FISCAL YEAR 2013 BUDGET DETAILS

Laboratory Consolidation

The Department of Agriculture will consolidate two animal disease laboratories into one facility, which will maximize efficiency and achieve an estimated \$1.1 million in cost savings.

Grain Exports

The department's top priority will continue to be increasing exports - both to other states and to other countries. Illinois is second in the nation in the export of agricultural commodities. The department's goal is to increase exports by 40% in the next five years through more focused use of tradeshows, governor's trips abroad and more focused contacts with key grain and meat producers.

Fiscal Year 2013 Budget Fact Sheet Central Management Services

(CONTINUED)

FISCAL YEAR 2013 BUDGET DETAILS

Fleet Modernization

The Department of Central Management Services (CMS) will implement a statewide fleet replacement and leasing initiative which will lower the long-term costs of operating the state fleet. The new program will replace older, high-mileage and high-maintenance vehicles with newer, more fuel-efficient, cost-effective vehicles over a multi-year period. In addition, the Division of Vehicles will strategically reorganize the state garage locations to provide maximum benefit and efficiency for state agencies.

Group Insurance

CMS will implement operating efficiencies in the statewide group insurance programs by combining member-facing administrative operations with rate development, contracting and negotiations, and payment processing into a single agency organizational structure.

Statewide Broadband Initiative

Pursuant to an American Recovery and Reinvestment Act grant received in fiscal year 2011, CMS is embarking on the second full year of a multi-year plan to upgrade, expand and deploy high speed broadband infrastructure to 55 Illinois counties directly connecting over 3,000 anchor institutions (schools, libraries, government buildings, etc.).

Total	\$1,274,352.3	\$1,260,239.1	\$1,224,917.5

FISCAL YEAR 2013 BUDGET DETAILS

Improve Efficiency of Services

The Department of Children and Family Services (DCFS) will maximize federally reimbursable services, insure placement services are provided in the least restrictive setting and closely manage caseload to insure permanency benchmarks are met or exceeded.

Expand Services for Former Foster Youth

Research has shown that young adults coming out of foster care have better outcomes when they continue to receive state support during their transition to adult independence. Therefore, the Department of Children & Family Services (DCFS) will allow emancipated youth who are still under the age of 21 to receive assistance which will reduce the incidence of homelessness and incarceration, and increase achievement in education and employment, also saving taxpayers further expense in the future.

FISCAL YEAR 2013 BUDGET DETAILS

Double Exports by 2015

With Office of Trade and Investment funding proposed to increase over 40% in fiscal year 2013, the Department of Commerce and Economic Opportunity will aggressively promote Illinois' products to the world and develop foreign markets for Illinois businesses.

Increase Support of Entrepreneurs and Small Businesses

The department seeks \$107 million in appropriations to continue developing programs to promote growth of small businesses. The State Small Business Credit Initiative, along with other programs, is expected to provide much needed assistance to small businesses to increase job creation and investment in Illinois.

FISCAL YEAR 2013 BUDGET DETAILS

Conservation Police Officers

The Department of Natural Resources (DNR) will train 15 new conservation police officers to ensure public safety and law abidance in the State's natural areas.

Budget Reduction

DNR has reduced total appropriations by over 13%, which includes the elimination of *Outdoor Illinois* Magazine and reductions to Conservation World, urban fishing and waterfowl development.

Focus on Core Missions

The department will continue to preserve the State's 324 parks, fish, wildlife and natural areas that receive more than 45 million visitors annually. DNR will also continue to oversee the regulation of mining, oil and gas industries, while regulating water allocation in Northeast Illinois.

Total	\$141,419.8	\$140,819.7	\$125,211.0

FISCAL YEAR 2013 BUDGET DETAILS

Expanding the Department's Aftercare System

The expanded system will supervise and treat approximately 2,000 youth on parole in order to reduce recidivism. A successful Aftercare system will reduce reliance on institutional care thus leading to long-term savings.

