tax at a rate of 6 percent of 94 percent of gross receipts. Hotel taxes collected are deposited into several funds, with 50 percent of hotel taxes allocated to the Build Illinois Fund. Tax receipts are also deposited into the International Tourism Fund, Local Tourism Fund, and Illinois Sports Facility Fund. The remaining receipts are deposited into the general fund. Chicago hotel taxes include the Metropolitan Pier and Exposition Authority, Municipal and Sports Facilities Authority Hotel Operators' Occupation Tax Funds.</p>					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Total Revenue	\$219	\$203	\$173	\$193	\$209
General Funds Revenue	\$45	\$49	\$29	\$43	\$46
<p>Key Assumptions: A 2 percentage point increase in the average daily occupancy rate during fiscal year 2011. The average daily room rate is forecast to increase 7 percent in fiscal year 2011. FY12 is based on the previous economic recovery average rate of 8.6 percent growth.</p>					

Hotel tax receipts are a function of the volume of hotel rooms in the state, the occupancy rate, and the price of rooms. All three of these components are sensitive to the economic cycle. In economic downturns, businesses limit travel and families take fewer vacations depressing demand for hotel rooms. This places downward pressure on occupancy and the market price of rooms. From the supply side, credit constraints and the squeezed income statements of hotel operators reduce the return on investment in building new hotel rooms.

According to the Chicago Convention and Tourism Bureau, there is growth in both room rates and occupancy compared to fiscal year 2010. The three month average daily room rate from October to December 2010 is \$181 compared with \$169 a year ago, with an average occupancy rate of 69 percent compared to 67 percent a year ago. It is anticipated that the supply side will take longer to recover. National data from the U.S. census show that private construction of lodging is down 50.9 percent in November 2010 compared with a year ago. This indicates it will be some time before the supply of hotels meaningfully increases in Illinois.

Economic Outlook And Revenue Forecast

State of Illinois

Based on the year-to-date data, fiscal year 2011 revenue is expected to increase 11.6 percent compared with fiscal year 2010, \$23 million higher than originally forecast. The growth rate is expected to slow in fiscal year 2012, yielding a hotel tax forecast of \$209 million.

Transfers In

Transfers In (\$ millions)					
Overview: Many non-general funds transfer varying amounts of money into the general funds pursuant to statutory provisions.					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Lottery	\$657	\$625	\$625	\$632	\$645
Gaming	\$564	\$430	\$431	\$338	\$501
Build Illinois	\$249	\$232	\$196	\$225	\$250
U of I Hospital Services	\$26	\$0	\$22	\$0	\$0
Public Aid and DHS Recovery Trust Funds	\$29	\$23	\$24	\$13	\$0
MEAOB	\$13	\$15	\$0	\$6	\$14
Warrant Escheat	\$12	\$8	\$10	\$8	\$9
All Others	\$350	\$260	\$575	\$1,085	\$391
Total General Funds Revenue	\$1,900	\$1,593	\$1,883	\$2,308	\$1,810
Key Assumptions: See below for discussion of Lottery and Gaming revenues. MEAOB stands for receipts from Metropolitan Exposition Auditorium and Office Building share of taxes. FY11 All Others includes \$505 million in cash flow borrowing pursuant to Public Act 96-0958.					

Lottery

Lottery (\$ millions)					
Overview: The state receives approximately 27.6 percent of total lottery sales. The remaining 72.4 percent goes toward prizes, vendor fees and the lottery budget. The share of lottery revenue transferred to the Common School Fund is to be no less than the FY09 level (\$625 million) indexed to inflation using CPI-W (Consumer Price Index for urban wage earners and clerical workers) unless lottery revenue available for transfer falls below that level. Any amount in excess of the FY09 level indexed to inflation is used to fund capital.					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Transfer to Common School Fund	\$657	\$625	\$625	\$632	\$645
Key Assumptions: The inflation rate is assumed to be 2 percent for fiscal year 2012 CSF transfers. Inflation rate for fiscal year 2011 CSF transfers is 1.1 percent.					

Fiscal year 2011 lottery funds available for transfer are expected to total \$670 million. Of the \$670 million, \$632 million will be transferred to the Common School Fund (CSF) and approximately \$5 million will fund specialty causes. The remaining balance will be available for transfer to the capital projects fund at the end of the fiscal year. The fiscal year 2011 CSF estimate differs by \$4 million from the fiscal year 2011 original budget book forecast because the actual inflation rate in the calculation was 0.5 percentage points lower than the estimated inflation rate.

In fiscal year 2012, the state lottery will be in its first year of operation under private management by Northstar. Additionally, the Common School Fund share of transfers will grow by the inflation rate. The calendar year 2010 12-month average rate of change in Consumer Price Index for urban wage earners and clerical workers (CPI-W) is used to inflate the base transfer amount of \$632 million to \$645 million in fiscal year 2012. Aside from an expected \$5 million in transfers to specialty causes, the amount of funds available for transfer above \$645 million will be used to fund debt issued to finance capital projects.

Economic Outlook And Revenue Forecast

State of Illinois

Gaming

Gaming (\$ millions)					
<p>Overview: The state imposes a graduated wagering tax on gross gaming revenues at the casinos. There is also a patron admission tax. That rate (for each casino) is based on the previous calendar year admission total. Occupational, owner and supplier license fees are also imposed.</p>					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Transfer to Education Assistance Fund and General Revenue Fund	\$564	\$430	\$431	\$338	\$501
<p>Key Assumptions: FY12 anticipates \$72.5 million in one-time revenue from the sale of the 10th riverboat casino license. The one time revenue will be deposited into the General Revenue Fund. The remainder will be transferred to the Education Assistance Fund. FY10 included a transfer \$47.5 million to the General Revenue Fund.</p>					

In fiscal year 2011, the budget book had forecast zero growth in statewide adjusted gross receipts (AGR) and admissions from gaming. In fiscal year 2010, there was a fire at the Empress Casino in Joliet forcing its closure for 97 days. A small gain was added to the zero growth because that casino would have more days of operation during fiscal year 2011 than in fiscal year 2010. To forecast the remainder of fiscal year 2011, it is assumed that the rate of decline experienced in each month of the previous fiscal year, is experienced again in fiscal year 2011.

In fiscal year 2012, AGR and admissions at Elgin - Grand Victoria and Aurora - Hollywood are expected to decrease because of the new casino in Des Plaines. Elgin and Aurora are expected to experience reductions both in AGR and admissions of 12.5 percent and of 10 percent, respectively. Both decreases are reflected in the fiscal year 2012 forecast. AGR and admission at the new Des Plaines casino are expected to be equal to the Elgin fiscal year 2012 forecast before these reductions. There is, however, considerable uncertainty surrounding any new casino. Fiscal year 2012 AGR at all other casinos are forecast at the fiscal year 2010 level.

Motor Fuel Tax

Motor Fuel Tax (\$ millions)					
<p>Overview: Illinois collects motor fuel taxes for the privilege of operating a motor vehicle on public highways or a recreational watercraft on waterways in Illinois in the amount of 19 cents per gallon of gasoline and 21.5 cents per gallon of diesel fuel. Tax receipts are deposited into the Motor Fuel Tax Fund. Tax receipts are then transferred to the State Construction Account, State Boating Act, and Grade Crossing Protection Funds. Illinois also collects underground storage taxes which include .003 cents per gallon for the Leaking Underground Storage Tax and .008 cents per gallon for the Environmental Impact Fee. These funds are deposited into the Underground Storage Tank Fund.</p>					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Revenue	\$1,335	\$1,467	\$1,339	\$1,348	\$1,340
<p>Key Assumptions: FY09 receipts include \$107M in revenue that would normally have been considered fiscal year 2008 revenue. The FY11 forecast assumes an increase of 0.7 percent in demand for motor fuels relative to FY10. The FY12 forecast assumes a 0.6 percent decline in demand for motor fuel in FY12 compared to FY11.</p>					

The fiscal year 2011 estimate of \$1,348 million is based on Global Insight's forecast of 0.7 percent increase in demand for motor fuels relative to fiscal year 2010. The fiscal year 2012 forecast is based on Global Insight's forecast of 0.6 percent decline in motor fuel demand relative to fiscal year 2011.

Economic Outlook And Revenue Forecast

State of Illinois

Federal

Federal Sources (\$ millions)					
Overview: The federal government provides grants and reimbursements to the Illinois general funds for public assistance, social services and other programs.					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Medical Assistance	\$3,809	\$4,000	\$3,324	\$3,763	\$4,339
Social Services Block Grant	\$112	\$68	\$80	\$82	\$82
TANF	\$434	\$460	\$439	\$410	\$29
Child Care Block Grant	\$84	\$62	\$76	\$72	\$2
All Other	\$377	\$411	\$395	\$392	\$392
Subtotal	\$4,815	\$5,001	\$4,314	\$4,719	\$4,844
Federal Recovery		\$1,566	\$1,607	\$787	\$0
Total General Funds Revenue	\$4,815	\$6,567	\$5,921	\$5,506	\$4,844

The fiscal year 2012 forecast assumes a redirection of Temporary Assistance for Needy Families (TANF) and Child Care Block Grant receipts to other funds. This facilitates a shift of child care appropriations to the Department of Human Services from general funds to federal funds.

Real Estate Transfer Tax

Real Estate Transfer Tax (\$ millions)					
Overview: The Real Estate Transfer Tax (RETT) is imposed on the privilege of transferring title to real estate or a beneficial interest in a land trust in Illinois. The recorder of deeds in each county collects the tax through the sale of revenue stamps that counties purchase from the Department of Revenue. The state rate is 50 cents for each \$500 of value. Counties may impose a tax of 25 cents per \$500 of value on real estate transactions. Home rule units of government may also impose an additional real estate transfer tax. Collections are deposited as follows: 50 percent into the Illinois Affordable Housing Trust Fund; 35 percent into the Open Space Lands Acquisition and Development Fund; and 15 percent into the National Areas Acquisition Fund					
	FY08	FY09	FY10	FY11 Estimate	FY12 Forecast
Revenue	\$77	\$46	\$40	\$35	\$35
Key Assumptions: Dollar volumes are expected to decrease by 12.5 percent in FY11. In FY12, the forecast is for receipts to be flat compared with FY11.					

The fiscal year 2011 RETT is expected to be \$5.0 million below fiscal year 2010. Through the first half of fiscal year 2011, RETT receipts were 13.2 percent below the budget estimate. This shortfall translates into an annualized shortfall of \$16.0 million. The fiscal year 2011 estimate has been revised from \$51.0 to \$35.0 million.

Over the past few years, there has been a trend for being overly optimistic when forecasting a recovery in the real estate sector. As a result of this observation and the continued concern about the commercial sector, there is some reluctance to expect the RETT to increase. Therefore, the forecast for fiscal year 2012 is for no growth in RETT receipts over fiscal year 2011.

State of Illinois

PRIMARY BUDGET OUTCOME

Providing a quality education and opportunities for growth.

MEETING THE OUTCOME

- **Connect students with postsecondary education and programs** through partnerships with many stakeholders, including the P-20 council, the pre-kindergarten through grade 20 council.
- **Offer every student access to a strong public education system** to ensure college and career readiness and ultimately the ability to compete in a global economy.
- **Improve outcomes and opportunities** for all students and enhance our current education system to ensure: every student will demonstrate academic achievement and be prepared for success after high school; every student will be supported by highly prepared and effective teachers and school leaders; and every school will offer a safe and healthy learning environment for all students.
- **Conduct comprehensive reviews** for individual schools identified as the lowest performing on state assessments to determine the overall structure, curriculum, instruction, finances, human capital and governance to target strategies and interventions. Provide direct intervention in school districts for on-site leadership and support.
- **Supply comprehensive technology programs and support** to school districts, educators and other Illinois State Board of Education (ISBE) partners to support the convergence of technology literacy, higher-order thinking, 21st century skills and the Illinois Learning Standards. This effort includes Technology for Success, which provides school districts with resources.
- **Creation of the School Administration Consolidation Commission**, which will produce an action plan for streamlining and consolidating administrative functions

across the state’s public school districts. The Commission will recommend a plan that maximizes resources among the state’s school districts and reallocates them from administrative uses to educational purposes that are directly related to student growth and learning.

- **Preserve thousands of teaching positions** through efficient management and distribution of \$415 million federal dollars through the U.S. Education Jobs Fund.

PROGRAM PROPOSALS

- **Conduct a study to identify ways to create electronic educational materials and aids** for students to directly access electronic textbooks in the classroom or at home via laptops, notebooks, SMART Boards, Kindles™ and other devices.
- **Develop a district accountability system** that assigns responsibility, reports results and rewards successes using a consistent, research-based set of standards. This accountability system focuses on student achievement, teaching and learning, leadership and governance, and the financial health of school districts.
- **Support the statutory Performance Evaluation Advisory Council (PEAC)** and school districts’ efforts to revamp teacher and principal performance evaluations. This is done by developing systems to assist in the transformational effort to establish performance standards and make evaluations more meaningful.
- **Assist educators in developing leadership skills** to drive transformational change. Develop a pipeline to recruit effective teachers and principals who share the racial and socioeconomic backgrounds of the students served. Provide funding and support to leverage new private sector funding.
- **Assess kindergarten readiness** to provide important information regarding the effectiveness of early childhood education.

State of Illinois

PRIMARY BUDGET OUTCOME

Providing a quality education and opportunities for growth.

MEETING THE OUTCOME

- **Promote an increase in college completion rates** to meet the demands of the 21st Century economy. As a member of the Complete College America (CCA) alliance of states, Illinois is dedicated to meeting the national goal for 60 percent of adults 25 to 64 to have a college degree or certificate by 2025.
- **Improve the transitions from preschool through graduate school (P-20).** Better transitions will help to eliminate achievement gaps by race, ethnicity, socioeconomic status, gender and disability. Closing the achievement gap is paramount to accomplishing the goals of the Illinois Public Agenda.
- **Develop performance-based funding** that will incentivize colleges and universities to increase certificate and degree completion while maintaining the quality and value of a college degree.
- **Endorse innovation** such as the Illinois Math and Science Academy (IMSA) recognizes and awards students by continuing to deliver an innovative and uniquely challenging, residential, high school education for students talented in mathematics and science, as well as innovative and effective outreach programs for students and teachers throughout the state.
- **Invest in adult education.** Over 19,000 people receiving public assistance are enrolled in an adult education course. Completion of an adult education program increases earnings to the individual as well as the state, and may eliminate the need for public assistance.

- **Maximize federal funding opportunities** by bidding on federal requests for proposals to perform outreach, oversight, default aversion, loan servicing and/or related functions with payment from the US. Department of Education.
- **Provide over 9,100 training courses and economic services** to approximately 165,000 business and individuals through the community college system. This contributes to the formation of over 330 new companies, expansion of more than 190 companies, and the retention of 550 companies in a year.
- **Support the Illinois Student Assistance Commission,** which provides information about planning and paying for college through training programs for counselors and college access professionals, outreach to middle and high school students and families, the WhatsNextIllinois.org online college and career planning tool, and the toll-free College Zone hotline.

PROGRAM PROPOSALS

- **Provide additional investment for the Monetary Award Program (MAP),** the state's primary student financial assistance program, which focus is on the neediest students in Illinois.
- **Increase equalization grants** that support the state's most disadvantaged colleges in order to increase degrees and certificates attained by students.
- **Maximize federal funding opportunities** through the U.S. Department of Education to perform outreach, oversight, default aversion, loan servicing and/or related functions. Expand a pilot program that has improved the rate at which Chicago Public School students complete the Free Application for Federal Student Aid (FAFSA) to school districts throughout the state.

State of Illinois

PRIMARY BUDGET OUTCOME

Growing the jobs of today while working to create the global industries of tomorrow.

northeastern Illinois. Work with homeowners and municipalities to minimize the extent of species migration in Illinois and protect their trees.

MEETING THE OUTCOME

- **Increase Illinois agricultural exports.** Promote the sale of Illinois agricultural products in both international and domestic markets.
- **Provide accurate and comprehensive inspections** of meat and egg processing facilities to safeguard consumers.
- **Test all devices** used to measure and weigh consumer and agricultural products to ensure accuracy.
- **Protect agribusiness through early detection** of grain shortages and grain quality problems through aggressive compliance checks at warehouses and grain storage facilities.
- **Increase environmental program footprint.** Issue commercial pesticide applicator licenses and ensure safety and environmental regulations are adhered to by applicators. Regulate agrichemical and lawn care facilities for adherence to pesticide regulations.
- **Manage invasive species.** Place traps throughout the state to monitor pest activity and ensure no Emerald Ash Borer beetles are found outside the quarantine zone of

PROGRAM PROPOSALS

- **Implement the food safety laboratory modernization initiative.** Partner with the University of Illinois to modernize agricultural laboratories with the goal of expanding services, improving coordination of core specialties and better positioning Illinois to identify and mitigate animal diseases and homeland security incidences.
- **Implement Driftwatch,** a web-based tool that aids in the protection of pesticide-sensitive crops by improving communication between growers and commercial pesticide applicators.
- **Implement grain inventory accountability program** to improve the efficiency of warehouse examiners by allowing greater focus on financial reporting. Allow participating grain elevators to conduct monthly grain measurements and report issues through a web-based system.
- **Coordinate the collaboration between the Australia Food Show and the Department of Commerce and Economic Opportunity** to recruit Illinois grocery and agricultural producers to the Australia-based trade show.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Livestock inspected	N/A	N/A	926,065	850,005	830,050
Number of agrichemical facilities and lawncare facilities permits issued	N/A	N/A	367	350	350
Number of dozen eggs removed from sale	N/A	N/A	160,421	75,000	65,000
Number of individuals licensed to apply pesticides in the state	N/A	N/A	36,474	36,500	36,500
Number of livestock facility construction projects received and reviewed by the department.	N/A	N/A	45	60	70
Number of nursery acres inspected	N/A	N/A	34,679	35,000	35,000
Percentage of agrichemical facilities in compliance with the State of Illinois' pesticide & fertilizer regulations	42.0%	55.6%	59.8%	55.0%	55.0%
Percentage of facilities in compliance with the State of Illinois' Grain Code	95.4%	97.3%	96.4%	95.0%	95.0%
Percentage of meat and poultry facilities in compliance with Unites States Department of Agriculture inspection regulations	99.1%	99.1%	99.0%	99.0%	99.0%
Percentage of weights and measures devices inspected	73.7%	88.0%	100.0%	100.0%	100.0%
Pounds of meat inspected (millions)	N/A	N/A	113.0	110.5	110.7
Ratio of sales to marketing expense for agricultural promotion	165:1 ^a	68:1	158:1	50:1	50:1

^a Sales to marketing expense is a variable metric that is tied to global market conditions.

State of Illinois

PRIMARY BUDGET OUTCOME

Growing the jobs of today while working to create the global industries of tomorrow.

provide training programs for miners and enforce the Illinois Mine Safety Act through continued partnership with the Department of Natural Resources (DNR).

MEETING THE OUTCOME

- **Promote Illinois as the premier state to locate a business.** Works with the business community and local economic development agencies to create an environment that positions Illinois as a competitive state for recruitment and retention of businesses.
- **Promote energy efficiency** in households and as a state policy. Lay the groundwork for leadership in renewable energy, utilization of biofuels and recycling. Provide weatherization services to local communities to reduce overall energy usage.
- **Develop a 21st century infrastructure.** Develop a Smart Grid electric network and a statewide broadband network.
- **Support FutureGen 2.0** as a regional hub for the storage of carbon emissions.
- **Extend tax credits** to encourage investment in Illinois
- **Protect the safety of Illinois coal miners.** Upgrade rescue and other safety equipment,

PROGRAM PROPOSALS

- **Double Illinois exports by 2015.** Restructure the international office network and assist small business entering international markets.
- **Expand Job Training program** to place unemployed workers in high-growth industries.
- **Improve Illinois' reputation as a leader in building a green economy.** Provide additional training to support renewable energy industries.
- **Accredit Small Business Development Centers** to provide technology assistance to entrepreneurs and small businesses.
- **Transfer the State's Occupational Safety and Health Administration** consultation program to Illinois Department of Labor to improve operational efficiency.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Workers trained ^a	41,447	42,006	59,635	92,500	160,000
Jobs created and retained	37,272	41,695	32,247	38,500	40,000
New businesses started	326	425	378	340	400
Adult employment retention rate (%)	83.8	82.7	79.7	83.0	84.0
Dislocated worker employment retention rate (%)	89.0	89.5	87.1	90.0	91.0
Weatherization services provided (LIHEAP)	N/A	755,476	594,266	475,000	380,000
Private investment leveraged (\$Billions)	4.3	4.4	2.6	4.8	3.5
Illinois export sales (\$Billions) ^b	51.8	47.4	45.1	51.0	60.0

^a Job training programs include the Employer Training Investment Program (ETIP), the Job Training and Economic Development Program (JTED) and the Employment Opportunities Grant Program (EOGP)

PRIMARY BUDGET OUTCOME

Growing the jobs of today while working to create the global industries of tomorrow.

performing electricity circuit inspections, through reviews of tree trimming operations near power lines, inspections of electric meter testing facilities and reviews of electricity accidents.

