Year-to-Date General Funds Expenditures

Note: Budgeted figures below reflect the forecast for spending from General Funds appropriations for fiscal year 2025. Budgeted monthly expenditures were determined by analyzing historical data on the timing of vouchers presented. Public Act 103-0588 allows the Illinois Office of the Comptroller (IOC) to request from the State retirement systems additional pension vouchers for a given month over the required 1/12th of the certified pension payment amount. This pension “pre-payment” allows the retirement systems to pay annuitants directly and to keep the investment for longer, thereby potentially accruing additional investment returns. While this flexibility does allow the IOC to prepay state pension payments similar to their current ability to prepay interfund transfers to support Medicaid and Group Insurance, it does not allow them to make annual pension contributions above the certified amount for a fiscal year. Because the timing of prepayments are unknown, budgeted expenditures for the fiscal year will continue to reflect a 1/12th payment of the annual certified amount.

Appropriation Line Transfers

Each fiscal year, State agencies receive individual appropriations from specific funds for specific purposes. Examples of these would be individual appropriations for expenses such as personal services (payroll), equipment, commodities or printing. The State Finance Act (30 ILCS 105/13.2) authorizes agencies to transfer up to 2 percent of their aggregate operational and lump sum appropriation, as defined in statute, among operational line items as long as the appropriations are shifted from within the same fund. For fiscal year 2025, this limit was increased to 4 percent.

The below table discloses all fiscal year 2025 transfers between appropriation lines exceeding 2 percent.

Appropriation Line Transfers									
Through November 2024									
Agency	Fund	From Line	To Line	Date	Amount	Total Transferred YTD	2% Transfer Limit	4% Transfer Limit	
There are no transfer from FY25 appropriations that exceed the 2% limit.