Providing Adequate Educational Programming

The Department of Juvenile Justice (DJJ) will ensure that all youth's education needs are met which is a critical component in rehabilitating and readying the youth for a successful re-entry into society.

Facility Closures

The department will close the Illinois Youth Centers at Murphysboro and Joliet effective July 31, 2012. These closures will save Illinois' taxpayers approximately \$17.7 million in fiscal year 2013.

FISCAL YEAR 2013 BUDGET DETAILS

Facility Closures

The Department of Corrections will close Tamms Super Maximum Security Correctional Center, Dwight Correctional Center, and six adult transition centers (effective date 8/31/12). These closures will save Illinois' taxpayers approximately \$60M in fiscal year 2013.

Parole Reorganization

The Department will analyze and adopt new policies and procedures in an effort to reorganize parole operations in Illinois. This reorganization will utilize technology in electronic monitoring for low level offenders. Parole agents will continue to closely monitor sex offenders, murderers and other dangerous parolees.

Facility Operations

The Department will continue to adopt and refine internal policies to ensure that public safety of Illinois' residents is attained in the most fiscally responsible manner as possible. Policies under review will include roster management, delivery of mandated services and expansion of information technology.

FISCAL YEAR 2013 BUDGET DETAILS

Employment Service

The Department of Employment Security (DES) will refer qualified workers to employers with job openings and assist job seekers to find new or better employment.

Unemployment Insurance-Benefits

DES will contribute to the economic stability of the state through the provision of temporary, partial income support to eligible individuals who are unemployed through no fault of their own.

Unemployment Insurance-Revenues

DES will continue to collect Unemployment Insurance taxes from employers to ensure income support to those receiving Unemployment Insurance Benefits.

Labor Market Information (LMI)

DES will collect, analyze and distribute LMI for use by employers, public and private sector organizations, students and job seekers.

Creation of a New Call Center

The Department of Financial and Professional Regulation (DFPR) will create a new call center giving Illinois consumers and licensees a single resource for information regarding licensure status, applications and re-licensure applications.

Leverage Technology for Efficient Services

The DFPR will leverage technology in order to enable electronic license renewal, optimize online physician profile information, and implement paperless license processing system.

Protect Illinois' Most Vulnerable Citizens

The DFPR will protect Illinois' most vulnerable citizens through the continued implementation of various programs and legislative initiatives including, the Cemetery Oversight Act, the Mortgage Relief Project and the Debt Settlement Consumer Protection Act.

Fiscal Year 2013 Budget Fact Sheet Department of Human Services

(CONTINUED)

FISCAL YEAR 2013 BUDGET DETAILS

Rebalancing Initiative

In line with state efforts to rebalance Illinois toward more person-centered, community-based care for people with developmental disabilities and mental health conditions, the fiscal year 2013 recommended budget includes funding for transitioning residents of State Operated Developmental Centers and Mental Health Centers to community-based services.

Closures

Decreasing institutionalization and rebalancing toward community care will result in the closure of two Mental Health Centers and two Developmental Centers in fiscal year 2013. Tinley Park Mental Health Center is anticipated to close July 1st, 2012. Jacksonville Developmental Center is anticipated to close in the 2nd quarter of fiscal year 2013. Singer Mental Health Center is anticipated to close in the 4th quarter of fiscal year 2013. Murray Developmental Center is anticipated to close in the 4th quarter of fiscal year 2013.

Local Office Consolidations

The local offices provide initial determination of eligibility for many state and federal programs. Illinois currently has over 90 offices. In continuation of state efforts to increase efficiencies and reduce overhead costs, the state will continue to pursue consolidation of local offices in fiscal year 2013.

Home Services Program

The creation of a Home Services Medicaid Trust Fund will ease the burden on General Revenue funds by \$240 million. This action will allow the Department of Human Services to capture the Medicaid reimbursement and reinvest these funds into the Home Services Program.