MEETING THE OUTCOME

- Ensure that the citizens of Illinois are provided public utility services that are adequate, efficient, reliable, environmentally safe and least-cost.
- Ensure that the citizens of Illinois receive electricity in a safe and reliable manner by
 - Implement various rules to encourage the development and use of alternative retail electric suppliers and alternative gas suppliers. Competition in these areas helps to drive down the costs of these products for consumers and improves the economic well-being of citizens.

PRIMARY BUDGET OUTCOME

Growing the jobs of today while working to create the global industries of tomorrow.

MEETING THE OUTCOME

- **Procure renewable energy** to meet statewide Renewable Portfolio Standard. The Illinois Power Agency (IPA) will procure a mix of renewable energy credits under short term agreements, as well as broker longer-term power purchase agreements with renewable energy providers for utilities and alternative suppliers.
- **Procure energy from clean coal energy resources.**
- **Procure low-cost, efficient, clean power** for residential and small commercial ratepayers.

PROGRAM PROPOSALS

- **Draft a procurement plan designed to limit price volatility** and minimize prices for standard power consumers, seek approval of the plan from the Illinois Commerce

Commission and execute the approved plan in the spring of 2012.

- **Procure energy efficiency when it is at a lower price** to further drive down energy costs.
- **Increase personnel to respond to growing agency responsibilities** through outside entities or grants.

PRIMARY BUDGET OUTCOME

Enhancing the economic well-being of citizens

MEETING THE OBJECTIVE

- **Partner with counties, cities, economic development organizations** and regional development organizations to finance projects that retain and create jobs.
- **Issue federally tax-exempt conduit debt** for health care, higher education, cultural institutions, not-for-profits and industry.
- **Promote investment** in agriculture.

- **Maximize limited purpose federal funding**, such as Midwestern Disaster Area Bonds and Qualified Energy Conservation Bonds, to retrain and create jobs.

PROGRAM PROPOSALS

- **Implement a broad-based energy efficiency program** for not-for-profits, corporate and governmental borrowers.
- **Partner with Department of Commerce and Economic Opportunity** and the Illinois Power Authority to finance renewable energy and clean coal projects.

State of Illinois

PRIMARY BUDGET OUTCOME

Enhancing the economic well-being of citizens.

MEETING THE OBJECTIVE

- **Operate and maintain** 286 miles of interstate tollways in 12 counties in northern Illinois, including the Reagan Memorial Tollway (I-88), the Veterans' Memorial Tollway (I-355), the Jane Addams Memorial Tollway (I-90) and the Tri-State Tollway (I-94, I-294, I-80/I-294).
- **Improve roads and reduce traffic congestion.** Ensure the Congestion Relief Program is completed on time and under budget. To date, 82 percent of the CRP has been completed.

PROGRAM PROPOSALS

- **Employ enhanced information technology systems.** Replace the Tollway web/e-commerce site, use independent verification

and validation services for an enterprise resource planning (ERP) system, modernize system-wide computer infrastructure, implement a disaster recovery solution, preserve and replace system-wide communications towers, integrate Next Generation Network (NGN) facilities, enhance Tollway intranet, and ensure Personally Identifiable Information security compliance.

- **Utilize Intelligent Transportation Systems (ITS).** Migrate ITS equipment and services to NGN, expand and maintain the Tollway's fiber optics operations, and install wireless closed circuit television cameras and system-wide ramp count/queue detectors to monitor and detect traffic incidents and improve accident response time.
- **Upgrade business systems.** Incorporate a disaster recovery/business continuity system, install new software enhancements and additional cameras for the violation enforcement system, replace/upgrade uninterruptible power supply units, and install transponders.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected

State of Illinois

PRIMARY BUDGET OUTCOME

Growing the jobs of today while working to create the global industries of tomorrow.

MEETING THE OUTCOME

- **Administer and enforce** the Equal Pay Act, Minimum Wage Law, Wage Payment and Collection Act, Prevailing Wage Act, Employee Classification Act, Child Labor Law, Day and Temporary Labor Services Act, and other vital labor laws to protect the rights, wages, and welfare of Illinois workers.
- **Conduct general inspections of public sector workplaces** to ensure compliance with the Safety Inspection and Education Act, Health and Safety Act, and Occupational Safety and Health Administration (OSHA) standards to promote and protect the safety and health of state and local government workers.

PROGRAM PROPOSALS

- **Establish a public safety consultation program**, separate from the department's current enforcement activities, to assist

public sector employers in complying with workplace safety and health standards and to comply with the Illinois OSHA State Plan Grant Agreement. The current private sector safety consultation program will be transferred from the Department of Commerce and Economic Opportunity.

- **Transfer the enforcement of the Carnival and Amusement Rides Safety Act** to the Department of Agriculture to improve service efficiency and avoid duplication in state government services.
- **Enforce the new provisions of the Wage Payment and Collection Act** to ensure workers are paid wages owed in a more timely manner. Wage Theft Enforcement fines will provide funding for more investigators and administrative law judges to improve outcomes and effectiveness in recovering wages on behalf of workers.
- **Draft legislation** to repeal the Farm Labor Contractor Certification Act, Industrial Homework Act, Street Trades Law and the Labor Arbitration Services Act to better utilize limited state resources.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Average days to investigate safety complaints	4.0	7.3	5.2	5.0	4.0
Average days to complete a minimum wage and overtime claim case	345	265	257	250	250
Average days to complete a prevailing wage claim case	145	181	197	200	200
Average days to complete an Equal Pay claim case ^a	112	149	188	190	190
Average days to investigate health complaints ^b	6.0	7.2	9.2	10.0	8.0
Minimum wage and overtime collected (\$)	997,334	1,765,957	824,116	1,100,000	1,100,000
Number of safety and health inspections completed annually	1,790	1,544	1,435	2,100	2,200
Prevailing Wage payments collected (\$)	1,014,667	2,742,569	1,630,187	2,000,000	2,000,000
Wage payments collected (\$)	2,296,842	1,438,804	1,945,326	2,000,000	2,200,000

^a Increases in time to complete cases due to increased caseload and only one investigator completing Equal Pay Act cases

^b Future decreases to be achieved through increased resources obtained through OSHA State Plan Grant

State of Illinois

PRIMARY BUDGET OUTCOME

Growing the jobs of today while working to create the global industries of tomorrow.

MEETING THE OUTCOME

- **Preserve and modernize** the Illinois highway system to make it safe and efficient for motorists and commercial vehicles.
- **Improve highway infrastructure** to help communities and regions provide for economic prosperity and jobs.
- **Improve highway safety** for motorists and passengers. Perform 24-hour roadway maintenance, monitor and report road conditions, clear debris and other driving hazards, and provide temporary repairs on pavements as needed.
- **Maintain and improve the quality and capacity of public airport landing facilities.** Ensure a minimum condition rating score of 70 (satisfactory) is maintained on all runways, taxiways and aprons at public airports in Illinois.
- **Improve transit customer service, safety and convenience** throughout Illinois. Provide grant funds and technical support to local agencies to replace rolling stock, and to improve track, structures and transit stations.
- **Improve the speed, reliability and convenience** of Illinois passenger rail service. Ensure on-time rail passenger

service by Amtrak for at least 75 percent of all departures.

PROGRAM PROPOSALS

- **Improve the speed** of Illinois passenger rail service through track planning and construction improvements for the high-speed rail passenger service lines to Chicago by the end of the fiscal year.
- **Reduce rail freight congestion.** Add track and rail yard capacity and improve communications.
- **Implement a diversity marketing program.** Increase the utilization of women-owned and minority-owned vendors and increase the diversity of Department of Transportation staff throughout the state.
- **Develop an information technology Center for Excellence.** Provide technology services to other state agencies in need of technical expertise and support to make government more effective and efficient.
- **Improve traffic management and information access** with additional fiber optics connections to enhance GettingAroundIllinois.com. Extend and close gaps in fiber optics information networks to speed the flow of information, connect message centers throughout the state and provide faster and more accurate information in real time to motorists, emergency crews and other state agencies.

PRIMARY BUDGET OUTCOME

Protecting businesses and residents from crime, catastrophe and wrongdoing.

MEETING THE OUTCOME

- **Provide a safe and secure system of incarceration for the offender population.** The Illinois Department of Corrections (DOC) will continue its efforts to improve its inmate to staff ratios within its institutions. Additionally, by improving staffing levels in its non-security ranks and implementing enhanced technology to track and evaluate offender needs, the department will provide better management over the inmate population.
- **Provide food, clothing and medical needs for the offender population.** The department projects to serve over 43 million meals throughout fiscal year 2012. In addition, the department will clothe and ensure appropriate medical and mental health treatment for approximately 49,000 offenders.
- **Increase recidivism reducing treatment to a larger portion of the offender population** through application of evidenced-based programming and implementation of the Crime Reduction Act, DOC's Boot Camp Initiative and the Adult Redeploy program. By redirecting programmatic resources to provide more treatment interventions and placing more emphasis on annual classification and offender transition, the department will increase the likelihood that more offenders will be ready to successfully transition back into society upon release.

PROGRAM PROPOSALS

- **Improve efficiency of operations through improved staff to inmate ratios.** The department will hire consecutive correctional officer trainee cadet classes throughout the year to address staff attrition and maintain efforts to realize substantial overtime savings over prior years.
- **Utilize better technology/tools to realize cost efficiencies in daily operations.** Over the next 18 to 24 month period, the department will merge 39 separate offender management applications into one web-based operating environment, establishing uniform methods of data collection and reporting of performance based outcomes.

In addition, DOC will utilize technology to make improvements in the evaluation and treatment of the offender population from point of incarceration through discharge from parole. Also, by implementing an electronic medical records system and other telemedicine opportunities, the department will more efficiently deliver medical and mental health services.

- **Continue to provide educational and vocational programming** to the inmate population. The department will continue to work with area colleges to provide a necessary range of programming. This will reflect the administrations larger workforce development agenda and enable DOC to effectively teach the offender population valuable skills that can be utilized upon their release.

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting businesses and residents from crime, catastrophe and wrongdoing.

MEETING THE OUTCOME

- **Implement expanded regulation and monitoring of Confined Animal Feeding Operations (CAFOs)** as required by federal regulations. Reduce nutrient loading from agricultural and urban runoff into waterways.
- **Implement the new federal Greenhouse Gas “tailoring rule”** for new or expanded industrial facilities and power plants, and other more stringent federal air quality regulations being issued by U.S. Environmental Protection Agency (EPA).
- **Continue to implement the new clean construction and demolition debris law and electronics recycling act.** Continue to work with local law enforcement agencies, officials and other state agencies on the Open Dump Initiative and increase enforcement against illegal dumpers.
- **Enhance digitizing of files and information systems** to expand electronic reporting, record-keeping and web-based databases to increase efficiency of inspection, compliance and enforcement staff, as well as better respond to the large volume of Freedom of Information Act requests received by the agency.

PROGRAM PROPOSALS

- **Utilize enhanced permit fee revenues** to provide additional staff to carry out expanded CAFO program; implement federal Greenhouse Gas regulations and other major enhanced federal air quality regulations; and restore household hazardous waste and used tire collections, orphan dump cleanups, and grants to delegated counties for landfill inspections.
- **Phase out use of perchloroethylene by drycleaners.** As a result of negotiations and agreements reached in a task force that included representatives of Illinois drycleaners and dry cleaning equipment manufacturers, legislation will be introduced to phase out the use of this solvent that has caused significant contamination of groundwater.
- **Seek enhanced enforcement authority** to allow the agency to pursue violations using its own administrative authority, which will expedite and streamline the enforcement process. The agency will also seek enhanced criminal provisions for illegal used tire dumping.
- **Continue to improve efficiency** by streamlining procedures and conserving utilities, resources and commodities.

PRIMARY BUDGET OUTCOME

Protecting businesses and residents from crime, catastrophe and wrongdoing.

MEETING THE OUTCOME

- **Maintain the safety and soundness of Illinois financial services businesses** by performing regular, impartial examinations and audits of entities and professionals to ensure compliance with statutory solvency and other essential accreditation requirements.
- **Review and investigate consumer complaints** and allegations of professional misconduct and illegal activity. Adjudicate administrative actions arising from such complaints and allegations, taking appropriate enforcement action to discipline wrongdoers. Working with other state agencies, federal agencies and law enforcement to coordinate action against major offenders.
- **Ensure efficient and effective processes for license application and registration review, assessment, and determination.** Protect Illinois consumers through the consistent, rigorous application of objective evaluation criteria.
- **Inform and educate Illinois consumers** about the industries, professions, entities, and individuals under the Department of Financial and Professional Regulation's (DFPR) jurisdiction.

PROGRAM PROPOSALS

- **Cut bureaucracy and costs** borne by regulated industries and professionals by eliminating redundant functions and increasing efficiencies through a consolidated operating structure.
- **Increase automation of examination and audit processes** for regulated industries in order to ensure timely completion, fee generation and penalty correspondence.
- **Outsource certain non-core administrative functions**, such as document management and destruction and data entry.
- **Create a new call center** giving Illinois consumers a single source of information about all DFPR regulated businesses and professions.
- **Leverage technology to enhance service capacity and reduce non-frontline headcount.** In recent years, IDFPD has updated its remittance processing system and the high-speed printing system. These improvements will allow each division to utilize automated payment processing and printing methods.
- **Enable electronic license renewal**, via the Internet, touch tone telephones, and Electronic Funds Transfers, by standardizing systems and expanding the use of technology as a part of the License Streamlining Initiative.
- **Create a standardized DFPR platform** for licensing and enforcement activity.

State of Illinois

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Percentage of consumer complaints resolved within established timeframes	80%	80%	80%	78%	80%
Average number of minutes callers wait to access information through automated phone system ^a	12.5	13	14	13	13
Average amount of time to process professional license applications (weeks)	4.0	1.1 ^b	1.0	1.5	1.5
Percentage of consumer complaints received electronically	35%	47.5% ^c	45%	65%	65%
Percentage of current licensed and regulated entities subject to enforcement actions	1.5%	1.1%	1.1%	1.5%	2.0%
Percentage of license applications (new and renewals) processed within established time frames	95%	92% ^c	95%	93%	93%
Percentage of regulatory examinations and analyses accepted by federal regulatory counterparts	100%	100%	100%	100%	100%
Percentage of regulatory examinations and analyses completed within established time frames	98%	98%	98%	99%	99%

^a Prior fiscal year data has been revised.

^b The License Streamlining Initiative has led to this decrease in turnaround time for license processing.

^c Promotion and enhancement of agency website has prompted increased use by stakeholders.

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting businesses and residents from crime, catastrophe and wrongdoing.

Evaluate programs using evidence-based practices (EBP) to determine how well programs are implemented and if they have an impact on criminal justice and public safety in Illinois.

MEETING THE OUTCOME

- **Administer grants.** Administer 19 separate federal grant types totaling \$215 million between 2010 and 2013, with minimal investment of state resources. Grants typically support crime prevention and intervention, law enforcement, prosecution, courts, probation, corrections and victims' services. Administer \$6.5 million in Motor Vehicle Theft Prevention Fund grants to reduce auto theft in Illinois.
- **Research and analyze criminal justice policies and practices.** Assemble data on crime trends and criminal history record information, and conduct studies for policy makers, practitioners and researchers.

PROGRAM PROPOSALS

- **Provide community information.** Work with criminal justice and human service communities to develop a long-range strategic plan at both the state and local levels. Provide Illinoisans criminal justice publications, reports and data through the Illinois Criminal Justice Information Authority website.
- **Promote and implement evidence base practices** and became a national model for other states to adopt similar policies and practices.

State of Illinois

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Auto theft rate per 100,000 population	297.0	267.0	275.0 ^a	260.0 ^b	250.0 ^c
Grant funds administered (\$ thousands)	134,220.0	172,173.0	137,105.0	190,000.0	195,000.0
Grant funds awarded to the Authority for Research (\$ thousands)	1,770.6	1,666.7	1,222.5	1,250.0	1,250.0
Percent of eligible victim service entities using Infonet	100.0%	100.0%	100.0%	98.0%	98.0%
Percent of federal and state grant funds used to administer programs	7.1%	7.2%	7.3%	7.5%	7.5%

PRIMARY BUDGET OUTCOME

Protecting the lives and property of citizens.

Orders resolving unfair labor practice allegations and determine the representation status of educational employees.

MEETING THE OBJECTIVE

- **Investigate unfair labor practice charges** filed by educational employers, employees and employee representatives by obtaining and reviewing testimony and documentary evidence submitted by charging and charged parties.
- **Conduct administrative hearings** to resolve disputes concerning the representation status of educational employees and alleged unfair labor practices. Issue administrative Law Judge Recommended Decision and

- **Assist in regulating and mediating labor disputes**, provide staff mediators and conduct mediation sessions to resolve labor disputes during all stages of a charge or petition processing.

PROGRAM PROPOSALS

- **Improve efficiency** through cross training and by sharing workloads to minimize decision making delays.

PRIMARY BUDGET OUTCOME

Protecting the lives and property of citizens.

MEETING THE OBJECTIVE

- **Distribute aid to those in need.** The Illinois Emergency Management Agency (IEMA) will administer any open Public Assistance and Hazard Mitigation grants and respond to new disasters that may occur in fiscal year 2012.
- **Protect the public** from the potentially harmful effects of ionizing radiation. IEMA will continue modernizing the Remote Monitoring System, a computer-based system that monitors nuclear power plant operations.
- **Monitor nuclear site decommissioning.** In fiscal year 2012 and beyond, IEMA will be monitoring the accelerated decommissioning of the Zion nuclear power plant. Additional effluent and environmental monitoring, surveillance, radioactive waste transportation inspections and material release surveys will take place during demolition.
- **Regulate waste and materials.** IEMA will continue to inspect and escort all transuranic waste shipments through the

state. IEMA will also regulate radioactive material licensees and radiation-producing devices such as x-ray machines, particle accelerators and high-energy lasers.

PROGRAM PROPOSALS

- **Improve coordination and response.** IEMA will continue implementing WebEOC, an information management system developed for public safety and emergency management officials. IEMA will use the system for operations, disaster response and information exchange with Illinois' nuclear power facilities. IEMA will more completely integrate geographic information system technologies and collaborate with the Illinois Terrorism Task Force to continue developing the state's homeland security strategy and administration of federal funding.
- **Seek nuclear reactor fee increase** of two percent to the required fees paid by operators of the state's nuclear reactors to cover increasing costs. These fees have not increased since 2002 and are used to pay for Illinois' nuclear safety program.
- **Offer first responder training** and use of online and remote training tools to reduce costs for state and local governments.

PRIMARY BUDGET OUTCOME

Protecting businesses and residents from crime, catastrophe and wrongdoing.

MEETING THE OUTCOME

- **Investigate unfair labor cases.** Investigate, conduct hearings into, and remedy unfair labor practices committed by unions and public employers so as to prevent labor disputes from escalating into costly litigation and becoming injurious to the economic well-being of Illinois citizens.
- **Administer the representation mechanism** set out in the Illinois Public Labor Relations Act, and continue to provide arbitration and

mediation services that aid parties in resolving labor disputes.

- **Conduct emergency investigations of public employee strikes** and strike threats to determine whether judicial proceedings are warranted to restrain strike activity imperiling the health and safety of the public.

PROGRAM PROPOSALS

- **Reduce the time it takes to process and resolve labor disputes** by seeking out more efficient methods of operating so as to adjudicate more labor disputes with its existing personnel and equipment.

PRIMARY BUDGET OUTCOME

Protecting businesses and residents from crime, catastrophe and wrongdoing.

MEETING THE OUTCOME

- **Develop and fund violence prevention programming** through the Safe from the Start Program, the Bullying Prevention Program and a coordinated community response to domestic violence.
- **Support youth engagement and leadership** in violence prevention. Expand the Choose Respect Program that trains youth leaders to promote healthy relationships among youth and adults. Increase youth organizing and leadership in violence prevention efforts at the community, regional and state levels through the Safety Net Works Program.
- **Integrate programs from the Division of Community Health and Prevention** from the Department of Human Services,

including Family Violence Prevention and Sexual Assault Prevention. Services will include a 24-hour hotline, assistance with follow-up medical care and criminal justice procedures, counseling and advocacy, and 24-hour response to victims at hospital emergency rooms and police stations.

PROGRAM PROPOSALS

- **Collaborate and streamline the grant making process.** Continue to work with other state agencies, local governments and neighborhood associations in order to streamline the grant disbursement process to ensure grants are disbursed in a fair and timely manner.
- **Exert tight fiscal control.** Continue to closely monitor all fiscal transactions and grant disbursements to ensure grant dollars are spent according to state law and provide maximum benefit to the residents of Illinois.

PRIMARY BUDGET OUTCOME

Protecting businesses and residents from crime, catastrophe and wrongdoing.

MEETING THE OUTCOME

- **Process claims.** The Workers' Compensation Commission (WCC) will process 45,000 to 55,000 thousand new claims and continue to reduce the backlog of 70,000 pending cases. The commission will reduce the time it takes to resolve cases providing for the economic well-being of Illinois workers and businesses. This will reduce delays in the hearing process that could lead to increased legal costs for employers and possible loss of time and wages for injured workers.
- **Providing quality information to injured workers.** The commission sends approximately 80,000 workers' compensation handbooks per year to vulnerable injured employees. These handbooks detail the provisions of the law and the IWCC judicial hearing process. The handbook provides for certainty and diminishes confusion over the workers' compensation process.
- **Insure employer integrity.** The commission will continue to bring business into compliance with workers' compensation insurance laws. In fiscal year 2010, WCC collected \$1 million in fines from 107 uninsured employers; since 2006, over \$5 million has been collected from 360 uninsured employers. Without the commission compliance efforts, uninsured employers enjoy an unfair competitive

advantage over law-abiding companies, while leaving their employees vulnerable if accidents should occur.

