Restoring the Budget Stabilization Fund

Saving unanticipated revenues for a 'rainy day'...

- The Budget Stabilization Fund, Illinois' 'rainy day' fund, was created in 2001 but little had been invested in the fund since its creation.
 - ✓ The fund was spent down during the impasse and held less than \$60,000 in December 2018.
- The Governor and General Assembly deposited \$746 million into the fund in FY22 and are on track to deposit another \$1.174 billion in FY23.
- ✓ Under current statute, another \$138 million is estimated to be deposited in FY24.
- In FY24, the UI Trust Fund is expected to make the first repayment from the State's 2023 loan of \$450 million.
 - ✓ As that amount is repaid, the balance in the Budget Stabilization Fund will grow to over \$2.3 billion.

Budget Stabilization Fund EOY Balance

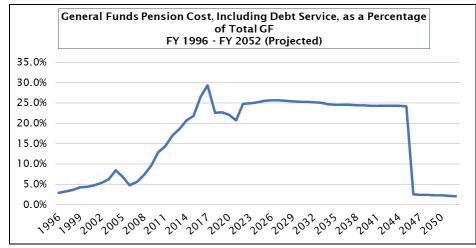

Funding Our Obligations

Pension Liability Reductions

Pension Buyouts: \$1.6 billion Additional \$700M contribution: \$2.4 billion **Total Savings: \$4 billion**

- The FY24 budget proposal fully funds the certified pension contribution of \$9.8 billion from the General Funds.
- The Governor proposes to contribute an additional \$200 million this year, on top of the \$500 million added in FY22 and FY23 – which reduces liability by an estimated \$2.4 billion.
- These contributions are the first time since the 1994 plan was enacted that the state will provide contributions above certified amounts.
- Illinois is benefitting from reductions in its pension liabilities from the pension buyout program – so far reducing liability by an estimated \$1.6 billion.
- These actions help to reduce the share of the General Funds budget going towards pensions, before the significant reduction in 2046.