Insurance Regulation and Education

The Illinois Department of Insurance (DOI) protects consumers by monitoring and ensuring the solvency of Illinois-based insurance companies. DOI makes certain that insurance companies and producers adhere to state insurance laws and regulations and works with insurance regulators from other states to maintain and enhance the efficiency of state based insurance regulation.

Meeting and Exceeding National Standards

DOI will maintain its National Association of Insurance Commissioners (NAIC) accreditation, meet the requirements of the Affordable Care Act (ACA) and continue to meet its statutory and regulatory obligations, while striving to achieve the desired budgetary outcome of increased protection of the public through education and enforcement of legal standards in insurance.

Medical Assistance Programs Cost Reductions

The Governor's goals for Medical Assistance appropriations at the Department of Healthcare and Family Services (HFS) are (1) no growth in unpaid bills, and (2) no growth in general funds appropriations. In order to meet these goals, the program must be significantly changed so that it costs \$2.7 billion less than it would otherwise in fiscal year 2013. The administration intends to work with the General Assembly in the upcoming legislative session to create a package of cost reductions that achieves these goals.

Veterans' Home Staffing and Census Levels

The Department of Veterans' Affairs will increase direct care staff at the veterans' homes, improving the level of care delivered to residents in line with recently enacted nursing home reforms. The department will continue to serve the current number of veterans' home residents.

Expansion of Veterans' Grants and Special Programs

The department will provide training to health care professionals in recognizing the effects of Post-Traumatic Stress Disorder (PTSD), a service previously offered but eliminated during fiscal year 2012. Additional funding for one-time bonus payments to combat veterans will be available, as military operations in Iraq and Afghanistan wind down and Illinois servicemembers return home. The department will also increase grants to veterans' organizations funded by the dedicated Veterans Cash lottery ticket, and will continue to fund the Veterans Care program of health benefits for qualifying veterans and their spouses.

Budget-Driven Responses

One response to the reduction in median grant sizes is that the Illinois Arts Council (IAC) will increase its offering of technical support to arts organizations. IAC will also continue to partner with local communities on initiatives that address local needs and opportunities in economic development and tourism.

Peer Group Network

The 2013 budget includes funding to cultivate a network of identified experts on issues related to the arts and culture who can serve as advisors to individual artists, community arts programs and arts educators.

Refine the Existing Grant Portfolio

IAC will seek new sources of funds through partnerships and other innovative strategies to facilitate opportunities for the youth of Illinois to participate in and enjoy the arts.

Licenses, Insurance, and Cleanup

DERTF will continue to process license renewals, refer active drycleaning facilities which have not renewed their licenses to the IL Attorney General's Office, process and issue pollution liability insurance policies, inspect insured drycleaning facilities to confirm compliance, and review and process budget and claim reimbursement requests for the cleanup of soil and/or groundwater contamination resulting from historical drycleaning solvent releases.

Information Source

DERTF will operate as a communication and information resource to drycleaners that emphasizes best management practices. DERTF anticipates issuing a newsletter to keep the drycleaners informed of Fund activities and any legislative changes that may impact the drycleaning industry.

Services and Programs

DERTF does not anticipate any reductions in service or program changes. Due to the release of additional prioritized remedial claims in FY2012, DERTF does anticipate an increase in reimbursement requests for cleanup expenses.

FISCAL YEAR 2013 BUDGET DETAILS

Pollution Control Board

The Illinois Pollution Control Board (IPCB) will need to pay for salary increases of newly unionized attorneys and to support the Executive Director and assistant positions, which will result in a \$330.2 thousand increase. IPCB's current appropriated funding sources are the Clean Air Act Permit and the Environmental Protection Permit and Inspection funds. Revenue has been steadily decreasing in these permit-driven funds. The FY13 budget request reflects a new appropriation for the IPCB from the Underground Storage Tank Fund to support the IPCB's efforts on Leaking Underground Storage Tank (LUST) permit and claims appeals.