- **Use fines to pay benefits** to injured workers whose uninsured employers failed to pay them. In fiscal year 2010, the commission paid \$1.7 million in benefits to 35 injured workers; since 2006, \$4.5 million has been paid to 97 injured workers.
- **Medical fee schedule.** The commission developed a medical fee schedule that took effect on February 1, 2006, which has significantly reduced medical costs. Whereas the average medical cost per case grew at double-digit rates for years, in 2006 the rate of growth was only 6.5 percent. The law that allows fees to increase only by the Consumer Price Index each year has alone reduced the growth in medical costs by 5 percent.

PROGRAM PROPOSALS

- **Decrease handbook production costs** by developing methods to send the books electronically. This includes emailing documents or providing directions to download the material when an email is available. The commission will incorporate electronic transmissions into all technology developments and will look to continually decrease this cost.
- **Continue to cut costs** where possible to help alleviate state budget deficiencies.

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting businesses and residents from crime, catastrophe and wrongdoing.

in exam cycle from seven to three years, further protecting the pensions of all downstate police and fire pension funds through compliance audits, annual statement filings and advisory services.

MEETING THE OUTCOME

- **Perform consumer protection and functional regulatory duties.** Provide information aiding consumers with health, home, auto and business-related insurance issues. Provide insurance policyholder protection through the financial examination of insurance entities ensuring solvency. Allow consumers the benefits entitled them through payment of their insurance premiums. Provide Illinois seniors with health care and Medicare assistance (Senior Health Insurance Program).
- **Protect the property of Illinois citizens** through the expansion of the Public Pension Section. Comply with recent statutory changes (P.A. 95-0950) to the Public Pension Regulation Act in order meet the reduction

- **Protect the well-being of Illinois citizens** through improvement of the performance, transparency and accountability of health insurers and health insurance products in Illinois, utilizing resources and opportunities available as a result of the Patient Protection and Affordable Care Act.

PROGRAM PROPOSALS

- **Improve efficiency** by cross training, sharing workloads and getting results out quickly. Conserve utilities, resources and commodities to help alleviate state budget deficiencies.

PERFORMANCE MEASURES

PRIMARY BUDGET OUTCOME

Protecting the lives and property of citizens.

MEETING THE OBJECTIVE

- **Establish, evaluate and improve** selection and training standards for law enforcement officers.
- **Provide law enforcement training and courses** to law enforcement agencies statewide. Continue to reimburse expenses incurred at a rate of 50 percent.
- **Continue to streamline agency operations** to reduce expenses.

PROGRAM PROPOSALS

- **Improve upon current training curriculums.** Continue to adapt training curriculums to meet statutory requirements and recent developments.
- **Develop death investigation training** for coroners, deputy coroners and other public safety death scene investigators in homicide investigations.
- **Provide law enforcement intern programs.** Provide qualified individuals with the opportunity to learn law enforcement prior to being hired.

PRIMARY BUDGET OUTCOME

Protecting the lives and property of citizens.

- **Operate the Lincoln’s Challenge Academy (LCA).** Improve the life-coping skills and employability of 16- to 19 year-old high school dropouts who attend LCA.

MEETING THE OBJECTIVE

Oversee and manage the Illinois National Guard. Maintain a state joint headquarters facility, three training facilities, 52 readiness centers, 43 vehicle storage and maintenance buildings, two outdoor weapon ranges and three flying bases throughout the state to meet the federal requirements for facilities to support 13,200 soldiers and airmen.

Administer the Illinois Military Family Relief Program, which provides financial support to eligible Illinois residents and National Guard members who have been called to active duty as a result of the September 11, 2001 terrorist attacks.

PROGRAM PROPOSALS

- **Maintain facilities.** Ensure appropriate workforce, equipment, commodities and contractual services are provided to meet federal compliance at all Illinois National Guard facilities.
- **Maximize federal funding** through cooperative agreements with the National Guard Bureau.
- **Manage fiscal resources** through a tightly monitored control system.

PRIMARY BUDGET OUTCOME

Protecting businesses and residents from crime, catastrophe and wrongdoing.

board will send the victim a recent photograph of the inmate about to be released and maintain a toll-free hotline for victims to inquire about parolees.

MEETING THE OUTCOME

- **Assist inmates return to the community** who have been incarcerated in the Department of Corrections (DOC). Set the conditions of parole for approximately 27,000 inmates each year. Conditions include: no victim contact, electronic monitoring, sex offender treatment, anger management, drug counseling and schooling, as well as other conditions designed to protect the public from convicted felons.
- **Conduct timely hearings and make just determinations.** Hear cases each year regarding parole violations and decide on whether to return inmates and juveniles to Department of Corrections, Department of Juvenile Justice or back to the community with additional conditions of parole.
- **Notify registered victims and witnesses and protect confidentiality.** Notify victims and witnesses of any change in status of an inmate. If requested by the victim, the

- **Provide required statutory hearings for inmates sentenced prior to 1978.** Determine if inmates have met statutory guidelines to be released from DOC or whether inmates should remain incarcerated.
- **Provide timely, confidential and impartial recommendations** to the governor for every person seeking clemency.

PROGRAM PROPOSALS

- **Digitize parolee files.** Purchase new equipment to scan and organize parolee files. This will streamline the review of inmate files and make it easier for board members to analyze and impose appropriate sanctions on individual parolees.
- **Assess and manage good conduct credits.** Take away good time credit when disciplinary tickets are issued. Restore good time credit for inmates when requested by DOC.

PERFORMANCE MEASURES

PRIMARY BUDGET OUTCOME

Protecting businesses and residents from crime, catastrophe and wrongdoing.

MEETING THE OUTCOME

- **Adjudicate real property tax assessment disputes.** The Property Tax Appeal Board (PTAB) resolves assessment disputes between Illinois property taxpayers, county boards of review and local taxing districts.
- **Facilitate hearing appeals.** The board provides an informal public forum for the speedy and impartial hearing of appeals.

PROGRAM PROPOSALS

- **Secure additional resources.** PTAB will improve the timeliness of processing and adjudicating appeals of property assessments for the citizens of Illinois by hiring additional staff. Currently, it takes an average of four years to receive an adjudication once an appeal is submitted.
- **Minimize the backlog of property tax appeals.** The board will continue to utilize all available resources, including additional staff, to reduce the backlog of appeals.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Assessments appealed	22,694	24,759	31,554	33,000	35,000
Assessments closed	25,302	21,726	20,675	22,000 ^a	26,000

^a Dependent upon the addition of new staff.

PRIMARY BUDGET OUTCOME

Protecting businesses and residents from crime, catastrophe and wrongdoing.

conveyance contractors, inspectors, mechanics, fire sprinkler contractors, fire equipment distributors, pyrotechnic distributors and underground storage tank contractors.

MEETING THE OUTCOME

- **Conduct investigations** of fires.
 - **Inspect state licensed facilities** for adherence to code. SFM will enforce fire codes for boilers and pressure vessels, above ground and underground storage tanks, elevators and other conveyances.
 - **Fund firefighter training and other professional certification.** The State Fire Marshal (SFM) will continue to train and certify according to nationally recognized safety standards.
 - **Ensure professionals have proper qualifications.** SFM will issue licenses to boiler and pressure vessel repairers and alterations companies, elevator and
- **Offer public education programs** about fire safety and other public safety initiatives.
 - **Fund grant programs** to local governments and the fire service community.

PROGRAM PROPOSALS

- **Upgrade technology to improve agency efficiency.** SFM will market the newly implemented online fee payment web site and continue to digitize all documents.
- **Seek funding from the federal government.** SFM will compete for Federal Assistance to Firefighters Grant funding to purchase smoke detectors for the deaf and hard of hearing.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012

PRIMARY BUDGET OUTCOME

Protecting the lives and property of citizens.

MEETING THE OBJECTIVE

- **Patrol highways** and seek to reduce fatal crashes on state highways through speed patrols, crash reconstruction, roadway safety assessments, commercial motor vehicle enforcement and safety education programs. Monitor criminal activities on highways including drug trafficking, human trafficking, transportation of illegal weapons and identification of domestic or international terrorists.
- **Investigate criminal activity**, including property crimes, violent crimes against persons, death investigations, public corruption, motor vehicle theft, methamphetamine production, Medicaid fraud and computer crimes. Provide intelligence information to local, county, state and federal law enforcement agencies, fire services and the private sector.
- **Provide forensic laboratory analysis** for local, state, and federal law enforcement.
- **Maintain criminal history records** used by criminal and noncriminal justice agencies for crime-solving, criminal identification, making bail recommendations, setting bond/determining prison sentences, determining prison security classifications and screening applicants for licensing and employment purposes.

- **Maintain law enforcement computer systems** used by more than 1,200 criminal and noncriminal justice agencies. The Law Enforcement Agency Data System (LEADS) interfaces with other state and federal systems and is heavily depended on by law enforcement agencies statewide. The Firearms Owners Identification System (FOID) provides a means to identify individuals who are not qualified to acquire or possess firearms and firearm ammunition in Illinois.
- **Investigate state employee misconduct.** Conduct investigations into allegation of misconduct by state employees under the Governor's jurisdiction.
- **Protect nursing home residents** by conducting investigations for Illinois Department of Public Health's Nursing Home Identified Offender Program.

PROGRAM PROPOSALS

- **Deploy police officers**, focusing on traffic volume and crash frequency on interstates and U.S. highways throughout Illinois.
- **Replace major law enforcement computer programs** and forensic science equipment through the Capital Program.
- **Train existing officers** on the latest patrol and investigative techniques, and educate forensic scientists on the latest scientific methodologies for analyzing biological samples, chemical substances, latent prints and firearm markings.

State of Illinois

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Fatal crash rate on interstates, U.S. routes and state highways (per 100,000,000 vehicle miles traveled)	0.629	0.556	0.484	0.520	0.460
Alcohol-related fatal crash rate on interstates, U.S. routes and state highways (per 100,000,000 vehicle miles traveled)	0.175	0.187	0.133	0.161	0.150
Statewide motorcyclist fatal crash rate. (per 100,000,000 vehicle miles traveled)	0.132	0.116	0.090	0.100	0.080
Statewide commercial motor vehicle fatal crash rate (per 100,000,000 vehicle miles traveled)	0.134	0.095	0.079	0.087	0.070
Statewide teen driver caused fatal crash rate (per 100,000,000 vehicle miles traveled)	0.356	0.297	0.232	0.230	0.210
Statewide percentage observed seat belt compliance	90.5%	91.7%	92.6%	92.4%	93.3%
Number of guns seized	1,402	2,068	1,542	1,700	1,700
Percentage of convicted sex offenders in compliance with registration requirements	92.5%	92.7%	92.9%	94.0%	94.0%
Percentage of forensic cases worked within 30 days	62.3%	63.4%	73.9%	75.0%	75.0%
Number of forensic cases worked per calendar year	112,048	114,815	107,386	110,000	110,000
Percentage of convicted offender samples analyzed within 30 days of submission	100.0%	100.0%	100.0%	100.0%	100.0%
Percentage of crimes against persons responded to within one hour	82.3%	91.3%	74.7%	75.0%	75.0%
Number of FOID applications processed	278,374	326,008	287,552	270,000	270,000
Estimated number of LEADS inquiries per year	N/A	N/A	N/A	N/A	54,000,000
Percentage of criminal history expungements (petitions and court orders) completed within 60 days	N/A	N/A	N/A	N/A	100.0%

PRIMARY BUDGET OUTCOME

Protecting the lives and property of citizens.

MEETING THE OBJECTIVE

- **Recruit and select the best candidates.** Candidates are subject to a fitness and writing test, after which a thorough background check and oral interview are conducted. If a tentative offer is given, the candidate will then receive a medical examination.
- **Promote officers as appropriate.** In order to reach sergeant, a job knowledge exam is given along with performance appraisal and review of seniority points. Master sergeant, lieutenant and captain candidates are also subjected to an assessment exercise. For

the rank of major, the Illinois State Police must submit a written request nominating a candidate. The board then reviews the position under consideration and the candidate’s job experience to determine if he/she will be certified for promotion.

- **Discipline officers effectively.** The board sets a hearing date within 30 days to hear all complaints to discipline an officer. It will also act as the official record-keeper and forward information to all concerned parties. A hearing officer has the discretion to handle a case. Once the hearing is over, the hearing officer files Findings of Fact and Conclusions of Law within 45 days. After each party comments on their findings, the board renders a decision within 90 days.

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting our children, veterans, poor, disabled, elderly and sick.

MEETING THE OUTCOME

- **Maintain quality community supportive services.** Ensure access to home and community-based services, and client-centered options, to deflect and delay institutionalization of older adults through comprehensive case management.
- **Enhance the Money Follows the Person initiative.** Promote awareness and increase client participation in the Money Follows the Person federal and state partnership initiative, which enables residents in institutional settings to transition to community settings with supportive services.
- **Promote elder rights.** Protect seniors and prevent elder abuse, neglect and exploitation through education and programs for health care and financial services personnel. Promote mandated reporting.
- **Strengthen the provider network.** Provide adequate quality assurance monitoring of case coordination and service provider agencies. Advocate for, and analyze, client

satisfaction measures to ensure the availability of quality and reliable home and community-based services.

- **Promote consumer direction.** Enhance the person-centered systems of information, counseling and access, to help older adults and individuals with disabilities, and their caregivers, make more informed decisions about their health and long-term care needs.

PROGRAM PROPOSALS

- **Implement a mandatory Medicaid-only provision for new applicants** to qualify for the Community Care Program, effective July 1, 2011. This will ensure the availability of services to the most vulnerable and efficient use of public resources.
- **Eliminate the Circuit Breaker Program,** which is budgeted in fiscal year 2011 at \$24.2 million in General Revenue.
- **Maximize Medicaid receipts.** Leverage federal Medicaid receipts to allow clients to use their Community Care Program expenditures to count toward spend-down, enroll more clients in Medicaid and administer a reliable system to allow daily billing for providers.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Community Care Program's average monthly cost of care (\$)	621	723	819	919	877
Number of deinstitutionalizations: transfers from institutional to community settings	267	202	330	380	440
Number of seniors receiving in-home and community-based services through the Community Care Program	48221	60930 ^a	66400	66000	72400
Percent of family caregivers receiving supportive services through Illinois' Family Caregiver Support Program	7.5%	8.0%	5.0%	6.0%	7.0%
Percent of Long Term Care Ombudsman complaints resolved	75% ^b	69%	69%	69%	69%
Percent of seniors receiving Older Americans Act services	30%	28%	26% ^c	27%	28%

^a The data for FY09 and beyond also include CCP clients who receive Emergency Home Response Service only.

^b Reflects partially or fully resolved complaints; it does not include those that were withdrawn or referred to another agency.

^c Estimate due to incomplete federal reporting period.

* This program is part of the Unified Budgeting Initiative. See chapter 3 for details.

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting our children, veterans, poor, disabled, elderly and sick.

MEETING THE OUTCOME

- **Provide timely response in investigating allegations** of child abuse and neglect. The Department of Children and Family Services (DCFS) focuses on child safety by insuring the department commences an investigation into allegations of child abuse or neglect within 24 hours of being reported to the State Central Registry.
- **Meet the needs of children in the least restrictive manner.** Children and families receive necessary services and any service gaps impacting achievement of permanency are identified and addressed.
- **Provide for the long-term safety of a child** remaining in a family that was the subject of a department investigation. DCFS makes certain that appropriate follow-up and preventive actions are initiated to avoid subsequent neglect or abuse.
- **Ensure that families remain together whenever safety of the child allows.** Service interventions continue to ensure protective services are provided to keep the family together whenever possible.
- **Move children toward permanency** in a timely manner. DCFS works to provide children permanent homes within 24 months, either by returning to their families or moving to an alternative permanency option.

- **Provide stable living arrangements** until permanency can be achieved. Additional efforts are made to preserve family relationships and reduce the number of unplanned moves of youth within the child welfare system.
- **Provide children who are wards of the state with healthcare** in accordance with best treatment standards.
- **Integrate programs from the Division of Community Health and Prevention** from the Department of Human Services, including Homeless Youth Services that aids homeless youth in transitioning to independent living and becoming self-sufficient.

PROGRAM PROPOSALS

- **Improve permanency outcomes for youth** in foster care through a five-year, \$10 million grant award. The grant will provide intensive treatment services to children and their families. Specially trained staff will help families overcome the trauma experienced from the crisis that required DCFS intervention. This intervention program is designed to improve parental involvement in case planning and quickly achieve permanency.
- **Improve efficiency of services** by maximizing appropriate federally reimbursable services, insuring placement services are provided in the least restrictive setting, and closely managing the caseload to insure permanency benchmarks are met or exceeded.

State of Illinois

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Percentage of all children in care who received required health examinations per the federal health screening EPSDT Annual Schedule ^a	N/A	81.7%/89.0% ^b	86.2%/90.4%	88.0%/92.0%	90.0%/93.0%
Percentage of all child abuse/neglect reports DCFS responded to within 24 hours	99.5%	99.4%	99.2%	99.5%	99.5%
Percentage of all children in care who received required immunizations per the federal health screening EPSDT Annual Schedule	N/A	89.1%	90.9%	91.6%	91.6%
Percentage of cases opened intact that remained intact for six months	95.8%	96.0%	95.4%	96.0%	96.0%
Percentage of children in foster care for 12 months or less, plus children exiting care, with no more than two foster care placements within that 12-month period ^c	86.8%	85.9%	86.3%	86.0%	86.0%
Percentage of children in out-of-home care that exit care to a permanent living arrangement within 24 months of latest removal from home	46.2%	47.9%	47.1%	47.5%	47.5%
Percentage of children who do not experience subsequent substantiated abuse/neglect within six months of a prior substantiated report	92.8%	92.2%	92.7%	92.5%	92.5%

^a Early and Periodic Screening, Diagnosis, and Treatment Program (EPSDT)

^b Children under 3 years of age / children 3 years and older

^c The 12-month period is counted from the date of the latest removal from the home.

Comprehensive Health Insurance Plan

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting the most vulnerable among us.

- **Explore and implement cost containment measures** to effectively manage health care costs.

MEETING THE OBJECTIVE

- **Enroll and maintain health insurance coverage** for Illinois residents who are unable to find adequate health insurance coverage in the private market due to a pre-existing health condition or disability and that meet the eligibility requirements for the Traditional Comprehensive Health Insurance Plan (CHIP) and Health Insurance Portability and Accountability Act (HIPAA)-CHIP high risk pools.
- **Pursue federal grant funds** for the HIPAA-CHIP pool.

PROGRAM PROPOSALS

- **Refer individuals** who appear to meet the eligibility requirements of both the Traditional CHIP Pool and the Illinois Preexisting Condition Plan to the Illinois Preexisting Condition Plan which is totally federally funded.
- **Improve efficiency** through information technology, cross training and sharing workloads. Conserve utilities, resources and commodities to reduce costs.

PRIMARY BUDGET OUTCOME

Protecting the most vulnerable among us.

employers, public and private sector organizations, students and job seekers.

MEETING THE OBJECTIVE

- **Provide Unemployment Insurance (UI) benefits** through provision of temporary, partial income support to eligible individuals who are unemployed through no fault of their own. To fund these benefits, the department collects taxes from employers based on their employees' usage of the program.
- **Refer qualified workers to employers with job openings** and assist job seekers to find new or better employment. Coordinate with other state agencies and community organizations to assist individuals with access to training and other supportive services. DES customizes services for specific populations including veterans, youth, formerly incarcerated individuals and migrant seasonal farm-workers.
- **Distribute Labor Market Information (LMI).** Collect, analyze and distribute LMI for use by

PROGRAM PROPOSALS

- **Upgrade the department's telephone system statewide** by replacing the current system with the New Voice Internet Protocol System which will allow more efficient use of staff and better serve those seeking services.
- **Use \$2.3 million of federal funding to revamp Illinois Job Link** to better able to determine emerging job markets and identify skills necessary to fill these jobs. This will allow job seekers to identify individual training needs that will provide them with the skills necessary to fill these positions.
- **Redesign the department web site** to include self-management of claimant benefits and identification of potential career opportunities.
- **Address the solvency of Illinois Trust Fund** through the "Agreed Bill Process", which involves the participation of business and labor communities.

PRIMARY BUDGET OUTCOME

Protecting our children, veterans, poor, disabled, elderly and sick.

MEETING THE OBUTCOME

- **Maintain healthcare coverage for Medical Assistance populations.** The Department of Healthcare and Family Services (HFS) will process Medical Assistance payment vouchers to the Comptroller's Office within 60 days of the presentation of a proper bill and maintain timely determination of eligibility.
- **Continue long-term care rebalancing.** HFS will continue, in coordination with other human service agencies, rebalancing the long-term care delivery system, with the goal of serving as many people as appropriate in community-based care.
- **Maximize revenues from the federal government** by seeking federal match on children in Medical Assistance up to 300 percent of the federal poverty level. The department will also establish rules and other procedures to maximize funding for health information technology (IT) planning.