Quality Historic Experiences

The Historic Preservation Agency (HPA) will continue to educate the next generation about Illinois history by offering quality interpretive services at its historic sites.

Operating Hours

In order to cope with budget shortfalls, the Abraham Lincoln Presidential Library and Museum (ALPLM) and other historic sites will operate on reduced hours, possibly closing up to two days per week during non-peak seasons.

Budget Reduction

HPA reduced its total General Revenue Fund (GRF) liability by 8.9%. In addition, a statewide effort to subject GRF transfers to the same scrutiny as regular appropriations resulted in a \$7.25 million direct appropriation from GRF for ALPLM operations. Prior to this year, \$8 million was transferred from GRF to the Abraham Lincoln Presidential Library and Museum Fund.

Grants/Donations

The agency will continue to seek federal grants, increased visitor donations, other funding sources and public-private partnerships.

Adult Redeploy

The Criminal Justice Information Authority (CJIA) will grant performance incentive funding to counties that provide probation supervision and treatment programs that reduce the rates of costly incarceration. Previously funded by the federal American Recovery and Reinvestment Act, Adult Redeploy requires General Funds in FY2013 to continue programming.

New State Funds

CJIA will administer grants and services from three newly-created state funds in FY2013. The funds include: Death Penalty Abolition Fund, Prescription Pill and Drug Disposal Fund, and Illinois Crime Stoppers Association Fund. The Death Penalty Abolition Fund received a one-time transfer of \$18.7 million from the Capital Litigation Fund in 2012, and will use the monies to train law enforcement personnel and provide services to families of victims of homicide or murder.

FISCAL YEAR 2013 BUDGET DETAILS

Oversight of State-Authorized Charter Schools

The State Charter School Commission is responsible for authorizing high-quality charter schools throughout the state, particularly schools designed to expand opportunities for at-risk students. The Commission will promulgate model charter authorizing practices and policies for adoption by Illinois districts.

Enhance Communication

The State Charter School Commission is developing enhanced communication with local school districts and charter school applicants by identifying opportunities to facilitate active participation by members of the commission.

Conduct Hearings

The Prisoner Review Board will continue to conduct hearings in the interest of public safety. The hearings will encompass setting terms and conditions of parole for offenders released from the Department of Corrections, violations of offenders paroled from the Department of Corrections, and decisions on release for offenders incarcerated at the Department of Juvenile Justice.

Victim Notification

The Prisoner Review Board will continue to provide victim notification when changes of inmates status occurs.

Electronic Records Management

The Prisoner Review Board will continue their joint effort with Central Management Services in order to move to electronic records management. This effort will help reduce costs by helping to eliminate the need for paper products, streamline information used in hearings, and provide better accountability of parolee and offender data.

FISCAL YEAR 2013 BUDGET DETAILS

Promote Quality Education

The Illinois State Board of Education (ISBE) is improving opportunities for all students, while enhancing the current education system to ensure: every student will demonstrate academic achievement and be prepared for success after high school; every student will be supported by highly prepared and effective teachers and school leaders; and every school will offer a safe and healthy learning environment for all students.

Build Foundation for the Future

ISBE offers every student access to a strong public education system to ensure college and career readiness and ultimately to compete in a global economy. The board adopts and implements internationally benchmarked learning standards and raises the bar for prospective teachers and instructional leaders.

Support School Districts and Educators

ISBE supplies comprehensive technology programs and support to school districts, educators and other partners to support the convergence of technology literacy, higher-order thinking, 21st century skills and the Illinois Learning Standards.

Radiation Protection

The Illinois Emergency Management Agency (IEMA) will commence a major modernization of the Remote Monitoring System which is used to conduct real-time environmental and radiological monitoring of Illinois' 11 operating nuclear reactors as well as decommissioned facilities.

Vision 2020

IEMA, in coordination with the Illinois Terrorism Task Force, will continue a series of homeland security summits bringing together leaders of local communities both public and private, sworn and civilian to build a comprehensive vision for the future of homeland security in Illinois. Input from town hall meetings in each of the eight IEMA regions will be consolidated and presented in a final summit in Springfield in September 2012.

Small Equipment Grants and Fire Truck/Ambulance Revolving Loan Programs

The Small Equipment Grant program does not have an adequate revenue source to support its operation in its current form. Likewise, the loan repayments for the Revolving Loan Programs are inadequate to support a yearly program. The Office of the State Fire Marshal (OSFM) has been setting aside funds in the Fire Prevention Fund for the past few fiscal years, but needs \$10M in Other State Funds to support these programs in FY 2013.

Chicago Underground Storage Tank Program

OSFM will be assuming operations of the Underground Storage Tank (UST) program from the City of Chicago in FY 2013. Prior to this OSFM had an intergovernmental agreement with the City of Chicago to conduct the UST program. OSFM can operate the program more cheaply than the grant provided to the city.

FISCAL YEAR 2013 BUDGET DETAILS

Performance Funding

The Illinois Board of Higher Education (IBHE) developed performance funding models for both two-year and four-year colleges and universities. This effort, framed by Public Act 97-320, established a link between the budgeting process and the goals of the *Illinois Public Agenda for College and Career Success*. The model allocates funds to public institutions of higher education based upon the achievement of state goals related to student success and degree completion. The fiscal year 2013 budget recommendation for Illinois' four-year public university system is based on the performance-based budget passed by IBHE in early February 2012.

Private Business and Vocational Schools Program

The fiscal year 2013 budget recommendation includes an appropriation of \$550,000 for the Private Business and Vocational Schools Program. This program, overseen by the Illinois State Board of Education until 2012, requires IBHE to hire five additional employees for its administration. Personnel dedicated to this program will be compensated through program fees deposited to the new Private Business and Vocational Schools Quality Assurance Fund.

FISCAL YEAR 2013 BUDGET DETAILS

Performance Funding

The fiscal year 2013 budget recommendation for the state's public universities is based on the performance-based budget passed by the Illinois Board of Higher Education (IBHE) in early February 2012. A performance funding model recognizing each university's mission and set of circumstances provides the framework for the budget passed by IBHE. The same funding model allocates funds to public universities based upon the achievement of state goals related to student success and degree completion.

Western Illinois University-Quad Cities Campus

In addition to IBHE's suggested funding, the fiscal year 2013 budget recommendation includes \$2.45 million for operations at the new Western Illinois University-Quad Cities Riverfront Campus. The new location is projected to double enrollment from 1,500 to 3,000 students. Additional funding will contribute to faculty and staff salaries at the new campus.

FISCAL YEAR 2013 BUDGET DETAILS

Performance Funding

The Illinois Community College Board (ICCB) introduced a performance funding formula to allocate state resources to schools within the state's community college system. The formula ties the objectives of the *Illinois Public Agenda for College and Career Success* to the public budgeting process by providing grants to community colleges that achieve state goals for education. The fiscal year 2013 recommendation includes an appropriation of \$720,000 for the distribution of grants to community colleges in accordance with ICCB's performance funding formula.

FISCAL YEAR 2013 BUDGET DETAILS

Monetary Assistance Program (MAP)

MAP, the fourth largest need-based program in the country, is Illinois' primary student financial assistance program. Last year, the program's first-come-first-serve model left more than 151,000 qualified students without awards due to limited funds. The fiscal year 2013 recommended budget includes an appropriation of \$436.68 million for MAP, a \$50 million increase over the fiscal year 2012 funding level.

Fiscal Year 2013 Capital Budget Fact Sheet

21st Century Schools Initiative

The Governor is proposing a \$1 billion program to change how schools provide an education, while helping schools upgrade their classrooms and laboratories.