PROGRAM PROPOSALS

- **Improve health outcomes for Medical Assistance clients.** HFS will implement its Integrated Care Program for 40,000 disabled adults and begin planning for the transition of clients into coordinated care, with a target of 50 percent of Medicaid clients in such programs by the end of 2015.
- **Reform the Medical Assistance eligibility verification process.** HFS will work with its partner agencies to issue durable medical cards, implement active redetermination of

eligibility for clients, and require that applicants provide proof of a month's worth of income information and residency for eligibility.

- **Increase enforcement tools to combat abuse in the Medical Assistance Program.** HFS will expand its Recipient Restriction Program and administrative enforcement remedies to further address abuses.
- **Pursue child support for custodial parents.** Child Support Services will meet or exceed its five federally reported performance measures, including increasing collections and increasing the number of cases with support orders and paternity established.
- **Plan for effective implementation of the federal Affordable Care Act.** HFS will select an option for implementing the enrollment process for the Health Benefit Exchange needed for 2014 and will begin the procurement process. The department will update the Medical Data Warehouse, continue the design process for the new Medicaid Management Information System, and upgrade its IT infrastructure and functionality in advance of enrollment expansions required by healthcare reform.
- **Incent the use of electronic medical record systems by providers who serve the department's covered populations.** HFS will work with the Governor's Office of Health Information Technology to utilize federal economic stimulus dollars to incent the use of electronic medical records, as well as improve the health of state-covered populations and Illinois citizens in general.
- **Reform institutional rates.** HFS will collaborate with providers and other stakeholders to redesign rate systems for hospitals and nursing homes, basing payments on evidence-based methodologies.

State of Illinois

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Children enrolled in Medical Assistance Programs	1,458,460	1,535,692	1,597,869	1,648,000	1,675,000
Seniors enrolled in Medical Assistance Programs	158,189	158,778	155,930	164,500	173,550

* This program is part of the Unified Budgeting Initiative. See chapter 3 for details.

** Shift of funding source from Tobacco Settlement Recovery Fund to General Revenue Fund as a result of the Railsplitter Tobacco Settlement revenue securitization.

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting our children, veterans, poor, disabled, elderly and sick.

MEETING THE OUTCOME

- **Provide individuals with an avenue for the timely redress of unlawful discrimination.** Provide mediation as an alternative to investigation. Provide accurate and timely action on requests for review.
- **Generate revenue for identified department programs.** Pursue funding opportunities (such as grants or partnerships) for department initiatives. Fulfill and enhance federal contracts to increase federal funding.

- **Administer and enforce statutory regulations** to ensure state governmental compliance with Equal Employment Opportunity and Affirmative Action (EEO/AA) requirements. Disseminate timely information to department staff and outside entities providing training on non-discrimination and other EEO/AA related issues.
- **Enforce provisions of the Illinois Human Rights Act** and require Illinois public contractors and eligible bidders to refrain from unlawful discrimination, undertake affirmative action in employment and develop a written sexual harassment policy.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Average time to case resolution (days) ^a	349.4	357.4	303.6	320.0	320.0
Number of persons trained on human rights issues	3,013	6,965	3,377	4,000	4,400
Percentage of state agencies in compliance with affirmative action guidelines	84%	89%	74%	75%	75%
Satisfaction rate of participants trained on human rights issues	96.0%	95.0%	95.4%	95.0%	95.0%

^a The Human Rights Act provides that the department has 365 days to complete a case.

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting our children, veterans, poor, disabled, elderly and sick.

- **Increase emphasis on alternative dispute resolution** as an option to the public to help decrease the amount of active cases on docket.

MEETING THE OUTCOME

- **Manage the request for review process** to bring resolution of discrimination cases filed with the commission.

- **Enhance cross training of staff** to improve efficiency and accountability with limited resources.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Number of commission cases closed by settlement or commission final order	328	272	300	689	800
Total number of complaints and defaults	251	612	794 ^a	450	400

^a Funding in fiscal year 2009 has been increased to address this increase in caseload.

Protecting our children, veterans, poor, disabled, elderly and sick.

MEETING THE OUTCOME

Provide a safety net to meet the basic needs of the most vulnerable populations.

Make food, shelter, support services and cash assistance available to Illinois residents with the greatest need. Ensure children and pregnant and lactating women receive proper nutrition by providing supplemental foods and by increasing the percent of women who breastfeed.

- **Invest in prevention to enhance outcomes.** Reducing infant mortality and low birth weight and ensure children eligible for Early Intervention (EI) services receive services by the age of one year. Support safe and healthy learning environments that prepare children for school. Support low-income families to stabilize their living arrangements. Implement a range of initiatives, including prevention of domestic violence and promotion of mental health, to improve the quality of community life across the state.
- **Promote independence through employment support and community integration of people with disabilities and low-income individuals.** Provide education and employment support to develop functional and occupational skills and attain independence for Illinois residents struggling with economic marginalization. Offer home-based services, independent living placements and other opportunities to enable individuals with physical, mental and developmental disabilities to reside independently or in cost-effective community settings and maximize their ability to fully participate in their own community. Provide access to child care, education, training and employment to help families achieve and maintain economic stability and reduce dependence on basic assistance programs. Ensure support services are available to assist refugees and immigrants in successful

transition to citizenship, independence and integration into communities.

- **Provide a wide range of early intervention and treatment services.** Reach children and adults at earlier stages of illness, improve access to a wider array of services, increase cost-effectiveness and decrease the negative impact of illnesses on individuals, their communities and the state. Provide a range of treatment services to Illinois residents struggling with addiction and mental illness.
- **Transfer programs from the Division of Community Health and Prevention to the Department of Public Health, Department of Juvenile Justice, Department of Children and Family Services and the Illinois Violence Prevention Authority.** Move programs to agencies whose focus is more closely aligned with the programs being transferred, including Healthy Families, and juvenile and delinquency prevention, programs for the homeless and violence prevention programs.

PROGRAM PROPOSALS

- **Redesign the Family and Community Resource Center Model.** Conduct a pilot project to redesign the service delivery system of the Family and Community Resource Centers to provide timely and efficient services to clients. Evaluate the effectiveness of the pilot and assess the potential for statewide implementation.
- **Rebalance Service Options.** Implement a framework for a comprehensive person-centered service delivery system, rooted in community-based structures, that meets the needs of people with physical, mental and developmental disabilities with increased targets for community based placements.
- **Implement national health care reforms.** Partner with other state agencies appointed by the governor to the health care reform implementation council to implement new eligibility, verification and enrollment (EVE) policies and procedures.

State of Illinois

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Number of households served by either Medicaid, General Assistance, AABD, TANF or Non-Assistance Food Stamps.	1,224,000	1,306,000	1,448,000	1,600,000	1,600,000
Number of households served through The Emergency Food Assistance Program (TEFAP) (food pantries, soup kitchens and homeless shelters)	1,800,000	2,200,000	2,600,000	2,600,000	2,600,000
Percent of Medicaid-eligible pregnant women active in FCM and WIC in the first trimester ^a	45.8%	45.5%	47.1%	45.7%	46.0%
The percent of women that smoke in the last three months of pregnancy	10.4%	11.4%	10.7%	10.0%	10.0%
Percent of WIC mothers that continue to breastfeed their infants at six months of age	26.0%	27.3%	27.3%	27.0%	27.0%
The proportion of infants born weighing less than 2,500 grams	8.6%	8.5%	8.4%	8.4%	8.4%
Percent of 19-35 month olds who are fully immunized	78.5%	77.8%	75.9%	76.0%	77.0%
Percent of children living in Illinois who are under age 3 who are served by Early Intervention program	3.45%	3.56%	3.48%	3.50%	3.50%
Persons receiving vocational rehabilitation (VR) services as a percent of the estimated number of persons with a significant work disability	18.7%	18.2%	17.5%	19.0%	19.0%
Number of persons with disabilities receiving in-home services	33,652	34,280	33,976	33,750	34,000
Percent of VR program participants who become successfully employed (also known as the rehabilitation rate)	61.6%	57.7%	57.4%	60.0%	60.5%
Number of individuals served in Developmental Disability (DD) waiver settings	15,947	16,540	16,998	18,800	18,800
Number of individuals served in private Intermediate Care Facilities for Persons with Mental Retardation (ICF/DD) including Skilled Nursing Facility/Pediatrics	6,620	6,538	6,444	6,400	6,200
Number of individuals served in State Operated Developmental Centers (SODC's)	2,373	2,218	2,072	1,922	1,772
Number of Mental Health (MH) consumers enrolled in evidence-based supportive employment services	N/A	1,132	1,770	1,740	1,800
Number of MH consumers living in permanent supportive households	N/A	162	545	725	1,000
Number of refugees and immigrants receiving Outreach and Interpretation Services	52,872	57,377	63,110	60,000	63,000
The average number of cases/families served through the Child Care program per month	91,100	90,100	87,900	87,900	87,900
Percent of clients discharged from alcohol and other drug treatment who completed services	51.0%	49.7%	47.5%	50.0%	50.0%
Percentage of mental health clients discharged that are readmitted within 30 days	15.12%	15.08%	14.94%	15.16%	14.00%
Persons receiving mental health treatment as a percent of the estimated number of persons in need of mental health treatment	24.0%	24.0%	23.0%	23.0%	25.7%

* This program is part of the Unified Budgeting Initiative. See chapter 3 for details.

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting the most vulnerable among us.

MEETING THE OBJECTIVE

- **Monitor state funded programs** to ensure delivery of promised and mandated services to persons who are deaf or hard of hearing.
- **Ensure communication access** for all Illinois deaf and hard of hearing citizens. Identify and decrease communication barriers. Promote advocacy by empowering deaf, hard of hearing, deaf blind individuals and families to advocate for access to programs and services in Illinois.
- **Improve public awareness** of the rights of deaf and hard of hearing citizens. Provide training and workshops in a variety of settings that impact health and safety of

each and every deaf and hard of hearing individual in Illinois.

- **Administer and regulate the sign language interpreting profession.** Issue licenses, conduct investigations of complaints and provide public awareness about licensure in accordance with the Interpreter for the Deaf Licensure Act of 2007.

PROGRAM PROPOSALS

- **Continue to improve efficiency** by cross training, sharing workloads and getting results out quickly. Conserve resources and commodities.
- **Provide Illinois Board for Evaluation of Interpreters testing** for sign language interpreters in order to become licensed in Illinois.

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting our children, veterans, poor, disabled, elderly and sick.

MEETING THE OUTCOME

- **Gain approval of a five-year strategic plan**, which is submitted to the Secretary of the U.S. Department of Health and Human Services.
- **Implement the federally approved state plan.** The plan includes: conducting and supporting advocacy, capacity building and systemic change activities including: outreach, training and technical assistance, supporting and educating communities, interagency collaboration and coordination, coordination with related councils, committees and programs, barrier elimination, systems design and redesign; coalition development and citizen participation; informing policymakers; and

demonstration of new approaches to services and supports.

- **Ensure proper implementation of five-year state plan** by identifying and reporting progress achieved through advocacy, capacity building and systemic change activities. A report to the Secretary of Health and Human Services is submitted on an annual basis. The required reporting includes both quantitative and qualitative data.

PROGRAM PROPOSALS

- **Improve service delivery system.** Build agency capacity in order to expand best practice initiatives to help Illinois improve the quality of services to people with developmental disabilities.

State of Illinois

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Child Care - Children with developmental disabilities and their families benefit from a range of inclusive, flexible child care options. ^a	\$90.8	\$67.1	\$54.0	\$56.2	\$85.7
Community Supports - Like others, people with developmental disabilities participate in their communities. ^a	\$409.6	\$544.9	\$562.2	\$654.7	\$557.3
Cross-cutting - Progress in the removal of systematic barriers, and education of policymakers, will enhance opportunities for people with developmental disabilities in all aspects of community. ^a	\$262.4	\$264.3	\$363.2	\$364.5	\$273.2
Education/Early Intervention - Students with developmental disabilities reach their educational potential, and infants and young children with developmental disabilities reach their developmental potential. ^a	\$219.9	\$136.9	\$65.8	\$79.2	\$451.2
Employment - People with developmental disabilities get and keep employment consistent with their interests, abilities and needs. ^a	\$139.5	\$135.8	\$332.2	\$369.4	\$85.1
Health - People with developmental disabilities are healthy and benefit from the full range of needed health services. ^a	\$46.3	\$49.0	\$54.0	\$163.7	\$91.2
Housing - Adults with developmental disabilities choose where and with whom they live. ^a	\$61.0	\$43.4	\$59.3	\$46.2	\$116.2
Quality Assurance - People with developmental disabilities have control, choice and flexibility in the services/supports they receive. ^a	\$288.4	\$351.0	\$657.1	\$495.5	\$482.6
Recreation - People benefit from inclusive recreational, leisure and social activities consistent with their interest and ability. ^a	N/A	\$10.9	\$10.7	\$2.0	\$26.9
Transportation - People with developmental disabilities have transportation services for work, school, medical, and personal needs. ^a	\$88.9	\$50.1	\$70.0	\$54.0	\$102.8

^a Data represents resources by dollars in thousands expended/allocated to the areas of emphasis based on the Council's Five-Year State Plan.

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting the most vulnerable among us.

efficiency goals related to the cost per client served.

MEETING THE OBJECTIVE

- **Serve as guardian of last resort** for adults with disabilities that have no one willing or able to serve as guardian. The Office of State Guardian (OSG) oversees and monitors service provision to OSG wards across the state, seeks community placements for adults with disabilities whenever possible and appropriate, and seeks alternatives to state guardianship by pursuing less restrictive options for guardianship.
- **Provide legal advice and representation** to adults with disabilities through the Legal Advocacy Service (LAS).
- **Investigate allegations of human rights violations** committed against persons with disabilities by service providers through the Human Rights Authority (HRA).
- **Provide services using cost efficient means**, maintaining and monitoring

- **Respond to public inquiries** related to adult guardianship and disability advocacy. The agency continues to be an independent guardianship and advocacy resource available for clients, families, communities and other citizens.
- **Develop and maintain a volunteer force** to complement the work of agency staff and to enhance ties between the commission and the public, vulnerable individuals and communities in which vulnerable individuals reside. The agency also offers student internship opportunities for students in fields of study related to the agency's work.

PROGRAM PROPOSALS

- **Continue to improve efficiency** by cross training, sharing workloads and getting results out quickly. Conserve utilities, resources and commodities to help alleviate state budget constraints.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Percentage of cases in which alternatives to guardianship appointments were found	88%	90%	90%	88%	88%
Percentage of clients surveyed who reported satisfaction with services ^a	82%	82%	93%	80%	80%
Percentage of wards in community-based placement	42%	43%	45%	45%	45%
Public Advocacy - Percentage of Human Rights Authority recommendations accepted by service providers that were investigated ^b	84%	94%	97%	85%	85%

^a Eighty percent is considered a reasonable target for this type of satisfaction survey.

^b The extraordinary performance of this metric in FY 2007 and FY 2008 cannot be linked to any one specific factor, but indicates the diligence with which this agency's Human Rights Authority pursues successful outcomes before closing cases. Eighty-five percent is considered a reasonable target for this process which involves negotiations and taking into consideration fluctuations in case timelines and provider cooperation.

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting our children, veterans, poor, disabled, elderly and sick.

in their home communities who might otherwise be incarcerated.

MEETING THE OUTCOME

- **Rehabilitate youth** through an assessment of their risks, assets and needs. This strength-based engagement approach to programming, discharge planning, and post release aftercare reflects a therapeutic care model. Implementation of discharge planning starts with the admission of the youth into the facility and ends when the youth is no longer on parole status. A youth’s discharge plan includes treatment, parental engagement, training that will facilitate a positive transition back into the community.
- **Provide the appropriate educational programming** to meet the academic needs of the youth. The department will continue to operate its own school district with a curriculum that meets the needs of youth in its care. Ensuring that individualized education needs are met is a critical component in rehabilitating and readying the youth for a successful re-entry into society.
- **Integrate programs from the Division of Community Health and Prevention** from the Department of Human Services, including Redeploy Illinois that provides comprehensive services to delinquent youth

PROGRAM PROPOSALS

- **Enhance the screening and assessment process** for youth. By better identifying the physical and mental health needs of the youth population at admittance, the agency can design better individualized treatment plans.
- **Expand the department’s aftercare system** to supervise and treat youth on parole. Providing programming in a more treatment-oriented setting is proven to lower recidivism and positively impact public safety. A successful aftercare system means fewer youth return to the facility environment, which leads to more positive societal outcomes and long-term cost efficiencies.
- **Improve the service delivery to the juvenile population** by improving the youth to staff ratios within the institutions.
- **Implement the Crime Reduction Act** by establishing Illinois Redeploy in Cook County by diverting low level offenders into treatment, the department will address the underlying causes of delinquency and improve outcomes at significant savings.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Aftercare services spending per capita	\$1,430	\$1,488	\$2,235	\$2,360	\$3,218
Education spending per capita	\$7,965	\$7,833	\$8,637	\$10,394	\$11,753
Number of youth enrolled in full day schooling	N/A	890	810	850	900
Percentage of youth reincarcerated within 3 years of release	56.9%	55.4%	52.3%	52.0%	50.5%

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting our children, veterans, poor, disabled, elderly and sick.

MEETING THE OUTCOME

- **Conduct complaint and serious incident investigations** in long-term care facilities and make immediate referrals of abuse, neglect and theft to the Illinois State Police Medicaid Fraud Control Unit for review and consideration of a criminal investigation.
- **Operate a 24-hour central complaint registry** to provide the public with a means to report nursing home complaints.
- **Screen all newborns** for early identification of more than 40 genetic or metabolic conditions to reduce morbidity, premature death, mental retardation and other developmental disabilities. Track and refer at-risk infants for further diagnostic testing and follow children diagnosed with disorders.
- **Promote prevention of perinatal mortality** and conditions leading to developmental and other disabilities. Coordinate medical care that focuses services for high-risk women and newborns.
- **Provide free breast and cervical cancer screenings**, diagnostics, follow-up and access to treatment to at-risk women in Illinois.
- **Operate the AIDS Drug Assistance Program (ADAP)** serving Illinois residents

who are HIV positive or diagnosed with AIDS and who are at or below 500 percent of the federal poverty level. Provide almost 6,000 clients access to 80 life-sustaining HIV medications for individuals living with HIV.

- **Integrate programs from the Department of Human Services.** Healthy Families Illinois works with expectant and new parents to develop positive parenting skills and avoid behaviors that can make their children vulnerable to abuse and neglect. Homeless shelter and prevention programs provide supportive services and immediate food and shelter to individuals and families that are at imminent risk of being homeless.

PROGRAM PROPOSALS

- **Increase surveyor staffing in nursing homes** to improve the effectiveness of conducting surveys and investigations. Train staff to focus on the new resident health and safety requirements in PA 96-1372.
- **Pursue enhanced and expanded communication and coordination** with the departments of Human Services, the state police and Department of Financial and Professional Regulation to take action against non-compliant nursing homes.
- **Implement newborn screening for five lysosomal storage disorders (LSDs)** - Pompe, Krabbe, Fabry, Gaucher and Niemann-Pick. Phase-in testing at two hospitals, followed by screening of all newborns beginning June 1, 2011.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
"A" Violations issued	97	214	220	240	260
Abnormal test results followed	14,115	14,723	15,500	16,000	16,500
Diagnosed cases	339	388	400	410	430

State of Illinois

PRIMARY BUDGET OUTCOME

Protecting our children, veterans, poor, disabled, elderly and sick.

MEETING THE OUTCOME

- **Provide long-term care facilities** to the aging veteran population at an affordable monthly rate. Quality will be measured by annual inspections from the Illinois Department of Public Health and the U.S. Department of Veterans Affairs (USDVA), and by analyzing trends in internal performance measures. The Department of Veterans' Affairs (DVA) will provide a minimum of three hours daily of direct nursing care per veteran resident in all veterans' homes.
- **Maximize the number of veterans** cared for at all veterans' homes. Success will be measured by comparing our 2012 census against historical data for occupancy rates as well as average wait time for a resident to be admitted.
- **Continue to work with the Capital Development Board** on the construction of a fifth veterans' home in Chicago and major upgrades to modernize existing facilities.
- **Approve and issue grants to eligible organizations** that assist veterans with issues of homelessness, post-traumatic stress disorder (PTSD), traumatic brain injury (TBI) and access to health care disability benefits.
- **Encourage veterans to participate** in employment training and higher education opportunities. DVA will educate, advise and approve public and private institutions of higher learning throughout Illinois for the use of Federal GI Bill benefits as well as the Illinois Veterans Grant and Illinois National Guard Grant.
- **Manage the Troops to Teachers Program** to facilitate the recruitment of recently

returned veterans into the K-12 education community in low-income areas of the state.

- **Operate a homeless shelter** at Manteno to provide full supportive services and housing for homeless veterans. Success will be measured by tracking the number of veterans served and the relapse rates among graduates of the program.
- **Assist evolving needs of veterans** through special programs. DVA will provide a call center and online portal for veterans suffering from PTSD and TBI as well as a network of counselor and mental health providers and coverage for care at those locations when federal VA health care is unavailable.
- **Provide comprehensive, affordable health care coverage** to veterans who do not qualify for federal VA health care.