It is time to boost the state's commitment to student learning in the 21st century and to develop schools that can teach children more effectively, producing tomorrow's leaders.

This capital initiative supports efforts to consolidate school facilities resulting in more efficient operations and broadening the opportunities for student learning.

21st Century Schools will provide funding for schools to improve their classrooms and to teach the latest technologies that are utilized in every aspect of daily life.

\$120 million to State Universities – \$10 million to each campus

This Initiative supports classroom and laboratory renovation with a focus on advanced technology capabilities to provide state-of-the-art instruction.

State capital dollars can be leveraged with the use of university facility fees and private grants.

\$144 million to 48 community colleges

\$3 million will be granted to each of the state's 48 community college campuses to support instruction in the science, technology, engineering and mathematics learning areas and to promote the Pathways Initiative, an innovative public private partnership between Illinois businesses and institutions of public education.

This effort will support the goal of reaching 60% of the adult population with a degree or career credential by 2025.

\$120 million – Higher Education

Grants will assist in building STEM/Health science buildings and laboratories. This funding supports facilities that will house cutting edge research in the sciences and health.

Investment in these capital facilities will spark increases in federal research grants; increases in patents and licenses; and technological innovation that spurs economic development.

Pre-K -12 Schools - \$616 Million

\$50 million in early childhood construction grants will be awarded to programs that serve high need children and create classrooms that stimulate learning.

\$566 million will be used to support innovative projects to upgrade technology in the classroom; and create green and healthy schools that encourage active learning and global connections.

Fiscal Year 2013 Capital Budget Fact Sheet

Clean Water Now!

The governor seeks a \$1 billion Clean Water Initiative to address the significant need to stabilize and improve the state's drinking and wastewater infrastructure.

Drinking Water:

Virtually every community in Illinois is affected by the need for clean water to sustain communities and support the infrastructure for economic growth and protect our most precious natural resource. Clean water systems provide safe and reliable drinking water for our families, reduces waste, and ensures that our state rivers and watersheds remain protected for wildlife and recreational use. According to the U.S. Environmental Protection Agency, the State of Illinois has a \$15 billion backlog of drinking water system repairs - the 4th largest backlog of any other state in the nation. Failure to improve the state's core infrastructure for the delivery of clean and safe drinking water jeopardizes the health of every Illinoisan.

To help meet that need, a \$500 million initiative will provide grant and loan assistance to local governments, so they can expand drinking water supplies, invest in green infrastructure, and replace or rehabilitate existing pipes, mains, and other green infrastructure needs. The Illinois Environmental Protection Agency (EPA) will also award grants to local governments to make these projects affordable for economically disadvantaged communities. The initiative is expected to create more than 5,500 construction jobs.

Wastewater:

According to the U.S. Environmental Protection Agency, deferred maintenance for wastewater systems across Illinois total \$17 billion - the 6th highest need for wastewater treatment systems in the nation. Many communities are either without sewer systems or using systems that are outdated resulting in untreated waste contaminating some areas.

A \$400 million initiative will provide loan and grant assistance to local governments to rehabilitate aging infrastructure, meet higher water quality standards and respond to the increased wastewater processing needs associated with population growth. Financial assistance programs, in both loans and grants, will provide local governments with the resources needed to improve aging infrastructure, to meet more protective water quality standards, and to respond to population growth. Grants will also be awarded to local governments to make these advances affordable for economically disadvantaged communities.

These projects may include improvements to publicly owned wastewater pipes and treatment facilities, combined sewer overflow corrections, enhanced nutrient and storm water management, and construction of central wastewater treatment facilities for unsewered communities. It is anticipated that the initiative will create more than 4,400 construction jobs.

Dam Safety and Floodplain Management:

Dam safety and floodplain management concerns must be addressed. Currently, thousands of homes and hundreds of thousands of agricultural acres are threatened by weakened levee systems and failing floodplain management structures. 4.4 million acres of land will be protected by ensuring that levees are structurally secure through a \$100 million commitment. The total agricultural land output of those 4.4 million acres is \$5.6 billion.