PROGRAM PROPOSALS

- **Increase direct care staffing at all homes** to meet the requirements set forth in the Nursing Home Care Reform Act of 2010, as well as to address the long-term care needs of the veterans' homes' resident population.
- **Increase staffing and operational funding to provide service** to additional veterans at the Illinois Veterans' Home in Manteno. DVA will staff and operate all licensed beds at the facility.
- **Make critical upgrades to the Illinois Warrior Assistance Program** to better serve Veterans suffering from PTSD and TBI.
- **Continue to improve the agency's efficiency.** Integrate a comprehensive automated Veterans Claim System for filing claims and applying for benefits. This new system will eliminate redundant data entry and reduce payment delays.

CHAPTER 10

QUALITY OF LIFE

Improving the quality of life for citizens

*Illinois Arts Council
Department of Natural Resources
Illinois Historic Preservation Agency*

This page intentionally left blank.

State of Illinois

PRIMARY BUDGET OUTCOME

Maintaining our cultural and natural resources.

MEETING THE OUTCOME

- **Invest in Illinois’ artists and nonprofit organizations** to catalyze support for the arts and to keep the state’s diverse arts sector vibrant, sustainable and accessible.
- **Create gains in student achievement and success** in arts education both in school and other educational environments.
- **Strengthen public access, participation and engagement** of underserved populations in the arts, including people with disabilities and Illinois’ rural and low-income communities.
- **Allow locally operated public radio and television stations** to provide unique services to their communities, including local production, arts programming, educational outreach, and local and regional news.
- **Increase public access to the humanities** by lowering barriers to participation, and bring humanities activities to unexpected places.

PROGRAM PROPOSALS

- **Work with Illinois state agencies and associations** to assemble teams that partner with local communities on initiatives to address local needs and opportunities in community development, economic development and tourism.
- **Create and cultivate a peer group network** of identified experts on various issues related to the arts and culture who can serve as advisors to individual artists, community arts programs and arts educators.
- **Refine the existing grant portfolio and identify new sources** of funds through partnerships and other innovative strategies, to promote and facilitate opportunities for the youth of Illinois to participate in and enjoy the arts and culture.
- **Maintain the Illinois Arts Council** as a key participant in statewide planning for arts education programs in the public schools, including continuing involvement with the Illinois State Board of Education.
- **Advance the interests of Illinois artists and performers** in the global marketplace through participation in international exchanges, programs and partnerships.
- **Continue to improve efficiency** throughout the organization by continually seeking to improve performance and eliminate waste.

PRIMARY BUDGET OUTCOME

Maintaining our cultural and natural resources.

MEETING THE OUTCOME

- **Provide a quality experience** to all visitors to the Abraham Lincoln Presidential Library and Museum (ALPLM), and to over 60 historic sites and monuments operated by the agency.
- **Synchronize promotion** of Lincoln-related sites and the ALPLM to broaden interest and encourage attendance by local, out-of-state and international visitors.
- **Support teacher and student learning** through interpretive programs, curricular aids, workshops, online resources, traveling displays, transportation grants and the annual history fair.
- **Explore opportunities for adaptive reuse** of selected historic sites to both expand use and ensure all resources of the agency are fully enjoyed.

PROGRAM PROPOSALS

- **Commemorate the upcoming Civil War Sesquicentennial** with lectures, special events and online information. Historic sites and the ALPLM are developing projects and events to commemorate this important anniversary.
- **Improve agency websites and digitize more images and documents** to allow for greater use of the premier repository for materials relating Abraham Lincoln and Illinois history.
- **Initiate a staff and industry marketing committee** to increase attendance and form strategic partnerships.
- **Continue installation of a geothermal heating and cooling system** at Lincoln’s Tomb and energy-efficient lighting at the ALPLM.

Continue to improve employee efficiency by cross training, sharing workloads, and implementing techniques to ensure quick responses to inquiries.

State of Illinois

PRIMARY BUDGET OUTCOME

Maintaining our cultural and natural resources.

laws and serve as additional police protection in underserved areas and in times of severe weather events and other natural disasters.

MEETING THE OUTCOME

- **Manage 324 state parks, fish and wildlife areas, forests, trails and natural areas** for more than 45 million visitors annually.
- **Promote forestry, fisheries, wildlife programs, habitat and trail restoration.**
- **Lead the state's effort to control and eradicate Asian carp**, an invasive species that has migrated to Illinois rivers and streams from the Mississippi River.
- **Operate and maintain the Target Hunger Now program** which encourages outdoors participants to donate venison to food banks and charities fighting hunger.
- **Educate the public on environmental issues** and Illinois state natural history. Curate over 11 million state artifacts at state museums, educate youth on the benefits of the outdoors through the Environmental Literacy program and encourage participation in outdoor activities.
- **Protect citizens and the environment from pollution** and natural resource injuries. Enforce firearm and wildlife conservation

- **Enforce mine safety, blasting and explosives regulations, and permitting** of the Illinois' mining industry. Help sustain 50,000 jobs with \$6 billion of annual production in Illinois through regulation of mining, oil and gas production.
- **Manage the Water Allocation program** to ensure the flow of water to over 7 million people in northeast Illinois and to major downstate reservoirs. The program protects 4.4 million acres of land by also assuring the safety of levees.

PROGRAM PROPOSALS

- **Correct maintenance problems** throughout the state park system. Backfill staffing to ensure public safety and cleanliness at state parks. Replace aging equipment.
- **Expand strategic opportunities** for conservation in cooperation with private landowners, which benefit citizens of Illinois.
- **Ensure adequate drinking water supplies** for over half the population of Illinois.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Amount in acquisition of open space and land for recreational opportunities (acres) ^a	7,000	10,500	15,300	3,553	4,952
Amount in acquisition of open space and land for recreational opportunities (Dollars) ^a	20,600	38,000	24,000	18,091	3,656
Increase in acreage protected and restored for habitat for fish, wildlife and other natural resources	51,5902	464,312	727,288	600,000	650,000
Number of people receiving safety education	24,000	24,000	22,000	22,000	22,000
Number of visitors to state parks (thousands)	43,790	43,800	40,600	44,300	44,000
Percent of communities in compliance with the National Flood Insurance Program	95%	95%	95%	95%	95%

^a FY 2008 data includes Hunter Heritage Program dollars.

State of Illinois

PRIMARY BUDGET OUTCOME

Making government more efficient and effective.

MEETING THE OUTCOME

- **Manage the executive branch** and oversee state agencies as they implement programs and services for the State of Illinois. Coordinate with the legislative branch in preparing and passing an annual state budget, and promoting and enacting new laws.
- **Appoint hundreds of key state administrators** and make appointments to boards, commissions and agencies - subject to the advice and consent of the Senate.
- **Prepare and submit to the General Assembly** an annual budget encompassing operating and capital appropriations, as well as forecast revenues necessary to finance those appropriations.

- **Oversee budget implementation** for agencies to ensure continuing steps towards fiscal stability.
- **Streamline state government.** Increase efficiency of programs, reduce state expenditures and improve program outcomes.

PROGRAM PROPOSALS

- **Continue implementation of budgeting for results.** Identify programs working well, those that need improvement and those that can be cut back.
- **Formation of the Illinois Innovation Commission** to identify and advance strategies that foster innovation and economic growth in Illinois.

State of Illinois

PRIMARY BUDGET OUTCOME

Making government more efficient and effective.

MEETING THE OUTCOME

- **Rebuild the office** after a two year vacancy to enable it to serve Illinois citizens as an informational hub navigating state government and as an advocate for educational quality, domestic violence prevention, and accountable, accessible and transparent government.

PROGRAM PROPOSALS

- **Serve as Illinois’ point person** for education reform. Strive to improve access to a quality education for every child in Illinois. Ensure that schools are fully funded and our funding system reformed, to lessen the impact of the property tax on the quality of education. Utilize community gatherings around the state. Increase public engagement with regard to funding public education. Increase the number of children who attend college or complete post-secondary career training to provide the work readiness necessary to find a quality job.
- **Strive to make governments at all levels more accessible.** Connect Illinois citizens with different levels of government, via either direct communication or on-line. Develop a “local leaders exchange” to

facilitate an understanding that leaders from all across the state share the same concerns about the economy, jobs and education. Encourage citizen participation in the decision-making process to enhance transparency by bringing the policy process directly to the citizens of Illinois.

- **Advocate for victims of domestic violence.** Support timely funding for non-profit agencies serving domestic violence victims. Work with advocacy groups, law enforcement officials and court personnel to ensure our laws reach all victims of abuse and harassment. Promote public awareness regarding how each member of every community can play a role in preventing violence, one person at a time.
- **Chair Councils.** Chair the Governor’s Rural Affairs Council to continue to improve economic opportunity, education, transportation, and health care services for Illinoisans in rural areas. Chair the Wabash and Ohio, Illinois and Mississippi River Councils to protect the rivers and strengthen understanding and co-existence of ecological and economic river development. Chair the Green Governments Coordinating Council to promote the benefits of improved environmental stewardship of local government. Chair the Interagency Military Base Support and Economic Development Committee to enable continuance and expansion of the significant, positive economic impact of military bases.

PRIMARY BUDGET OUTCOME

Making government more efficient and effective.

MEETING THE OUTCOME

- **Ensure accuracy and timeliness** of financial transactions for state government. Maintain efficient and cost-effective productivity and service levels. Utilize technologies to improve efficiencies and effectiveness in the vouchering, payment and reporting processes.
- **Keep users of the state’s financial information well informed** through the timely reporting of fiscal and performance data. Increase public awareness of how taxpayer dollars are spent at the local, county and state levels through direct mail, the internet, data warehouse, telephone and personal contacts. Hold policymakers accountable for timely reporting of taxpayer dollar expenditures.
- **Oversee and manage fund levels** and ensure availability of funds for priority expenditures to provide fiscal stability as much as possible within context of state’s overall fiscal condition.
- **Work with local governments** to ensure compliance with statutory financial reporting

requirements. Provide the public with access to local government fiscal information in Annual Financial Reports, and assess the financial health of local governments.

PROGRAM PROPOSALS

- **Begin implementation of the statewide accounting system** and move toward more extensive electronic record keeping for the state.
- **Begin implementation of the state reciprocal program** with the federal government to allow for federal payments to be offset against state debt and state payments to be offset against federal debt.
- **Work to create a user-friendly one-stop-shop** for all contract information that details award and completion dates, amounts, scopes of service and names of any and all subcontractors.
- **Increase the number of online submissions** of local government data by providing field training and additional outreach programs for local officials.

State Officers' Salaries

State of Illinois

TOTAL, ALL STATE OFFICERS' SALARIES:	\$29,693,800	\$30,273,200	\$30,488,800
--------------------------------------	--------------	--------------	--------------

State Officers' Salaries – Footnotes

State of Illinois

1. Pursuant to the 1990 Report of the Compensation Review Board (Board) and the 1990 Senate Joint Resolution No. 192, all salaries reviewed by the board receive an annual Cost of Living Adjustment (COLA), effective every July 1st. The COLA is based on a federal index for the calendar year preceding the scheduled increase known as the "Employment Cost Index, Wages and Salaries, By Occupation and Industry Groups: State and Local Government Workers: Public Administration", published by the U.S. Department of Labor, Bureau of Labor Statistics. Pursuant to this index, all salaries are scheduled to be increased by 1.1 percent effective July 1, 2011.
2. Senate Committees: The 97th General Assembly decreased its number of committees from 29 to 26.
3. House Committees: The 97th General Assembly number of committees decreased from 54 to 45.
4. Pursuant to PA 91-25 and 91-798, the governor is allowed to set the salaries to amounts not to exceed 85 percent of the governor's salary. The governor's authority to set these salaries was deleted by Public Act 096-0800.
5. Pursuant to Executive Order 2004-6, the Department of Insurance was created. The Division of Insurance within the Department of Financial and Professional Regulation was abolished. All the powers, duties, rights, and responsibilities of the Division of Insurance within the Department of Financial and Professional Regulation were transferred to the Department of Insurance.
6. State Police Merit Board: Board members received \$237 per Diem in fiscal year 2010 and \$237 per Diem in fiscal year 2011. Board members will receive \$240 per Diem in fiscal year 2012, in accordance with the law.
7. Illinois Racing Board: \$300 per Diem to a Maximum of \$12,527 for fiscal year 2010, \$12,527 for fiscal year 2011, and \$12,665 for fiscal year 2012 as prescribed by law.
8. Pursuant to PA 95-666, effective July 1, 2010, the compensation for each Executive Inspector General shall be made from appropriations made to the comptroller for this purpose.

Note: The requested appropriation amounts for State Officers' Salaries and Other Expenditures may be adjusted to reflect recommendations made by the state Compensation Review Board and/or appointment actions taken by the governor and General Assembly.

*State of Illinois***PRIMARY BUDGET OUTCOME**

Making government more efficient and effective.

State of Illinois

PRIMARY BUDGET OUTCOME

Making government more efficient and effective.

MEETING THE OUTCOME

- **Represent the state** on appeal in all cases originating in appellate districts of fewer than three million residents upon the request and at the direction of state's attorneys otherwise responsible for prosecuting the appeals.
- **Represent state's attorneys** in the performance of their duties under the Illinois Controlled Substances Act, the Narcotics Profit Forfeiture Act, the Cannabis Control Act, the Drug Asset Forfeiture Procedure Act,

the Capital Crimes Litigation Act and the Illinois Public Labor Relations Act.

- **Assist state's attorneys** with criminal investigations and prosecutions, and serve as special prosecutor when appointed.
- **Conduct criminal justice training programs.**

PROGRAM PROPOSALS

- **Improve efficiency** by cross training employees, sharing workloads and getting results out quickly. Conserve utilities, resources and commodities to help alleviate state budget deficiencies.

State of Illinois

PRIMARY BUDGET OUTCOME

Improving the efficiency and fiscal stability of state government.

that final decisions are rendered within statutory time frames.

MEETING THE OBJECTIVE

- **Conduct investigations and hearings** regarding state employee appeals of discharges, suspensions, transfers, allocations, layoffs and demotions. Ensure

- **Consider amendments** to the Class Specification Plan and Personnel Rules, the Position Classification Plan and Personnel Rules, and the Principal Policy Exemption Requests within 30 days of their submission. Evaluate principal policy exemption requests in the same month they are submitted by agencies.

PERFORMANCE MEASURES

State of Illinois

PRIMARY BUDGET OUTCOME

Making government more efficient and effective.

MEETING THE OUTCOME

- **Administer election laws and activities** by overseeing election authorities and election processes, as well as disseminating essential information to local election entities through the State Board of Elections (SBE) statewide website and various elections-related publications. In addition, SBE administers petition filing and objection activities and review/certification of elected Illinois officials.
- **Oversee and enforce the Illinois Campaign Finance Act** by review of required disclosure reports submitted by various campaign committees and related groups. Create and operate a statewide reporting database to collect key business and disclosure information for vendors doing business or wishing to do business with the state. Business Entity Reporting or BEREP system, collects required vendor disclosure information and makes those data available to interested state agencies or other procurement-related entities.
- **Test and certify voting system equipment** through reviews and tests of new electronic voting systems or modifications to existing electronic systems submitted for review by equipment vendors. Errors are addressed with vendors before systems are certified for use in local election jurisdictions.

PROGRAM PROPOSALS

- **Enhance agency operational infrastructure and procedures** to meet the additional requirements of recent ethics reform legislation. Continue the development of agency staffing and other resources to accommodate more frequent timelines for campaign disclosure reporting, as well as comply with other mandates under the disclosure reform initiative.
- **Develop and implement an electronic voting results canvassing system** for all statewide election jurisdictions, as required by recent state mandate. This system will result in a more streamlined and accurate canvass of statewide vote totals, as well as eliminate time-consuming manual activities in the local canvass process.
- **Rewrite primary campaign disclosure software** to meet revised disclosure requirements mandated by recent state legislation (SB1466).
- **Modify and enhance statewide electronic voter registration database** the Illinois Voter Registration System (IVRS) will improve and refine system features, as well as successfully maintain necessary data interfaces with the wide variety of various electronic voter registration systems in Illinois' various counties and local jurisdictions of election.

PRIMARY BUDGET OUTCOME

Improving the efficiency and fiscal stability of state government.

MEETING THE OUTCOME

- **Oversee the ethics training of executive branch employees** and publish ethics manuals, guides and public information materials to facilitate compliance with the ethics act.
- **Receive activity reports from the Attorney General** and the Executive Inspector General.

- **Conduct administrative hearings** regarding alleged Ethics Act violations by executive branch employees, such as gift ban and the revolving door prohibition.
- **Continue to implement powers granted to it in the Procurement Code** by executing the authority to appoint Procurement Compliance Monitors, State Purchasing Officers and Chief Procurement Officers to oversee and review the procurement processes.

State of Illinois

PRIMARY BUDGET OUTCOME

Improving the efficiency and fiscal stability of state government.

State of Illinois. With significant procurement reform in the past year, policy recommendation and analysis, as well as rules proposition by affected agencies and universities, have been significant emphases for PPB staff.

MEETING THE OBJECTIVE

- **Review contract award postings for all agencies** governed by the Illinois Procurement Code. Monthly average for Procurement Policy Board (PPB) contract award postings is 678 contracts for average spending of \$820 million, including initial contract terms and potential renewals.
- **Review and recommend policies and rules** necessary to govern procurement for the

PROGRAM PROPOSALS

- **Train and certify State of Illinois procurement staff.** PPB will sponsor training and certification of State of Illinois procurement staff through the National Institute of Governmental Purchasing. Results will be measured by the number of state employees trained and certified.

PRIMARY BUDGET OUTCOME

Improving the efficiency and fiscal stability of state government.

MEETING THE OBJECTIVE

- **Set license fees and dry cleaning solvent taxes** at a sufficient level to ensure funding exists to operate council functions.
- **Operate as a communication and information resource** emphasizing best management practices.
- **Require competitive bidding of cleanup activities.**
- **Evaluate new remedial technologies** along with prioritizing claims. Continue to assist in moving low risk sites to closure, at which

point no further work is needed to clean the sites.

- **Require drycleaners participating in the insurance program to maintain membership** in a council approved environmental compliance program.

PROGRAM PROPOSALS

- **Improve operations** through continuous review of procedures, with the goal of eliminating inefficiencies.
- **Prioritize cleanup costs to maintain fund solvency**, evaluate new remedial technologies and encourage competitive bidding to control costs.
- **Work with claimants and consultants to complete all remediation activities** in a timely manner.

State of Illinois

PRIMARY BUDGET OUTCOME

Making government more efficient and effective.

MEETING THE OUTCOME

- **Investigate and evaluate** approximately 1,800 allegations of fraud, waste, abuse and misconduct annually. Completes more than 350 investigations.
- **Monitor and investigate hiring improprieties.**
- **Evaluate Revolving Door Determinations Program.** Evaluate/review approximately 180 revolving door submissions. Make determinations to identify and prevent state

employees from engaging in personally beneficial compensation arrangements.

- **Oversee ethics training and compliance program**, including 172,000 ethics training course sessions for state employees under OEIG's jurisdiction. Training courses promote the reporting of misconduct, deter intentional state employee misconduct and prevent unintentional ethical lapses by state employees.

PROGRAM PROPOSALS

- **Expand duties in accordance with Senate Bill 3965**, if enacted. Duties would include serving as executive inspector general for the Regional Transit Authority and transit boards.

PRIMARY BUDGET OUTCOME

Making government more efficient and effective.

MEETING THE OUTCOME

- **Produce annual budget book** in accordance with the governor's budget priorities.
- **Provide budget analysis and research** for state agencies and the General Assembly. Analyze state agency programs, personnel and operating needs while working closely with agency directors and chief financial officers to continuously improve and streamline services at a lower cost.
- **Manage Illinois Jobs Now!** statewide capital program with a goal of creating and retaining over 439,000 jobs for Illinois residents. The capital program addresses infrastructure needs such as roads and rail, as well as schools and hospital construction.
- **Market bonds** for pension, capital and debt restructuring needs. Strategic borrowing has been a key to addressing ongoing state needs during the fiscal crisis.

PROGRAM PROPOSALS

- **Increase transparency and reporting** of budget projections and state spending and consult with experts on improving our financial reporting system.
- **Implement Budgeting for Outcomes**, a budget development process that includes establishing goals, allocating resources, monitoring performance and evaluating outcomes. Consult with experts from within and outside of government to develop metrics that more accurately reflect progress toward the state's long-term goals.
- **Coordinate unified budgeting** for health care agencies. Unified budgeting addresses complex budget needs of long-term care services for adults who qualify for state assistance.
- **Develop and roll out ePAR 2.0 and improved Procurement Business Case System.** In accordance with Executive Order 10 (2010), the Electronic Personnel Action Request (ePAR) system and the Procurement Business Case System (PBC) and will be redesigned to streamline the process of effectuating a personnel transaction and procurements.

PRIMARY BUDGET OUTCOME

Improving the efficiency and fiscal stability of state government.

educational organizations and other units of government.

MEETING THE OBJECTIVE

- **Preserve and increase the value of state capital assets** by addressing the facility needs such as roofing systems, heating and ventilating systems and lighting systems, and improving the safety, efficiency and work flow across state facilities.
- **Reduce energy costs** associated with running state facilities by improving the efficiency of lighting, insulation, heating and air conditioning and windows.
- **Promote green construction** by incorporating new sustainability standards into the design of major renovations and new construction of state agencies,

PROGRAM PROPOSALS

- **Train and certify staff** in sustainable and green construction requirements and continue to emphasize the need for those requirements in all areas of construction.
- **Reduce costs** by incorporating various construction delivery methods tailored to specific project needs to allow for more control and cost containment during construction. Continue to emphasize the importance of trimming construction costs and time schedules.
- **Provide continued opportunities for minority and female-owned firms** to participate in state funded construction projects.

State of Illinois

PRIMARY BUDGET OUTCOME

Making government more efficient and effective.

MEETING THE OUTCOME

- **Maximize effective technology across government.** Continue to implement the multi-year initiative to consolidate the state's telecommunications and information technology infrastructure in order to combine and standardize information technology and telecom services across state agencies, increase efficiencies, upgrade technologies, improve reliability of service, and reduce unnecessary duplication of hardware, software and personnel resources. The department will expand and upgrade its broadband network to provide connectivity to educational institutions, hospitals, museums, libraries, not-for-profit organizations and state government.
- **Expand green efficiency and fleet initiatives.** Continue to grow the use of alternative fuels, flexible fueled vehicles and hybrid vehicles in the states fleet by double digits over the next several years. Continue efforts to lower the overall cost of managing the state fleet, including strategic replacement of fleet assets. Expand green building practices in the acquisition and management of the real property portfolio. Pursue efficiency initiatives designed to reduce energy consumption and energy costs in state facilities.
- **Expand property strategic planning initiatives.** Having already eliminated 700,000 square feet from the lease portfolio and reduced overall lease costs by 10 percent, the department will continue to aggressively pursue efficient utilization of space throughout the state's real property portfolio, and reduce total occupancy costs in state-owned and leased facilities.
- **Improve efficiencies in the provision of employee benefits programs.** Administer the state's four group insurance plans, as well as life insurance, long-term care, flexible spending, commuter savings, deferred compensation, workers' compensation, auto liability, insurance procurement and representation and indemnification programs. Continue to improve the efficiency and reliability of these programs by reducing administrative costs through automation, reducing program costs through cost control and review activities, and increasing participation in programs benefitting employees.
- **Increase diversity and access to opportunities in state government.** Continue to advance diversity employment programs and improve examining system automation to provide better access to job postings. Continue the efficient administration of the Upward Mobility and Veterans' Outreach Programs. The Bureau of Strategic Sourcing and the Business Enterprise Program will work together to increase diverse vendor participation in the provision of services to state agencies.
- **Streamline procurement processes.** Continue to focus on reducing the cost of state government while promoting consistency and compliance in procurement activities throughout state agencies under the governor. Work with the Executive Ethics Commission to fully implement the new procurement environment for agencies under the governor.
- **Communications.** Foster better communication among agencies, enabling them to more effectively communicate state programs, services and opportunities to citizens. This includes public information officers, graphic design, press and satellite services and other critical functions related to communications both within and external to state government.

State of Illinois

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Number of new Deferred Compensation Program participants	2,678.0	3,000.0	1,420.0	2,750.0	2,750.0
Percent of full time permanent state employees in code agencies that represent a minority group ^a	27.3%	27.4%	28.0%	27.3%	27.3%
Percent of mainframe transactions completed within one second	97.8%	98.0%	98.0%	98.0%	98.0%
Percent of property management work orders completed within the fiscal year.	91.0%	100.0%	99.5%	98.0%	98.0%

^a Current metric only includes race categories. Prior to fiscal year 2006, data available included females and disabled persons. Current data also excludes employees with provisional, temporary or emergency status.

PRIMARY BUDGET OUTCOME

Improving the efficiency and fiscal stability of state government.

MEETING THE OBJECTIVE

- **Administer tax collection.** The Department of Revenue (DOR) receives and corrects tax returns, deposits remittances, generates billing notices and assessments, conducts tax audits, conducts criminal and civil tax investigations, collects delinquent tax liabilities, responds to taxpayer inquiries, and provides the necessary technical and administrative support for these activities.
- **Local government tax administration.** A sales ratio study is used to issue property tax multipliers to counties that equalize the assessed value of property among the counties. The department also allocates state-collected tax monies to local governments.
- **Administer the Illinois Lottery,** through the development and marketing of lottery games, for the benefit of the Common School Fund, Illinois Jobs Now! capital program and specialty causes.
- **Administer the Liquor Control Commission,** which regulates the manufacturing, distribution and sale of liquor in the state. The commission also conducts underage tobacco compliance activities.
- **Serve as funding agency** to the Illinois Housing Development Authority (IHDA). The authority administers several affordable housing programs designed to help create affordable rental and residential housing for low-income residents within the state.

PROGRAM PROPOSALS

- **Expand electronic commerce.** The department will improve the efficiency of the document control, data capture and deposit functions by expanding various electronic commerce applications. These changes include the new corporate income tax filing and payment program, the federal mandate for expanded personal income tax electronic filing, expansion of the new Real Estate Transfer Tax electronic application to additional counties and the expansion of the department’s imaging system.
- **Increase services to taxpayers.** To increase efficiency as well as reduce burdens on businesses, the department plans to implement an electronic filing option for various transaction tax returns and to consolidate these returns with the retailers’ occupation tax return. The Taxpayer Access Portal (TAP) will reduce the department’s document control, data capture, deposit and taxpayer service costs by reducing the amount of paper processed and number of incoming telephone calls.
- **Increase collections** derived from the fiscal year 2011 initiative to expand the enforcement staff.
- **Improve taxpayer accessibility** by providing additional responses to frequently asked questions on the interactive voice response phone system and website, along with increasing the level of access to answer incoming telephone calls during peak periods.
- **Administer lottery privatization.** The lottery will be engaging the services of a private operations manager allowing the lottery staff to focus on licensing, regulation, claims payment and financial planning.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2008	FY 2009	FY 2010	FY 2011	FY 2012
Percent of dollars deposited on same day as receipt	90.3%	91.8%	93.9%	94.5%	94.7%
Revenue generated, reduced credits and refund liabilities through compliance activities	\$1,293.8	\$1,634.8	\$1743.0	\$2,315.0 ^a	\$1,660.0 ^b
Percent of returns filed electronically	28.3%	31.0%	39.2%	46.8%	53.2%
Percent of individual income tax refunds issued in 7 days	54.7%	61.7%	54.7%	60.4%	60.7%
Percentage of taxpayer assistance calls answered	26.1%	32.7%	58.8%	81.2%	84.3%
Number of months the department allocates money to local governments as established by statute	12	12	12	12	12
Tobacco retailers compliance rate	94.7%	87.5%	94.0%	96.0%	96.0%
Revenue generated from liquor licensing and enforcement (\$ thousands)	\$6,203.2	\$6,483.1	\$6,293.4	\$6,300.0	\$6,350.0
Lottery program gross income (\$ millions)	\$2,078.2	\$2,088.3	\$2,196.6	\$2,306.6	\$2,685.9
Lottery net income (Common School Fund, Capital funds, Specialty funds) (\$ millions)	\$657.1	\$625.0	\$668.1	\$685.0	\$704.0
Lottery sales per capita	\$162.0	\$163.1	\$171.2	\$178.7	\$208.0
Number of lottery retailers as of June 30	7,546	7,493	7,380	7,756	10,135
Lottery expenses as a percentage of transfers	32.2%	34.6%	40.2%	43.0%	41.0%
Complete real property sales ratio study within 90 days of receiving the final abstract from the local government assessors (days)	98	77	47	47	45
Percentage of county supervisors' of assessments with a multiplier of 1.000	84.3%	81.4%	82.0%	86.0%	90.0%

^a Includes \$715 million from the Amnesty program.

^b Assumes an estimate of \$1,810.0 minus \$150.0 accelerated from FY12 to FY11 as a result of the Amnesty program.

State of Illinois

PRIMARY BUDGET OUTCOME

Making government more efficient and effective.

MEETING THE OUTCOME

- **Provide regulatory and criminal law enforcement oversight of gaming in the State of Illinois.** The Illinois Gaming Board (IGB) audits, enforces and investigates gaming in Illinois to ensure its integrity.
- **License gaming operations and personnel.** The board will issue the 10th riverboat casino license, as well as issue or renew licenses for suitable owners, suppliers and occupational staff.
- **Provide financial support for education.** In accordance with the Riverboat Gambling Act, the IGB transfers available funds to the Education Assistance Fund.

PROGRAM PROPOSALS

- **Issue 10th riverboat license.** The board plans to issue the 10th riverboat casino license in Des Plaines and bring substantial fiscal benefits to both state and local governments.
- **Implement and administer video gaming in Illinois.** The IGB anticipates issuing over 15,000 - 20,000 licenses for manufacturers, distributors, suppliers, terminal operators, technicians, handlers and locations for video gaming.
- **Make efficient use of resources.** The board will strive to improve efficiency by cross-training and sharing workloads.
- **Secure additional resources for 10th riverboat casino and video gaming.** Additional personnel and equipment are necessary to staff the 10th riverboat casino, and to perform necessary audit and financial analysis.

DEBT MANAGEMENT

This page intentionally left blank.

Debt Management

State of Illinois

The governor, through the Governor's Office of Management and Budget (GOMB), is responsible for the issuance of General Obligation (GO) and Build Illinois (BI) bonds. These long-term debt obligations, coupled with pay-as-you-go resources, are used to fund a wide range of capital projects and activities in the capital budget.

The GOMB is charged with the management of the resulting indebtedness long after the funds have been used to support projects or grants. Due to the ongoing nature of this process, debt management is an integral part of the state's budgeting process.

The state's debt management goals are to:

- maintain debt affordability standards, focus capital spending on projects with the greatest economic development impact and limit capital borrowing and funding to the current available revenue structure;
- borrow at the lowest possible cost of funds and adapt to investor demand;
- monitor the state's outstanding indebtedness for possible refunding opportunities;
- maintain ongoing relationships with the rating agencies to obtain the highest ratings possible given the State's changing financial condition;
- foster the growth of minority-owned, female-owned and regional firms through participation objectives, which afford these firms opportunities to work on the state's debt-related activities.

ILLINOIS JOBS NOW!

Illinois Jobs Now! is an expansive \$31 billion capital program, which focuses on putting money directly into the Illinois economy, with the aim of spurring economic stimulus by creating jobs for the citizens of Illinois. *Illinois Jobs Now!* includes funding for schools, roads, transit, economic development, environment and energy projects, thus providing an

opportunity to invest in Illinois' future and workforce. Funding for *Illinois Jobs Now!* will be provided by a combination of state debt, with federal and local matching funds. The debt service on the bonds issued will primarily be supported by: (1) motor vehicle title fees; (2) license plate fees; (3) revenues from sales taxes on candy, sweet tea, coffee, grooming and hygiene products; (4) wine and spirits taxes; (5) establishing a new licensing and taxation program for video gaming terminals; (6) using existing monies deposited into the Road Fund; and (7) lottery improvements.

STATE-SUPPORTED INDEBTEDNESS

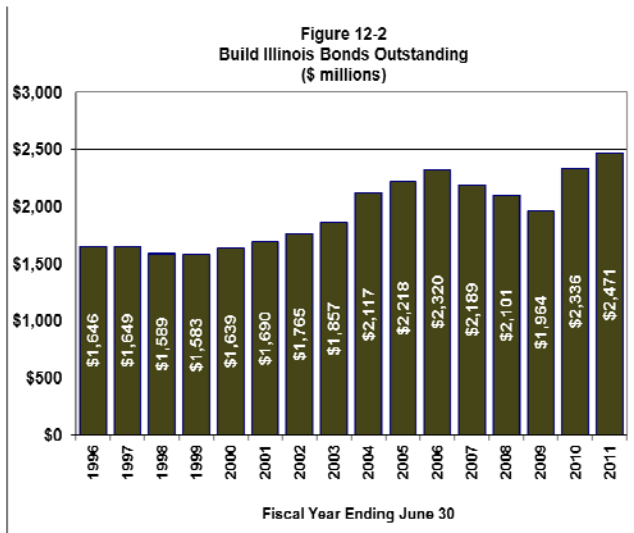

State Debt Profile

From fiscal years 2006 to 2009, the state paid off more capital bond principal than it issued. These decreases in outstanding state debt are illustrated in Figure 12-1 and Figure 12-2 below. The decreases in outstanding indebtedness created capacity for new capital investment in subsequent fiscal years. Figure 12-1 below assumes an issuance of approximately \$1.5 billion in fiscal year 2011, of which \$1.2 billion has already been issued.

Debt Management

State of Illinois

State Debt Comparison

Illinois, one of the largest states both in terms of population and overall economy, is ranked 13th in net tax-supported debt as a percentage of gross state domestic product, according to the most recent Moody's 2010 State Debt Medians Report, published in May of 2010. Further, Illinois ranked 11th and 14th, respectively, in net tax-supported debt per capita and as a percentage of personal income. Illinois' debt load as shown in this context is below other large states such as California, New York and New Jersey.

Municipal Bond Ratings

The state's outstanding indebtedness is rated by credit rating agencies that assign credit ratings (ratings) to issuers of certain types of debt obligations. The ratings measure the state's credit worthiness and therefore affect the borrowing cost to the state. The credit rating agencies review the state's current and projected financial condition, economic growth, and levels of indebtedness, which all factor in the rating assigned to the state. Although the state's credit worthiness is reflected in the ratings for both programs, the Build Illinois credit is considered AAA by Standard & Poor's due to the state's pledge of a strong revenue stream and high debt service coverage. The state's current underlying long-term credit ratings are reported in Table 12-1.

Table 12-1
Long Term Underlying Ratings

	General Obligation Bonds	Build Illinois Bonds
Standard & Poor's	A+ Negative	AAA Stable
Moody's Investor Service	A1 Negative	A1 Negative
Fitch Ratings	A- Stable	AA+ Stable

Minority-Owned and Woman-Owned Business Participation

Illinois is dedicated to inclusion of Minority-Owned Business Enterprises (MBE) and Woman-Owned Business Enterprises (WBE) in its capital market financing. As Table 12-2 illustrates, the state has exceeded its goal of 19 percent MBE/WBE participation in the fiscal year in which the negotiated sale method was utilized. In fiscal years 2008 and 2009, with Bond Act restrictions requiring competitive sales, the percentage of MBE/WBE underwriter participation was zero because it was much harder for these firms to access the capital required to participate in, and win, competitive sales.

Table 12-2
MBE & WBE PARTICIPATION SUMMARY
(\$ in Millions)

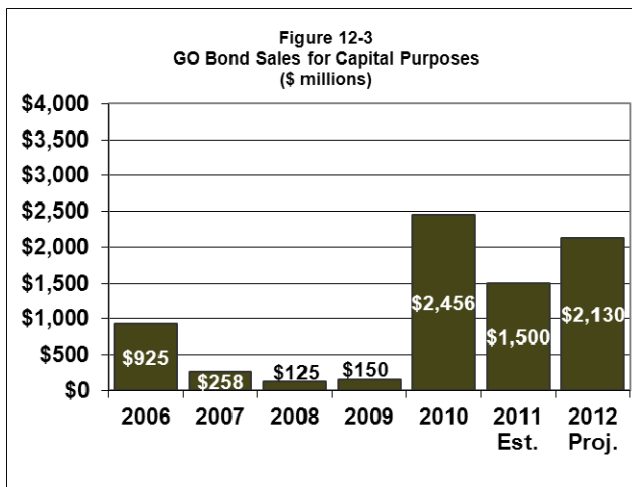

Bond Series	Bond Type	Project/ Refunding	Sale Amt	Sale Type	MBE & WBE Firm Participation

Debt Management

State of Illinois

General Obligation Bonding Program

Program Overview. The General Obligation Bond program is the primary vehicle for capital market financing for the state. It is governed by the General Obligation Bond Act, 30 ILCS 330 et seq. (GO Bond Act). General Obligation Bonds are secured by general tax revenues and guaranteed by the full faith and credit of the state. Proceeds are used for capital facilities, transportation, school construction, anti-pollution projects, economic development and coal development. Figure 12-3 presents bond sales between fiscal years 2006 and 2012.

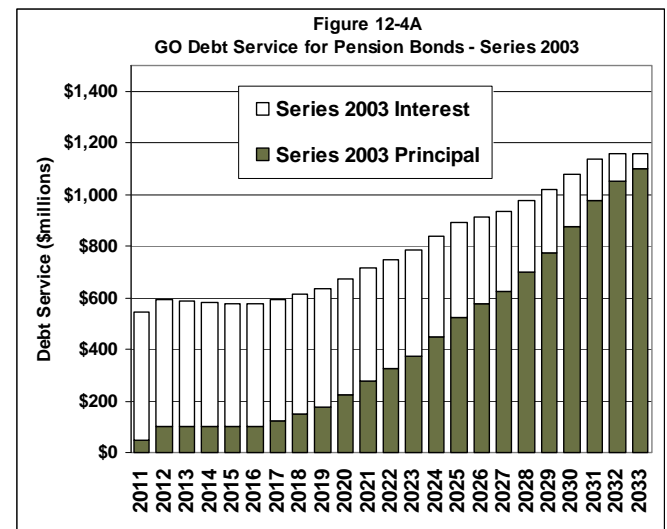

Build America Bonds. The American Reinvestment and Recovery Act temporarily created a new alternative to traditional tax-exempt financings for capital projects. These Build America Bonds are taxable but provide a 35 percent interest subsidy from the federal government. The state authorized and issued five GO Build America Bonds during fiscal years 2010 and 2011 as they provided a significantly lower cost of capital. For example, the \$1 billion Build America Bonds Series 2010-1 came at a total cost of 4.05 percent. If the state issued traditional tax-exempt bonds instead, the total cost would have been approximately 50 basis points higher.

Capital Purposes. The GO Bond Act currently authorizes the state to issue GO Bonds for the purposes and in the amounts listed below.

General Obligation Bonding Categories	
\$7,968,463,443	Capital Development - Construction funds for higher education, corrections, conservation, child care facilities, mental and public health facilities, local governments, the Open Land Trust program and other state capital purposes.
\$6,447,129,000	Transportation - Roads and bridge projects
\$3,501,870,000	Public Transportation - Air and rail
\$3,570,000,000	School Construction - Grants to school districts for school improvement projects.
\$585,315,000	Anti-pollution - Construction of municipal sewage treatment plants, solid waste disposal facilities, deposits into the Water Revolving Fund and U.S. Environmental Protection Fund, and funding claims under the Leaking Underground Storage Tanks Program.
\$688,200,000	Coal and Energy Development - Research, development and demonstration of coal and alternate energy sources and financial assistance for new power generating initiatives.
\$250,000,000	Medicaid Enhancement Funding - Special purpose funding of Medicaid services due to the enhanced federal participation
\$17,562,348,300	GO Pension Bonds - For the funding or reimbursing a portion of the state's contributions to state retirement systems.
\$40,583,125,743	Aggregate GO Bond Authorization

Pension Obligation Bonds. GO supported Pension Obligation Bonds (POB) were issued in 2003 as a replacement financing of a pre-existing unfunded pension liability. Debt service payments on the POBs are supported by deductions from the unfunded liability payment that would have been required had the POBs not been issued and had the pension funds not received the additional funding.

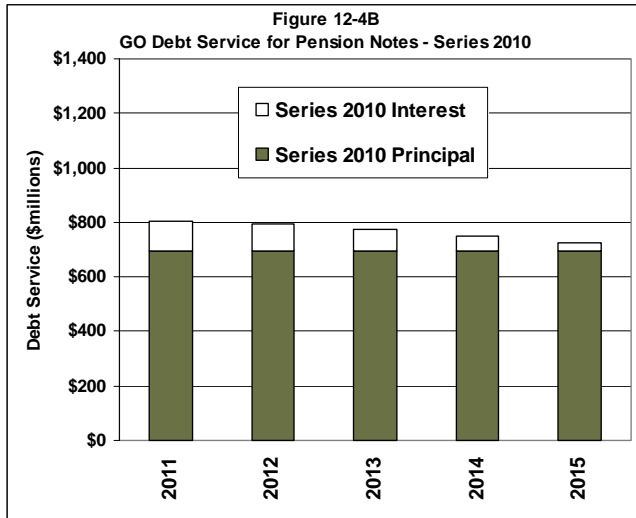

Based on consultation and advice from state retirement systems management, the structure of the POBs was designed to exactly mirror the characteristic shape of the unfunded liability payment schedule established by the 1995 Pension Funding Plan (see "Public Retirement Systems" chapter). This structure maximizes the earning potential of the retirement systems, versus the 5.05 percent cost of the POBs when issued. The debt service requirements of the POBs are included in the statutory debt service limit versus base appropriations.

Debt Management

State of Illinois

During the 2009 spring session, the General Assembly approved the issuance of \$3.466 billion in Pension Obligation Notes. These notes, to be repaid in five annual installments, funded the majority of the required contributions to the state's five pension funds for fiscal year 2010. The notes were issued on January 15, 2010. Future debt service is shown in Figure 12-4B.