Fiscal Year 2013 Capital Budget Fact Sheet

ILLINOIS JOBS NOW!

Illinois Jobs Now! (IJN!), a \$31 billion capital program, passed with strong support from the General Assembly. The Governor signed IJN! into law in 2009.

Over the lifespan of its projects, IJN! will support and create more than 400,000 jobs and stimulate economic activity in every corner of the state. Funding is improving schools, building bridges and roads, improving public transit, providing affordable housing opportunities, protecting natural resources, and bolstering economic development.

Illinois' construction season will kick off in the weeks ahead, putting tens of thousands of people to work on projects to improve infrastructure all over the state. To date, we have improved 5,948 miles of highways and 842 bridges. In southern Illinois, we are building new lanes on Route 13, in Rockford a new Morgan Street Bridge and in East Peoria we are building Technology Boulevard.

We are continuing to focus on the completion of high speed rail. A demonstration section on the Chicago to St. Louis corridor between Dwight and Pontiac will be fully operational this fall. We remain committed to attracting the financial resources necessary to make Illinois the high-speed rail capitol of the Midwest.

The state has obligated or committed nearly \$10 billion in statewide bonded projects. Bonded projects can only proceed to sale with authorization from the General Assembly. And that authorization is running out.

As IJN! enters its final phase, the Governor is requesting the remaining \$4.3 billion in authorization to complete the program. Without the additional authorization:

- Nearly \$1.2 billion in new road and transit projects won't be able to start in FY 13.
- Illinois may have to return approximately \$250 million in federal matching road funds.
- No new school construction projects can begin.
- Broadband improvements that are underway, making access to high speed internet possible in many communities for the first time, won't be finished.
- Universities depend on maintenance money to keep their campuses safe and updated for their students. Without additional funding, they will be forced to move resources, which reduces funding for educating students.

Fiscal Year 2013 Capital Budget Fact Sheet

Renew and Repair

Governor Quinn is proposing \$1 billion to immediately address the safety and technology issues in state buildings, allowing the more efficient use of state owned space and providing the information technology necessary to bring state operations into the 21st century. This initiative will create more than 7,000 construction jobs.

In all regions of Illinois, state facilities are in severe disrepair. The state is rife with leaky roofs, moldy walls, faulty electrical systems and broken security systems, which is putting the citizens using these facilities at risk. The state built or purchased these structures several years ago, and they must be maintained for safety and efficiency. Years of accumulated deferred maintenance have exacerbated the cost of repairs. Capital funding targeted at fixing these structural and infrastructural failures will immediately improve operations and will deter more severe and serious breakdowns in the future, all of which will save the state money.

Facilities requiring immediate repairs include but are not limited to the following:

The Department of Corrections currently has facilities that are unusable due to leaking roofs and mold. These problems continue to escalate every year.

Veteran's Homes across the state need immediate attention to its most basic structural systems. Having honorably served our country, veterans have earned, deserve and are entitled to live in well maintained facilities.

Numerous state facilities pay too much for utilities and emergency repairs due to broken and faulty heating, cooling, electrical and plumbing systems. The Renew and Repair initiative will correct these substandard conditions

Leaking roofs are endemic statewide, with buildings forced to shut down causing operational problems that cost the state valuable resources. The initiative addresses these issues, while diminishing the escalating costs of deferred repairs.

State universities are also in need of capital renewal funding to address critical infrastructure repairs and maintenance.

Upgrades to healthcare, accounting and public safety information systems will dramatically improve state efficiency in operations, while improving to service to Illinois citizens.

State parks and campgrounds have fallen into disrepair costing the state tourist revenue. Campgrounds are underutilized with some even closing due to the lack of funds for essential repairs deterring tourists from visiting and revisiting the once popular "destination points".