In January 2011, the governor signed into law Public Act 1497 authorizing the sale of 8-year final maturity Pension Obligation Bonds for the state's fiscal year 2011 contribution to the designated retirement systems. The first installment of principal will not come due until 2014 and thus is structured with the prior year's Pension Obligation Notes in mind limiting the financial impact to the state. The proceeds of the sale will be used to reimburse any payments made from the General Revenue Fund or Common School Fund to the retirement systems, followed by contributions to the state's five pension funds. The bonds are expected to close in March of this year.

Security of the Bonds. GO Bonds are direct, general obligations of the state and, by law, the full faith and credit of the state is pledged for the payment of interest and principal due on these bonds. The GO Bond Act provides that the sections of the GO Bond Act containing such a pledge shall not be repealed until all GO Bonds issued under the GO Bond Act have been paid in full.

Continuing Appropriation. If, for any reason, there are insufficient funds in the General Revenue Fund, or the Road Fund, to make transfers to the General Obligation Bond Retirement and Interest Fund (GOBRI), as required by the GO Bond Act, or the General Assembly fails to make appropriations sufficient to pay the principal and interest on the outstanding GO Bonds, the GO Bond Act constitutes an irrevocable and continuing appropriation of all amounts necessary for that purpose and the irrevocable and continuing authority for, and direction to, the treasurer and the comptroller to make the necessary transfers, as directed by the governor, out of, and disbursements from, the revenues and funds of the state.

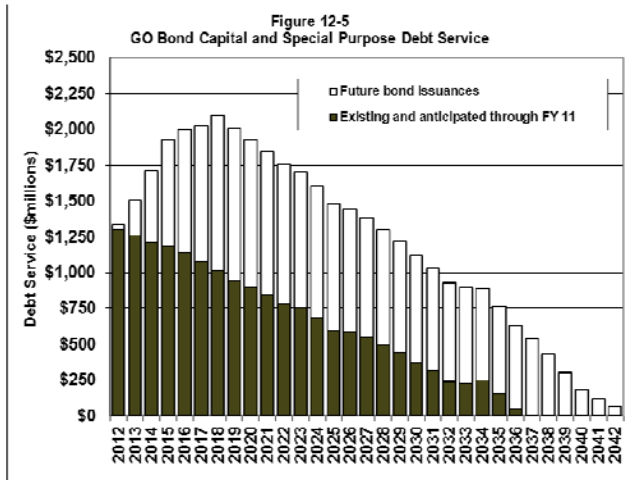

Debt Service Obligation. GO Bonds are primarily supported by revenue realized in the state's General Revenue Fund. The primary revenue sources that repay the GO Bonds are sales taxes, income taxes and motor fuel taxes. In addition, bonds issued for certain capital investments are supported by the following budgetary resources:

- Roads and Bridges - GO Bonds issued for road construction projects are primarily supported by motor fuel taxes received by the Road Fund.
- School Construction - GO Bonds for school construction purposes are repaid, in part, from cigarette and telecommunications taxes received by the School Infrastructure Fund.
- *Illinois Jobs Now!* - GO Bonds issued for *Illinois Jobs Now!* will be primarily supported by revenue realized in the state's Capital Projects Fund.

Figure 12-5 below displays GO Capital Bond debt service for all bonds issued and expected to be issued by June 30, 2011, and debt service for anticipated future issuances of Capital Bonds in fiscal years 2012-2017.

Debt Management

State of Illinois

Refunding Bonds. The GO Bond Act also authorizes the issuance of General Obligation Refunding Bonds in an amount up to \$4,839,025,000 outstanding. Refunding bonds are issued to refund or advance refund the GO Bonds that are currently outstanding, in order to take advantage of favorable market conditions and reduce the state’s debt service.

In February 2010, GO refunding bonds were issued to refund all or a portion of certain maturities of outstanding General Obligation bonds. Pursuant to the General Obligation Bond Act (30 ILCS 330), refunding bonds may only be issued if the net present value of debt service savings is at least 3 percent of the principal amount of the refunding bonds to be issued. The Series February 2010 bonds achieved approximately 7 percent, or \$106 million, in net present value savings and also reduced the average life of the refunded bonds.

Interest Rate Exchange Agreements. The use of derivative instruments, such as interest rate exchange agreements, allows the state to limit its exposure to interest rate fluctuations on variable rate bonds. An interest rate exchange consists of an agreement between two parties (known as counterparties), in which one stream of future interest payments is exchanged for another, with one stream being fixed and the other often linked to the London Interbank Offered Rate (LIBOR) or Securities Industry and Financial Markets Association (SIFMA) rate. In October 2003, the state entered into fixed interest rate exchanges with five separate

counterparties (as shown below) in connection with the issuance of \$600 million of variable rate GO Bonds. This issuance remains the state’s only derivative linked issuance.

Table 12-3
Interest Rate Exchange Agreements
(\$ in Millions)

JP Morgan Chase Bank, N.A.	\$ 54,000	Aa1	AA-	AA-
Total Notional Amount		\$ 600,000		

Short Term Debt. Pursuant to the Short Term Borrowing Act (30 ILCS 340), the state is authorized, under the direction of the governor, comptroller and treasurer, to issue short term certificates or notes in an amount not to exceed (a) 5 percent of the state’s appropriations for that fiscal year, if significant timing variations occur between disbursement and receipt of budgeted funds within a fiscal year and the debt is paid within that fiscal year; or (b) 15 percent of the state’s appropriations for that fiscal year for up to 12 months, if there is a failure in revenues.

In February 2007, September 2007 and April 2008, short term certificates were issued to provide liquidity to the Hospital Provider Fund to make supplemental payments to certain public and non-public hospitals within the state, pursuant to the Medicaid State Plan approved by the federal government on November 30, 2006. The Hospital Assessment Tax receipts, together with Federal Medicaid matching funds related to making the supplemental payments, were used to repay the certificates. In December 2008, certificates were issued for the purpose of supplementing fiscal year 2009 liquidity. In May and August of 2009, certificates were issued due to failures in revenue. In July 2010, certificates were issued for the purpose of making payments on fiscal year 2010 obligations, due to a shortfall in revenues from budgeted amounts in that year. The following table shows the state’s history of short term borrowing.

Debt Management

College Saving Bonds. In 1988, the College Savings Bond program was created as an alternate method of saving for future higher education expenses. This program allows Illinois citizens to invest in bonds, which are secured by the General Obligation pledge. Additional financial grants, subject to appropriation by the General Assembly, may be available in the year the College Savings Bonds mature for students attending an Illinois higher education institution. The last issuance of the College Saving Bond program was October 2002.

Total	\$ 2,111.6	\$ 4,078.7	\$ 245.0

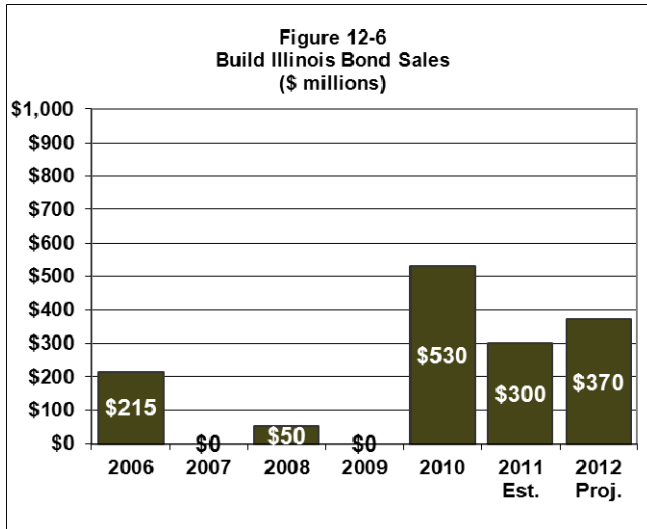

Healthcare Provider Relief Fund Bonds. In the spring session of 2010, the governor signed into law PA 96-885 amending the General Obligation Bond Act to allow for the sale of one-year maturity GO Bonds to fund deposits into the Healthcare Provider Relief Fund. The proceeds of the sale were for the exclusive purpose of funding Medicaid services subject to the enhanced federal participation under the American Reinvestment and Recovery Act. The bonds were issued on April 12, 2010, and will mature on March 31, 2011.

Build Illinois Bonding Program

Program Overview. The Build Illinois Bond Act (BI Bond Act), 30 ILCS 425 et. seq. established the Build Illinois Sales Tax Revenue Bonding program in 1985. The Build Illinois Sales Tax Revenue Bonding program complements the state's efforts in economic development by funding infrastructure, educational and vocational facilities, and environment protection projects, and by providing incentives for business location and expansion in Illinois. Figure 12-6 displays bond sales between fiscal years 2006 and 2012.

Debt Management

State of Illinois

Capital and Grant Purposes. The BI Bond Act authorizes the state to issue Build Illinois Sales Tax Revenue Bonds (BI Bonds) for the purposes and in the amounts listed below:

Build Illinois Bonding Categories	
\$2,917,000,000	Infrastructure – Construction, reconstruction, modernization and extension of the state's infrastructure
\$1,352,358,100	Education – Educational, scientific, technical and vocational programs and facilities, and the expansion of health and human services
\$150,150,900	Environmental – Protection, restoration and conservation of the state's environmental benefits
\$196,000,000	Economic Development – Incentives for the location and expansion of businesses in Illinois resulting in increased economic benefits.
\$4,615,509,000	Aggregate BI Bond Authorization

Security of the Bonds. BI Bonds are limited obligations of the state payable solely from a senior lien on (a) 3.8 percent of the state's Sales Tax revenues (BI Tax Act Amount) and (b) all additional state Sales Tax revenues (other than 1.75 percent thereof) to the extent that the BI Tax Act amount, together with the other revenues of the state, are insufficient in any month to provide the amounts required by the BI Bond Act to be transferred to the Build Illinois Bond Retirement and Interest Fund (BIBRI Fund).

Debt Service Obligation. The state has pledged that the governor shall include in each annual state budget, and the General Assembly shall annually appropriate for each fiscal year, the Required Bond Transfer from the BIBRI Fund, in an amount estimated to equal the greater of (i) the annual debt service requirement for such fiscal year as certified by the Trustee or (ii) the BI Tax Act Amount for the fiscal year.

The Required Bond Transfer is pursuant to the BI Bond Act and the Master Trust Indenture. The BI Bond Act further provides that, in the event that such an appropriation is not made, the BI Bond Act constitutes the irrevocable and continuing authority and provides direction to the treasurer and comptroller to make the necessary transfers and deposits, as directed by the governor, and to make the payments of principal and interest as required by the BI Bond Act to support outstanding BI Bonds.

Refunding Bonds. BI Refunding Bonds may be issued for the purpose of refunding or advance refunding any BI Bonds previously issued under the BI Bond Act.

In June 2010, BI refunding bonds were issued to refund certain outstanding Build Illinois Bonds. Due to advantageous market conditions, the refunding allowed for the state to realize significant cost savings. Pursuant to the Build Illinois Bond Act (30 ILCS 425), refunding bonds may only be issued if the net present value of debt service savings is at least 3 percent of the principal amount of the refunding bonds to be issued. The Junior Refunding Bonds, Series 2010 achieved 6.3 percent or approximately \$30 million in net present value savings to the state.

OTHER STATE-SUPPORTED INDEBTEDNESS

State-Supported Revenue Bonds. Revenue bonds are either those bonds for which the state earmarks a specific revenue source for debt service or bonds under which the state is committed to retire debt issued by certain state authorities or Illinois municipalities pursuant to law. The state's commitment is based upon various Illinois statutes and upon contractual arrangements with the issuing authorities. The table below identifies the bonding program's name, issuing authority or agency and total revenue bond outstanding for each respective program. See the appendix following this chapter for a complete debt service schedule.

Debt Management

State of Illinois

Table 12-6
Other Revenue Bonds Outstanding
(Projected as of June 30, 2011)

Bonding Program	Issuing Authority/Agency	Bonds Outstanding (\$ in Millions)
Civic Center Bonds	Metropolitan Exposition and Auditorium Authorities	\$82.3
Dedicated State Sales Tax Revenue Bonds	Metropolitan Pier and Exposition Authority	\$18.0
McCormick Place Expansion Project Bonds	Metropolitan Pier and Exposition Authority	\$2,465.6
ISFA Bonds	Illinois Sports Facilities Authority	\$433.0
Certificates of Participation	Central Management Services	\$18.3
Total		\$ 3,017.2

Certificates of Participation. The state has incurred certain long-term obligations in the form of certificates of participation to finance renovations and buildings that are leased to state agencies. The total amount outstanding is displayed in Table 12-6 above. No additional debt obligations of this type have been incurred since 1996, and the authorization subsequently ended with PA 93-0839.

STATE-RELATED INDEBTEDNESS

Moral Obligation Pledges. Seven state bond authorities are currently permitted to issue moral obligation bonds. The state's moral obligation pledge has been used by these regional authorities to issue bonds, enhanced by the governor's pledge to request the General Assembly to support the debt service requirement of the enhanced bonds, if the borrower defaults. The moral obligation pledge may be invoked by the issuing authority if it determines that it does not have sufficient resources for the payment of principal and interest in the upcoming year. At that time, the authority must certify to the governor the amount of that deficiency and request state appropriations for the amount of the shortfall. The following table shows the number and outstanding amount of all bond issues currently bearing the state's moral obligation pledge.

Table 12-7
Total Moral Obligation Bonded Debt
(As of December 31, 2010)

(\$ in Millions)	Issuing Authority	Bond Series	Principal at 12/31/10
	Southwestern Illinois Development Authority	5	\$ 31.6
	Quad Cities Regional Economic Development Authority	0	\$ -
	Upper Illinois River Valley Development Authority	2	\$ 20.5
	Tri-county River Valley Development Authority	0	\$ -
	Will-Kankakee Regional Development Authority	0	\$ -
	Illinois Finance Authority	34	\$ 275.1
	Illinois Housing Development Authority	7	\$ 0.1
Total		48	\$ 327.3

State law requires each authority to certify amounts withdrawn from bond reserve funds to pay principal and interest on moral obligation bonds. The amounts, so certified, are recommended for annual appropriation at the governor's executive discretion.

The moral obligation does not constitute a legally enforceable obligation of the governor to recommend an appropriation. Moreover, the General Assembly is not statutorily required to make an appropriation for an authority's certified amount, nor must the governor sign any such appropriation bill if passed by the General Assembly.

Moral Obligation Bonds in Default. Currently there are four moral obligation enhanced projects that are in default and receive financial support from the state. The two regional development authorities, Southwestern Illinois Development Authority (SWIDA) and Upper Illinois River Valley Development Authority (UIRVDA), have certified that in fiscal year 2012 there will not be sufficient resources to pay the amounts due on certain issues from 1998 to 2000 backed by the moral obligation pledge.

Table 12-8 shows the principal remaining at the end of calendar year 2010, as well as the appropriation request necessary to fund debt service anticipated in fiscal year 2012.

Table 12-8
Moral Obligation Bonded Debt
(As of December 31, 2010)

Year	Issuing Authority	Defaulted Project Name	FY 2012 Appropriation Request	Principal at 12/31/10
1998	Southwestern Illinois Development Authority	Waste Recovery-Illinois	\$ 291.9	\$ 1,540.0
1998	Upper Illinois River Valley Development Authority	Waste Recovery-Illinois	\$ 292.7	\$ 1,215.0
1999	Southwestern Illinois Development Authority	Laclede Steel	\$ 1,115.1	\$ 11,985.0
2000	Southwestern Illinois Development Authority	Alton Center Busn Park	\$ 681.9	\$ 5,745.4
Total			\$ 2,381.6	\$ 19,585.4

Agricultural Loan Guarantees. The Illinois Finance Authority (IFA) administers loan guarantee programs for lenders to qualifying

Debt Management

State of Illinois

farmers and agribusiness purpose borrowers. The guarantees are backed by reserve funds held by the IFA and a standby continuing appropriation from the General Revenue Fund. Annual continuation of a loan guarantee requires lenders to perform borrower and collateral monitoring pursuant to IFA guaranty agreement policy.

In the event of a default, up to 85 percent of an outstanding loan balance may be paid to a secured lender, with the first 15 percent of losses from subsequent collateral recovery to be incurred by the lender. Table 12-9 below summarizes the current loan guarantee programs the IFA administers.

Table 12-9
Outstanding Agricultural Loan Guarantees
As of December 31, 2010

Loan Guarantee Funds (\$ millions)	Statutorily Authorized	Originally Issued	Loans 12/31/2010	Number of Loans	Reserves 12/31/2010
Agricultural	\$ 160.0	\$ 28.0	\$ 18.8	97	\$ 10.0
Farmer and Agri-Business	\$ 225.0	\$ 60.2	\$ 45.0	55	\$ 7.7
Total	\$ 385.0	\$ 88.2	\$ 63.8	152.0	\$ 17.7

Illinois Student Assistance Commission State Guarantee. Pursuant to authority granted under the provisions of Section 152 of the Higher Education Student Assistance Act, approved and effective May 7, 2009 (the Guarantee Legislation), the Illinois Student Assistance Commission (ISAC) has designated its Student Loan Revenue Bonds, Series 2009 (State Guaranteed) as guaranteed by the state (the Guaranteed Bonds). The Guaranteed Bonds were issued in late May 2009, in the aggregate principal amount of \$50 million. The state's guarantee constitutes a general obligation of the state and the full faith, credit and resources of the state are irrevocably pledged to the punctual payment of the principal of, and interest on, the Guaranteed Bonds as the same becomes due, whether at maturity or upon redemption. The guarantee of the state is limited to bonds so designated by the ISAC in an aggregate principal amount of not greater than \$50 million.

Railsplitter Tobacco Settlement Authority. Pursuant to the Emergency Budget Act (P.A. 96-0958) the Railsplitter Tobacco Settlement Authority Act was created to provide fiscal relief by delivering a large, one-time revenue source to the state. Pursuant to this Act, the state sold to the Railsplitter Tobacco Settlement Authority (Railsplitter) its interest in the tobacco settlement revenues under the Master Settlement Agreement. Railsplitter then sold, via a bond issuance, a portion of the tobacco

Debt Management

State of Illinois

settlement revenues through a process called securitization, which essentially converted the future revenue stream into a lump sum. In exchange for the future tobacco revenues, Railsplitter transferred to the state the proceeds of the bonds. Further, each year all excess amounts of tobacco revenues left after debt service will be transferred to the state. This transaction was completed in December 2010 and provided approximately \$1.3 billion to the state.

Demographic Information

State of Illinois

ILLINOIS DEMOGRAPHICS

With a population of nearly 13 million people, Illinois is the fifth most populous state in the country. Geographically, Illinois is richly diverse. Covering over 56,000 square miles, the state is nearly 400 miles from Rockford in the north, to Cairo in the south. Across the state, there are distinct regions ranging from the Northern Stateline region bordering Wisconsin to the Southern region that overlooks the confluence of the Mississippi and Ohio rivers. Two regions encompass the largest metropolitan areas of Illinois. The Northeast Region covers the Chicago metropolitan area and the Southwest Region is part of the St. Louis metro area. Other regions in the state represent areas that share similarities in employment, commuting patterns and other important social and economic characteristics.

Two-thirds of the state's population is in the Chicago-Naperville-Joliet Metropolitan Statistical Area (MSA). The six largest MSAs in Illinois account for over 80 percent of the state's population. From 2000 to 2009, all but two of Illinois' 11 metro areas increased in population, contributing to the state's overall population growth of 4 percent. Over the same period, the average age of the Illinois population increased, with 55-64 year-olds the fastest growing age group. Conversely, the number of people in Illinois aged 35-44 decreased by over 200,000, a drop of more than 11 percent. Married couples decreased as a share of overall households, while "non-family households" (persons living alone and householders sharing the home with non-relatives) continued to increase their share of total households.

Demographic Information

State of Illinois

ILLINOIS HEALTH STATISTICS

In 2007, the Illinois infant mortality rate was 6.6 deaths per 1,000 live births, a decrease of 10.8 percent from the 7.4 rate recorded in 2006. Nationally, the infant mortality rate increased from 6.7 infant deaths per 1,000 live births in 2006 to 6.8 per 1,000 births in 2007.

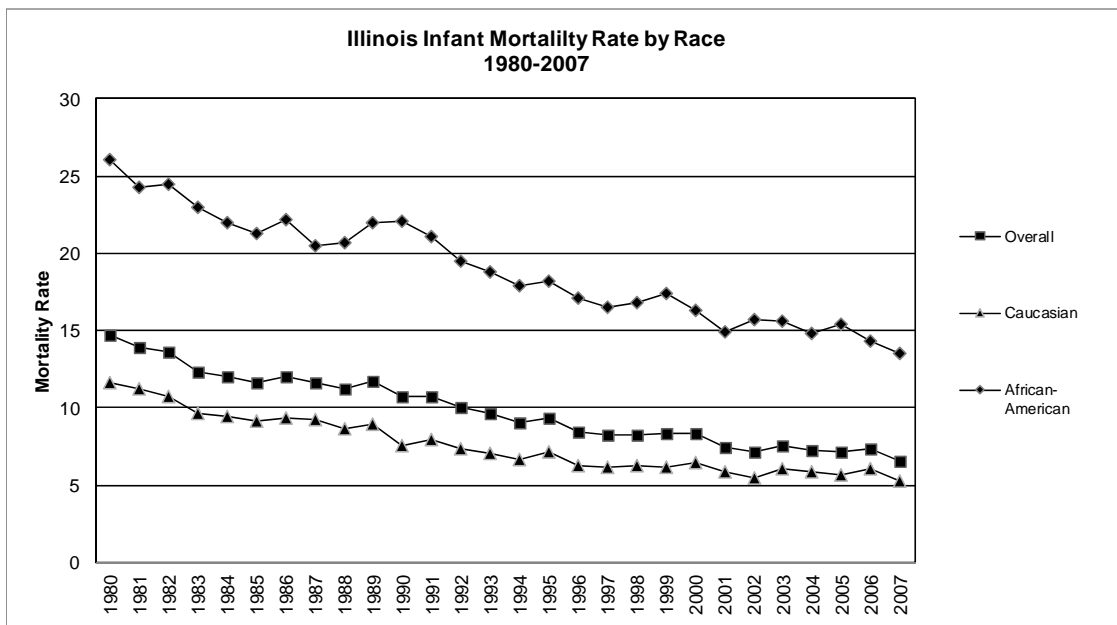

The death rate for African American infants dropped 6.3 percent to 13.5 per 1,000 live births, more than twice the rate for infants born to Caucasian mothers. The 2007 rate for African American infants represented a record low. Among Caucasian babies, the infant mortality rate dropped 13.1 percent in 2007 to 5.3 deaths per 1,000 live births.

Geographically, infant mortality rates in Chicago stayed the same in 2007 at 7.9. The death rate for African-American children in Chicago was 13.0 in 2007, up from the 12.6 deaths per 1,000 live births recorded in 2006, while deaths

for white infants declined from 5.6 in 2006 to 5.5 in 2007. Downstate (all geographic areas outside the city of Chicago) infant deaths decreased from 7.3 in 2006 to 6.2 in 2007. The downstate rate in 2007 for African-American babies was 14.0, a decrease from 16.2 in 2006, while the rate for whites dropped from 6.2 in 2006 to 5.2 in 2007.

In 2007, 1,196 babies (366 in Chicago and 830 downstate) died before their first birthday (71 percent died within the first 27 days of life) compared to 1,343 infants (360 in Chicago and 983 downstate) in 2006. The total number of births in 2007 was 180,530, a .01 percent increase from the 180,503 recorded in 2006.

The infant mortality rate is figured annually by taking the number of children who die before reaching one year of age and dividing that figure by the number of babies born in the same year, then multiplying by 1,000.

State of Illinois

LEADING CAUSES OF DEATH

Heart disease remains as the leading cause of death in Illinois. In 2007, diseases of the heart accounted for nearly 26 percent of all deaths compared to 34 percent in 1990.

Likewise, the rate of death from heart disease has declined from 307 deaths per 100,000

population in 1990 to 200 deaths per 100,000 population in 2007. Deaths from malignant neoplasms (cancer), the second leading cause of death, stayed the same as a percentage of all deaths over the same period (24 percent). The rate for malignant neoplasms has declined from 214 deaths per 100,000 in 1990 to 187 in 2007.

Leading Causes of Death in Illinois

Glossary

State of Illinois

ALPLM - Abraham Lincoln Presidential Library and Museum

Abusive Tax Shelters - Any plan or arrangement devised to avoid paying federal and state income tax, including but not limited to, "listed transactions" as defined by the Internal Revenue Service.

Accrual Method - Recognizing when transactions occur, not when money is exchanged. In other words, income is counted when the sale occurs, but expenses are counted until the goods or services are received.

Activity Measure - Information or data used to quantify the delivery of state services. For instance, the number of people served or the number of cases closed.

Ad Valorem Tax - A tax assessment levied on the actual or estimated value of an item or service, rather than its usage.

All Funds - Every fund appropriated to, or spent by, an agency.

American Recovery and Reinvestment Act (ARRA) - The federal government's \$787 billion plan to jump-start the U.S. economy and create jobs.

Annualize - To provide full-year funding for the next fiscal year when a program is started or a person is hired part way through the current fiscal year.

Appropriation - Spending authority from a specific fund for a specific amount, purpose and time period.

Assessments - A levy imposed for a specific purpose. Typically the medical assessment program under which the Department of Healthcare and Family Services levies a fee on long-term care and other providers to help fund Medicaid liability.

Attrition - Natural reduction in caseload or staff. For example, attrition through retirement or resignation.

Authorization - An act of the legislature that establishes or continues a program or agency and sets forth the guidelines to which it must adhere.

Available Fund Balance - The total amount of money in a fund at a particular point in time, typically at the beginning of a month or year.

Balanced Budget - A balanced budget occurs when total receipts equal total outlays for a fiscal year.

Balance Sheet - Presentation of the financial condition at a specific point in time including assets, liabilities and fund balance.

Basis of Accounting - The method of accounting used to track and report state revenues and expenditures. For example: cash-budgetary or accrual.

Benchmark - A measurement that allows comparison to other similar organizations. This can be used to track performance over time.

BIBRI - Build Illinois Bond Redemption Fund

Bond - A debt security that grants the holder specific and binding authority to receive a return of principal and periodic interest payments up to and including the instrument's maturity. The state uses bonds to finance long-term capital projects.

Bond Fund - A fund that receives proceeds from the sale of bonds to be used for capital projects.

Bond Rating - An assessment of the credit risk with respect to a specific bond issue.

Bond Retirement and Interest Fund - A fund used to repay principal and interest on bonds or other debt obligations, typically spent pursuant to a continuing and irrevocable appropriation.

Budgetary Balance - Available cash balance on June 30 minus lapse period spending for the fiscal year just ended.

Glossary

State of Illinois

Budget Authority - Authority provided, by law, to incur financial obligations that will result in outlays.

Budget Deficit - The excess of expenditures over revenues in a fiscal year.

Build Illinois - A state economic development and public infrastructure program begun in 1986 and primarily funded by dedicated state sales tax revenue bonds.

Budget Resolution - The annual framework that sets targets for total budget authority, total outlays, total revenues, and the deficit, as well as discretionary and mandatory allocations within the spending targets.

Budgeting for Outcomes - process of budgeting where an annual budget is based on how effectively programs provide results that citizens value, rather than being based on the money allocated in the previous fiscal year.

Cap - Legal limit on annual discretionary spending.

Capital - Buildings, structures, equipment and land. Acquisition, development, construction and improvement of capital is typically funded through bond funds.

Capital Budget - A capital budget is a spending blueprint that identifies capital projects that invest in assets with a long, useful life for the state.

Capital Expenditures - Includes expenditures from all aspects of the capital budget: financial and physical planning, land acquisition, architecture and engineering, construction and durable equipment purchases, and grants and loans to other entities for capital purposes.

Case Management - Monitoring and oversight of the delivery of services, which may include coordination of all services to a client.

Caseload - The number of clients being served at a point in time, sometimes used in the context of clients per staff.

Cash Flow - The amount of cash available during a period of time, calculated by subtracting spending from the sum of the receipts and the beginning balance.

Census - Population measure, typically of clients in a facility or program.

Certificate of Participation - Similar to bonds or other debt instruments; a security issued by the state or a third party gives the holder a share of the stream of annual appropriated lease payments made by the state.

Client - A person or family receiving services.

CMS - Central Management Services

Commodities - Line item for consumable items used in connection with current agency operations. For instance, household, medical or office supplies; food for those in institutions; coal, bottled and natural gas; and equipment costing less than \$100.

Common School Fund - One of four funds that comprise the state general funds. It is used to fund elementary and secondary education. If revenues from the lottery, bingo, public utilities, cigarette and sales taxes and investment income, among others, are insufficient to make monthly general state aid payments, the Common School Fund receives automatic transfers from the General Revenue Fund.

Consent Decree - An agreement between both parties in a lawsuit that binds them and determines their rights and obligations. While made under sanction of the court, it does not bind the court, and it is not a judicial sentence.

Continuing Appropriation - Statutory authority for the comptroller and treasurer to spend funds in the event the legislature fails to appropriate necessary funds or appropriates an insufficient amount for a specified purpose.

Continuing Resolution - Provides for the ongoing operation of the government in the absence of enacted appropriations, usually at the same spending rate as the prior year.

Glossary

State of Illinois

Contractual Services - Line item for services provided by a non-state employee or vendor including utilities; medical services for those in institutions; professional, technical or artistic consulting; and property and equipment rental.

Debt Service - Payment of principal, interest and other obligations associated with the retirement of debt.

Debt Held by the Public - The cumulative amount of money the state has borrowed from the public and not repaid.

Debt Limit - The maximum amount of state debt that may legally be outstanding at any time. It includes both the debt held by the public and the debt held by government accounts. When the debt limit is reached, the government cannot borrow more money until the legislature has enacted a law to increase the limit.

Dedicated Funds - Revenues assessed and collected for a specific state program.

Deficit - See Budget Deficit

Depreciation - The allocation of the value of capital assets over time.

Discretionary Spending - Spending that the legislature controls through annual appropriations bills.

Divisions - Organizational units within agencies for programmatic or administrative convenience.

Education Assistance Fund - One of four funds that comprise the state general funds. It is used to fund elementary, secondary and higher education. It receives 7.3 percent of the state income tax net of refunds, as well as wagering taxes paid to the state by riverboat casinos.

EEO - Equal Employment Opportunity

Electronic Data Processing (EDP) - Line item for lease or purchase of computer or other data processing equipment and related services including supplies, services and personnel.

EMAP - Emergency Management Accreditation Program

Employee Retirement Contributions Paid by State (Pension Pick-Up) - Line item to pay an employee's required contribution to the State Employees' Retirement System, which an agency has chosen or contracted to make on behalf of the employee.

Entitlement - Program benefits that must be provided in a timely fashion to those who meet eligibility criteria and that may not be taken away without due process.

Equipment - Non-consumable items used in connection with current agency operations, such as office furniture, vehicles, machinery, and scientific or other major instruments and apparatus.

Executive Branch - Charged with carrying out and effectuating the law through the day-to-day operations and activities of state government. The governor, as chief executive officer of the state, is responsible for the operation and administration of state agencies.

Executive Order - A decree or mandate issued by the governor for the purpose of interpreting or implementing a provision of the law.

Expenditures - State spending. Agencies submit payment vouchers to the comptroller's office, which prepares a state check (warrant) and maintains accounting records.

Federal Aid - Funding provided by the federal government.

Fiscal Note - A statement attached to a bill giving the estimated amount of increase or decrease in revenue or expenditures, and the present and future fiscal implications of a bill.

Fiscal Year - Illinois state government's fiscal year is July 1 through June 30. This is the period during which obligations are incurred, encumbrances are made and appropriations are expended. The federal government's fiscal year is October 1 through September 30.

FPL - Federal Poverty Level

Glossary

State of Illinois

FTE - Full Time Equivalent

Full Faith and Credit - A pledge or promise to repay general obligation debt.

Full-Time Equivalent - A calculated measure of full-time employment for comparison purposes. Each full-time employee works 37.5 hours per week for 52 weeks per year.

Fund - An account established to hold money for specific programs, activities or objectives.

Fund Balance - The amount of cash available in a fund as of a given date.

GASB - Governmental Accounting Standards Board

General Funds - Refers to the following group of funds, inclusively: the General Revenue Fund, the Education Assistance Fund, the Common School Fund and the General Revenue-Common School Special Account Fund.

General Obligation Bonds - Bonds issued for capital purposes as direct legal obligations secured by general tax revenues and guaranteed by the full faith and credit of the state.

General Revenue-Common School Special Account Fund - Used for accounting purposes to receive 25 percent of state sales tax and subsequently transfer these moneys to the Common School Fund.

General Revenue Fund - The largest of four funds that comprise the state general funds. It receives the majority of undedicated tax revenues, mostly income and sales taxes, for use to operate and administer state programs.

General State Aid - An unrestricted, formula-driven grant that comprises the largest portion of state assistance to local school districts. The amount of funds a district receives depends on its financial need, which is measured by its average daily attendance, its equalized assessed valuation of property, its local tax measured by its statutory tax rate and its concentration of low-income families within the district.

GCDHC - Governor's Commission on Discrimination and Hate Crimes

GFOA - Government Finance Officers Association

GOMB - The Governor's Office of Management and Budget; serves the governor's financial, management and budgeting needs by providing accurate, timely and objective information.

Grant - An award or contribution to be used either for a specific or a general purpose, typically with no repayment provision.

Group Insurance - Line item for life and health insurance program for all state employees, retirees and their dependents.

Headcount - The number of employees at a specified period of time, typically either the actual number of staff working or a calculated full-time equivalent.

Highway Fund - A fund that receives special dedicated revenues related to transportation. For example, the motor fuel tax or federal highway trust funds are to be used to support the construction and maintenance of transportation facilities and activities.

Hiring Lag - The savings in personal services and benefits associated with the time period between an employee leaving the job and a replacement being hired.

I-CLEAR - Integrated Citizens and Law Enforcement Analysis and Reporting System.

Illinois FIRST - A \$12 billion, multi-year public works initiative begun in fiscal year 2000. Half of the money is provided from bond proceeds with the remainder covered by a combination of local, state and federal resources.

Income Tax Surcharge - Originally a temporary increase of 0.5 percent in the state personal income tax and 0.8 percent in the corporate income tax established in July 1989 to fund education, local governments and property tax relief. Subsequently, in July 1991, half of the

Glossary

State of Illinois

surcharge was made permanent and dedicated to education. The remaining half was made permanent in July 1993.

Infant Mortality - Measure of infant deaths during the first year of life per 1,000 live births.

Infrastructure - The foundation or framework of a system or organization; it is indispensable to supporting the purposes and operations of a wide range of public and private sector entities and activities. The physical infrastructure of the State of Illinois is the framework of facilities including prisons, universities, mental health centers and state parks; and the transportation network encompassing highways, bridges, airports, public transit rail, freight rail and passenger systems.

IT - Information Technology

ITECS - Illinois Transportable Emergency Communications System

Judicial Branch - Charged with interpreting and applying laws.

Lapse - The portion of an appropriation that is not spent during the authorized period, typically the fiscal year, including the lapse period.

Lapse Period - The two-month period following the fiscal year (July 1 to August 31) when agencies can liquidate liabilities incurred before the end of that fiscal year (June 30).

Lapse Period Spending - Spending that occurs during the lapse period from the previous year's appropriation.

LESO - Law Enforcement Support Office

LEED - Leadership in Energy and Environment Design standard for green building design.

Legislative Branch - Charged with making and enacting the law, including appropriations.

Legislative Transfer - Reallocation of appropriation amounts among line items by the General Assembly during the fiscal year. Distinguished from a 2 percent transfer, which

may be accomplished by the executive branch without participation of the legislative branch.

Line Item - Specific purpose of an appropriation.

Liquidate - To settle or pay a debt, or to convert assets into cash.

Local Government Distributive Fund - Receives one-tenth of the income tax proceeds to the general funds, via a transfer, for distribution to units of local government based on population. Funds may be used for any purpose.

Lump Sum - Appropriation line for a general program purpose without specific line items identified.

Managed Care - The process of coordinating and controlling all services provided to a client to assure efficient and effective results.

Mandate - A law or regulation that generally should be followed, whether or not funding is provided. The State Mandates Act permits certain regulations and laws to be ignored if funding is not provided.

Mandatory Spending - Controlled by permanent law rather than annual appropriations.

Match - Contribution to a program that is required to receive a program grant, may be either money (hard match) or services (soft match).

Medicaid - Public assistance financed jointly by the state and federal governments to provide medical care for individuals who meet certain eligibility criteria.

Modified Accrual Basis - The basis of accounting under which revenues should be recognized during the accounting period in which they become available and measurable. Expenditures should be recognized during the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which should be recognized when due.

Glossary

State of Illinois

Moral Obligation - A duty that is not binding or enforceable by law. Typically, debt service on bonds issued by others that the state agrees to consider funding if the issuer is unable to pay. There is no legal guarantee the state will make such payments.

MD - Metropolitan District

MSAs - Metropolitan Statistical Areas

N/A - Not available

NFIRS - National Fire Incident Reporting System

NITE - National Information Technology Equipment

Obligations - Binding agreements that result in immediate or future outlays.

Opportunity Returns - A program created in 2003 to coordinate state, federal and local economic development expenditures in the state and organize development activities in 10 distinct economic regions.

Other Funds - All state and federal funds except the four general funds.

Other Operations - Administrative, nongrant expenses of state agencies, except salaries and payments for fringe benefits. For example, contractual services, travel, printing and telecommunications.

Outlays - Payments to liquidate obligations, largely measured on a cash basis.

Pay-As-You-Go - Refers to requirements that new mandatory spending proposals or tax reductions must be offset by cuts in other mandatory spending or by tax increases.

Peer Group - A relevant sample of similar agencies or organizations. Peer group can be defined by size, geography, complexity, function, etc.

Pension - Money paid under given conditions to a person following retirement or to surviving dependents.

Pension Liability - Pension liabilities arise due to an underfunding of the pension trust. When the underfunding exceeds the accumulated benefit obligation, a liability must be recognized.

Per Diem - By the day. A set amount of money paid for each day.

Performance Measure - Information or data used to determine the quality and outcomes of state services. For instance, the number of people who receive jobs following job counseling and employment services or the number of people who remain off drugs following treatment services.

Personal Services - Line item for salary payments to employees.

Phase-In - Staged expenditure pattern, such as initiating a program, hiring employees or opening an institution over time (see Annualize).

Pilot Program - Tentative model for future full scale development, typically a program operated in a limited area or targeted to a limited population to analyze its effectiveness before expanding its scope.

Position Title - Name and description of a job.

Printing - Line item for contractual services, materials and supplies used to produce and print information.

Program Area - Major organizational categories of state government, including education, human services, public safety, environment and business regulations, economic development and infrastructure, and government services.

Reappropriation - An unspent appropriation that continues into the next fiscal year.

Recommended - Governor's budget requests presented to the General Assembly for its approval.

Glossary

State of Illinois

Receipts - Sometimes called revenues, the collection of money from taxes, fees and similar government powers to compel payment.

Refunding Bonds - Bonds issued to refinance other outstanding bonds, which generally were originally issued at higher interest rates.

Refunds - Return of funds to the rightful owner, typically return of overpaid taxes or fees.

Repair and Maintenance - Upkeep, restoration and improvement of equipment and facilities in connection with current agency operations.

Reserve - Portion of appropriation intentionally set aside and not spent, either to increase lapse or as a contingency for increased liabilities in other line items.

Resources - All assets available for use by agencies, whether appropriated or not.

Retirement - Line item for employer's share of contributions to the state retirement system.

Revenues - Receipts from taxes, fees, assessments, grants and other payments used to fund programs.

Revolving Fund - Receives intergovernmental payments charged for providing central operational services such as computer, purchasing, state garage and telecommunications.

Road Fund - Receives motor fuel tax and other transportation-related revenues to operate the Department of Transportation, Illinois State Police and the Secretary of State's Office, and to build and maintain roads, bridges and other transportation facilities.

Shared Services Program - A multi-year program to reorganize state resources into high-performance, technology-based Shared Services Centers in order to more efficiently and effectively fulfill common service needs.

SEOC - State Emergency Operations Center

Social Security - Employer's share of contributions to the Federal Insurance Contributions Act (FICA) tax.

Special State Funds - All state funds except the general funds, bond-financed funds, debt service funds, federal trust funds and state trust funds.

State Agency - Government organization created by statute to administer and implement particular legislation.

Statute - A law enacted by the General Assembly and approved by the governor.

Structural Deficit - When the collective expenses of state obligations increase at a rate faster than the revenues received during an extended period covering more than one fiscal year.

Substitute Care - A program to place children away from their families in foster homes or residential facilities.

Superfund - The federal environmental program established to address abandoned hazardous waste sites.

Supplemental Appropriation - Additional spending authority given by the General Assembly during the fiscal year, following passage of the initial budget.

Surplus - Amount by which receipts exceed outlays in a fiscal year.

Target - A quantifiable metric to which an organization aspires. Incorporates elements of both performance and time to enable ranking of performance.

Transfer - Reallocation of resources, typically movement of money from one fund to another or shift of appropriation authority among line items.

Trust Fund - Receives revenues assessed and collected for a specific state program.

Two Percent Transfer - Reallocation of appropriation amounts by the governor during the fiscal year, limited to two percent of an

Glossary

State of Illinois

agency's appropriation by fund for specific operations lines. This is different from a legislative transfer, which requires approval by the legislative branch.

Unified budgeting - Process of budgeting for long-term health care where services are jointly managed by the departments of Human Services, Health and Family Services and Aging, to assure tax dollars are spent most efficiently and effectively to meet long-term care needs of older adults and people with disabilities who qualify for state assistance.

Unobligated Balance - Funding that has been approved or is available, but not yet obligated for any particular purpose.

VESSA - Victims' Economic Security and Safety Act

VOCA - Victims of Crime Act

Voids - Checks (warrants) that are not cashed.

Voucher - Document submitted to the comptroller requesting payment.

Warrant - Check issued by the comptroller to a third party who cashes it with the treasurer.

Zero Coupon Bonds - Bonds without interest coupons for semi-annual payment. Interest accrues over the life of the bond and is paid at maturity along with the principal.
